Compreendendo a área

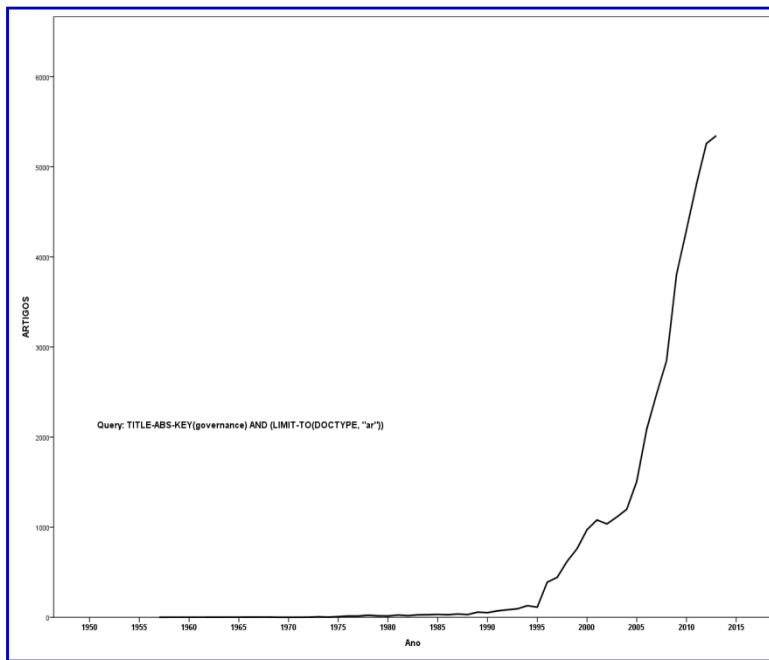

TITLE-ABS-KEY("Information Products") OR
TITLE-ABS-KEY("Information Science") AND
TITLE-ABS-KEY(Library)).

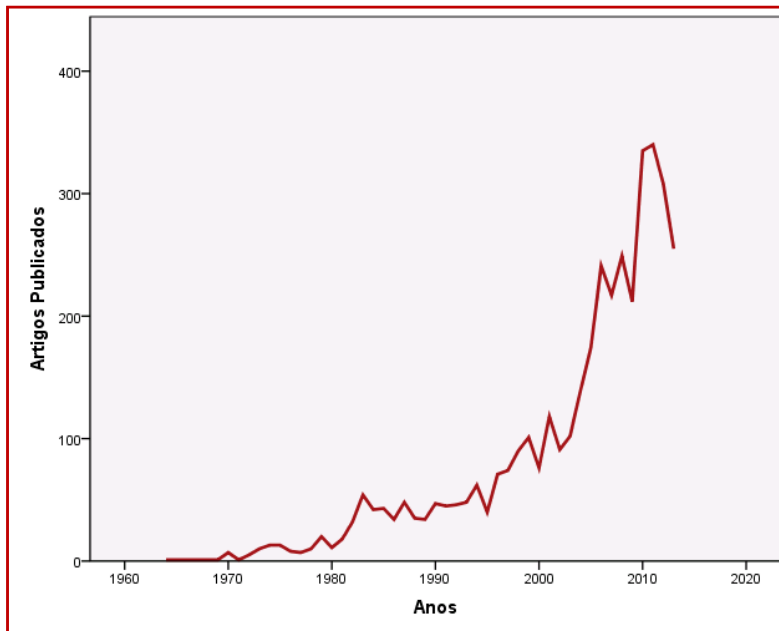

Evolução da produção científica

O que isso nos mostra?

Produção decola no final dos anos 1990

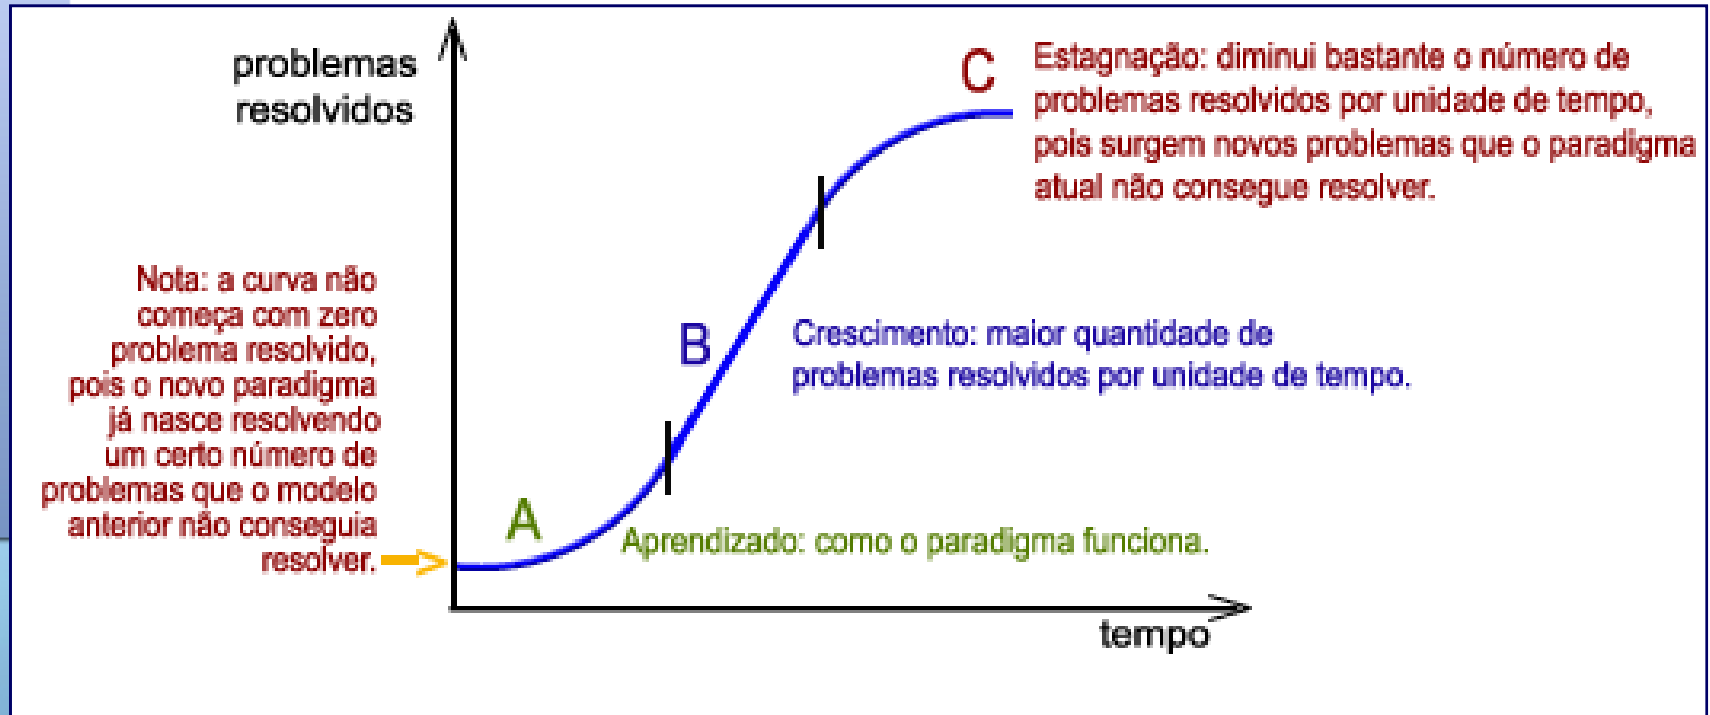

Produção consistente a partir dos anos 1980

20 anos de diferença...

Instituições Mais Relevantes

Instituição	Total de trabalhos publicados	Trabalhos 2010-2014
Indiana University	88	30
University of Illinois at Urbana-Champaign	57	13
Western University	52	24
Loughborough University	51	8
The University of North Carolina at Chapel Hill	46	12
Danmarks Biblioteksskole	42	11
University of Sheffield	35	14
University of Pittsburgh	35	12
University of California, Los Angeles	33	6
Rutgers, The State University of New Jersey	33	9

Instituições Mais Relevantes

Produção Crescente [*inovação*]

Instituição	Total de trabalhos publicados	Trabalhos 2010-2014
Indiana University	88	30
University of Illinois at Urbana-Champaign	57	13
Western University	52	24
Loughborough University*	51	8
The University of North Carolina at Chapel Hill **	46	12
Danmarks Biblioteksskole***	42	11
University of Sheffield	35	14
University of Pittsburgh	35	12
University of California, Los Angeles	33	6
Rutgers, The State University of New Jersey	33	9

Produção com forte influência de:

* **Oppenheim, Charles**

** **Marshall, Joanne Gard**

*** **Hjørland, Birger**

Publicações com Maior Produção

Publicação	Total de trabalhos publicados
Education for Information	149
Library and Information Science Research	118
Journal of the American Society for Information Science and Technology	105
Library Trends	98
Journal of Information Science	95
Journal of the American Society for Information Science	82
Journal of Documentation	76
Bulletin of the Medical Library Association	69
Information Processing and Management	68
Library Review	67

Alguns dos Trabalhos Mais Citados

Impact of data sources on citation counts and rankings of LIS faculty: Web of science versus scopus and google scholar

Meho, L.I., Yang, K.

(2007) *Journal of the American Society for Information Science and Technology*, 58 (13), pp. 2105-2125.

259

An information retrieval approach for automatically constructing software libraries

Maarek, Yoelle S., Berry, Daniel M., Kaiser, Gail E.

(1991) *IEEE Transactions on Software Engineering*, 17 (8), pp. 800-813.

172

Toward a basic framework for webometrics

Björneborn, L., Ingwersen, P.

(2004) *Journal of the American Society for Information Science and Technology*, 55 (14), pp. 1216-1227.

91

O que foi feito?

Havia uma necessidade de informação sobre um tema específico

Acionamos uma base de periódicos

Verificamos:

A evolução da produção sobre o tema

O “grau” de maturidade dessa produção

Quais os países que concentram maior produção

Quais os autores mais produtivos e como tem evoluído a sua produção recente

Quais as instituições mais relevantes

Como se organiza a produção nessas instituições

As instituições com produção crescente

As publicações com maior produção

Os trabalhos mais citados

Em resumo: administramos recursos e produtos de informação
