

**Pós-Graduação em Modelagem de Sistemas Complexos****Modelos Econômicos Baseados em Agentes (SCX-5015) - 2019**

Docente Responsável: Prof. Dr. Carlos de Brito Pereira

Calendário de Seminários

Data	Aluno	Artigo para seminário
29/08/2019	Edi Carlos Borges	Tax compliance in a simulated heterogeneous multi-agent society
12/09/2019	Luísa Jaccoud de Oliveira	Dynamic peer-to-peer competition
19/09/2019	Antônio Carlos Baptista Coelho	Agent-based modeling simulation under local network externality
	Paulo de Souza Silva	A GDP fluctuation model based on interacting firms
26/09/2019	Gustavo Kaique Araujo Monea	Impact of asymmetric information on market evolution
	Lucas Goulart de Andrade	An agent-based model of tourism destinations choice
03/10/2019	Murilo Mazzotti Silvestrini	[a informar]
	Vinicius Alencar Oliveira	Agent-based macroeconomics: A baseline model
10/10/2019	Edie Pinheiro Carvalho Lima	PolicySpace : modelagem baseada em agentes
	Caio Fernandes Pereira Santos	What's On the Menu: Assessing Manufactured Risk in Restaurant Inspection Systems Using Agent-Based Models
17/10/2019	Felipe Augusto de Almeida	Predicting labor costs in construction projects using agent-based modeling and simulation
	Carlos Felipe Carneiro	A multi-agent model of a low income economy: simulating the distributional effects of natural disasters
24/10/2019	Willer Ferreira da Silva Junior	Dissecting income segregation: Impacts of concentrated affluence on segregation of poverty
	Rafael T. de Matos Ribeiro	[a informar]

Versão atualizada em: 18 de setembro de 2019.
