You can download the installation file for the 900 nodes program, version 9.3, from

http://www.adina.com/adinadownloads/900-2700nodes/ADINA900V93.exe

When the download has been completed, please right-click on the installation file, and check the file size. It should be

169 MB (177,484,547 bytes)

If the file size is not correct, the download has failed and a new download should be initiated to overwrite this corrupted file.

The following password is needed to perform the installation:

D28E5K
