CONTENTS

- Your publications vs. your citations
- CAPES' Webqualis system
- Getting to know the journal
- Review

Where to publish?

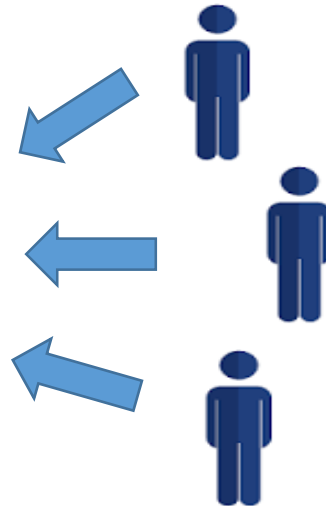

- Indexed journals are ranked according their **impact factor**.
- The impact factor is the average **number of citations per article** over the previous 2 years.
- The higher the impact factor, the **wider the visibility** of your paper.
- High-impact journals are the ones more **sought-after for publication**.
- In Brazil, CAPES publishes the **Webqualis list** to rank the top journals in each area of knowledge according to the impact factor.

Your publications vs. your citations

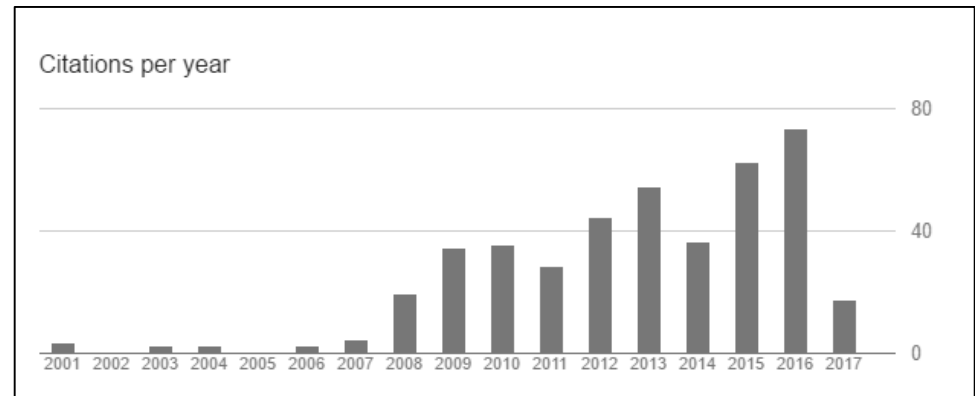

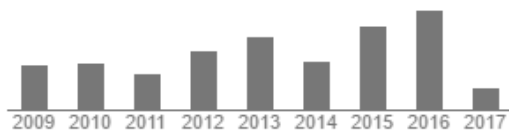

**Paper publication
(with DOI®)**

***Citations by other
researchers in your
area of specialization***

Citation indices	All	Since 2012
Citations	428	286
h-index	7	7
i10-index	5	5

h-index and *i10* indicators

Key indicators of the researcher's citations

		
Citation indices	All	Since 2012
Citations	428	286
h-index	7	7
i10-index	5	5

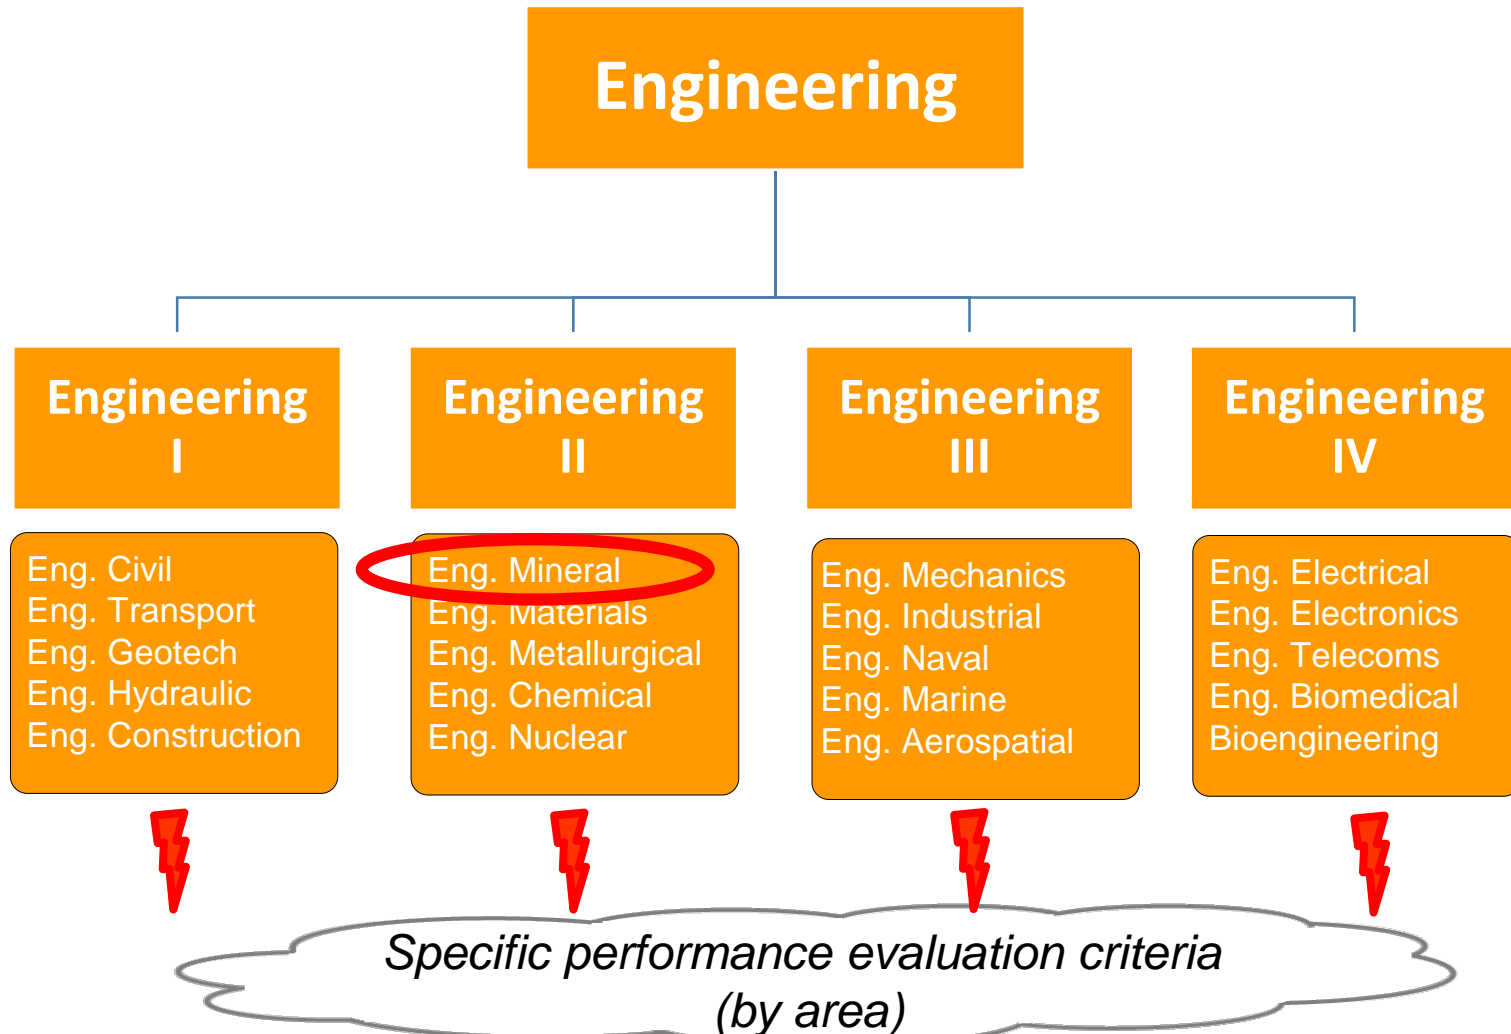

h-index: number of papers with the same number of citations

I10 index: it is the number of publications with at least 10 citations

The screenshot shows the 'Periódicos Qualis' search interface. It features a green header bar with the text 'Periódicos Qualis'. Below the header is a section titled 'Dados para Consulta' containing several input fields and buttons. Three red callout boxes with arrows point to specific fields: 'Most recent list (2013-2016)' points to the 'Evento de Classificação' dropdown; 'Select the area ENGENHARIAS II' points to the 'Área de Avaliação' dropdown; and 'Enter the title of the journal' points to the 'Título' text input field. At the bottom of the form are two buttons: 'Consultar' and 'Cancelar'.

REVIEW: where to publish?

The “quality” of a journal is associated to its IMPACT FACTOR

The researcher should manage its PAPERS and its CITATIONS.

The focus of PPGEMin is in journals Webqualis B1 or above (A1, A2, B1)

The researcher should choose a journal according to its IMPACT FACTOR and the Editorial Line.
