

UNIVERSIDADE DE SÃO PAULO
ESCOLA SUPERIOR DE AGRICULTURA "LUIZ DE QUEIROZ"
GRUPO DE PESQUISAS EM AGROMETEOROLOGIA

LEB0630

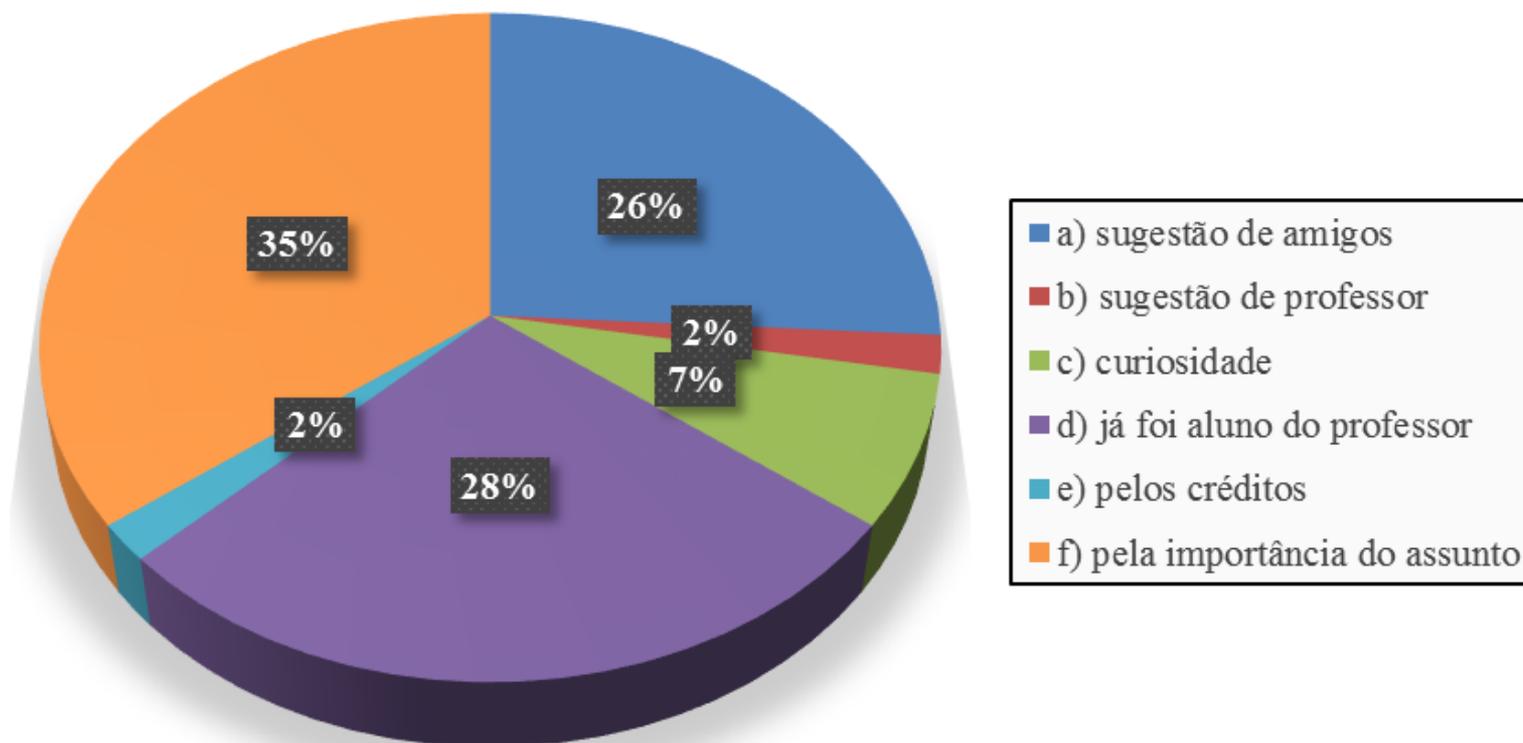

Agrometeorologia Aplicada (2017)

Avaliação inicial

Paulo Cesar Sentelhas
Henrique Boriolo Dias

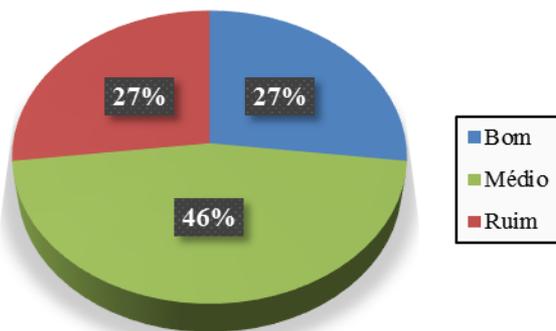

Como ficou sabendo da disciplina?

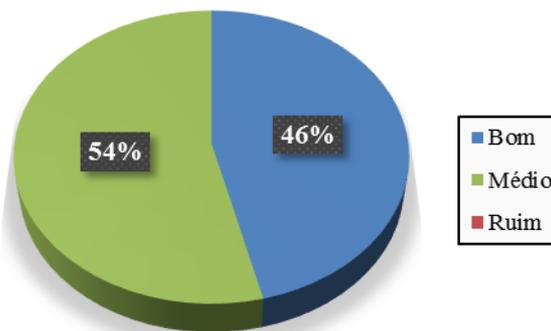

Obs: 26 pessoas realizaram a avaliação inicial da disciplina

Avaliação inicial

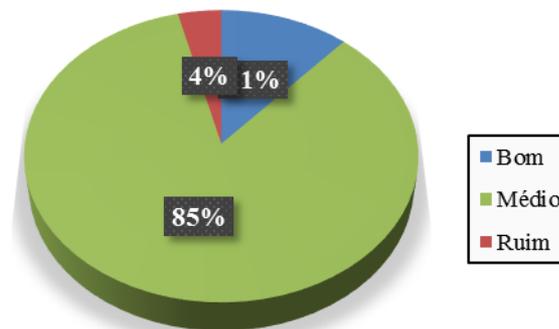

Organização e uso de bancos de dados meteorológicos

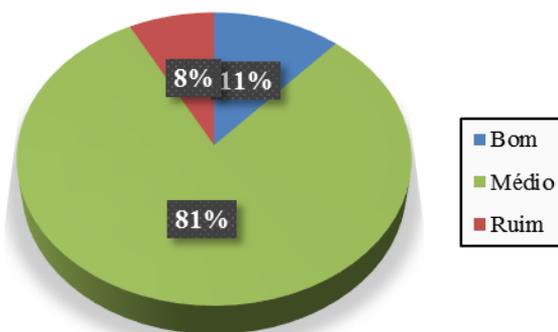

Importância das informações agrometeorológicas

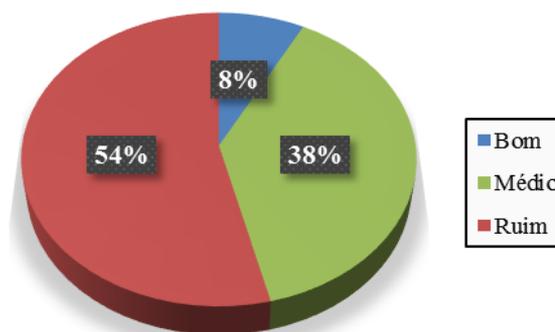

Efeitos adversos do clima

Variabilidade, anomalia e mudanças climáticas

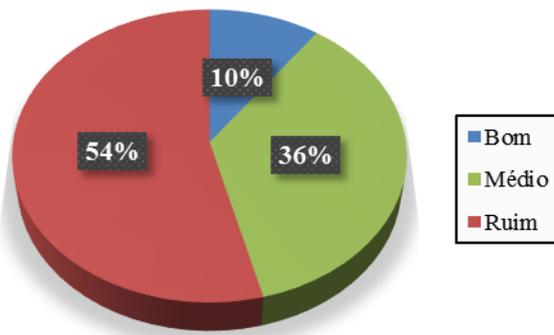

Efeitos do ENOS na produtividade

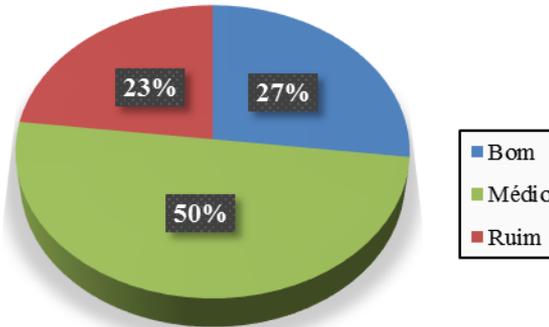

Avaliação inicial

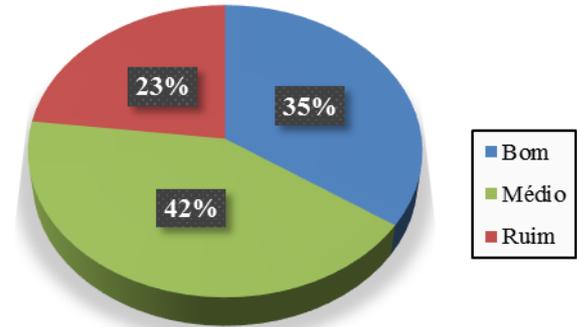

Efeitos do ENOS na produtividade

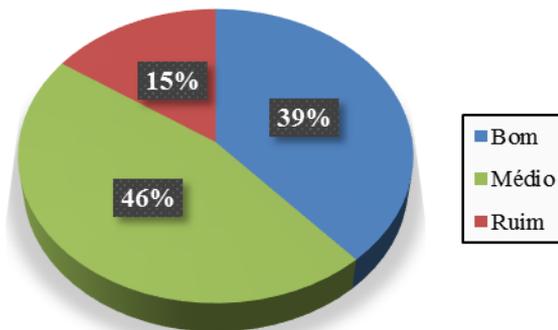

Balanço hídrico climatológico

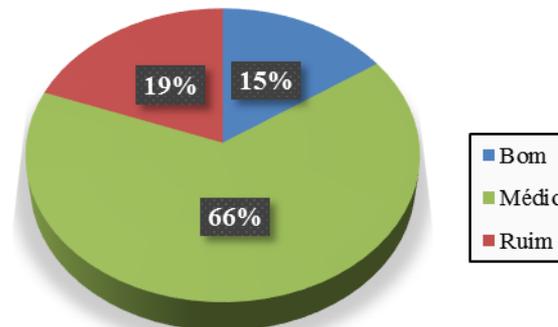

Balanço hídrico de cultura

Produtividade potencial, atingível e real - Yield Gap

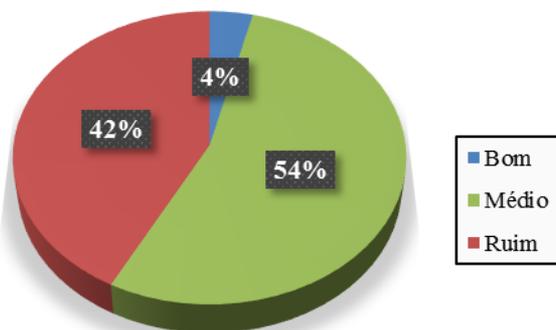

Zoneamento agroclimático

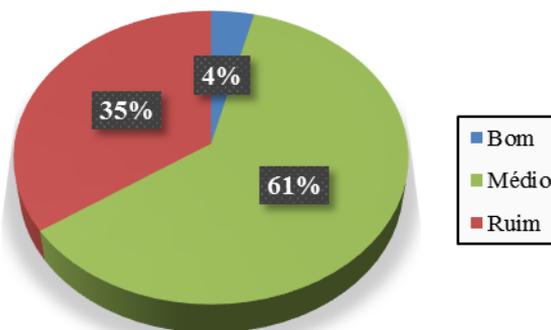

Avaliação inicial

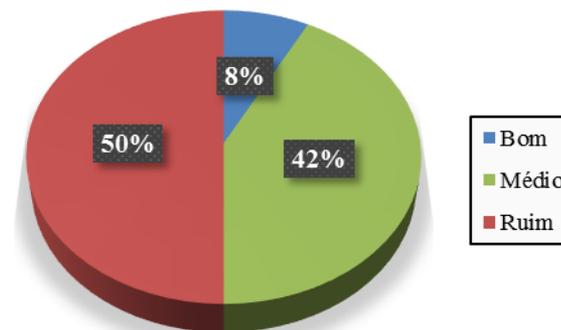

Eficiência agrícola e climática

Risco climático e planejamento agrícola

Sistemas de informação agrometeorológica

Geral
