Minicorpus for Abstract:

### Setting/Background:

- “Something” will continue to;
- “Something” have been performed for many “time”;
- The basic concepts of;
- In most cases;
- Due to;
- So far;
- Until now;
- Up to now;

### Gap:

- However;
- Nonetheless;
- Although;
- Yet;
- On the other hand;
- Per contra;
- But;
- Howbeit;
- In parallel;
- Still;

### Purpose:

- This paper (provides / investigates / presents / deals with / reports);
- The primary target of this paper is;
- The intention of the authors has been to;
- The present (study / paper / work) is dedicated to;
- The context of this work is;
- The “something” is introduced in the present paper;

### Methodology:

- A calculation method is developed;
- A basic ... is considered;
- The ... are validated by;
- We also consider;
- A method is presented, which is;
- By means of;

### Main Results:

- It is show how;
- The general results;

- Measurements have been made;
- An analytic formulation for ... is derived;
- The main finding of this paper;
- A parametric study is also presented, in which;
- In particular;
- This method was successfully tested for;
- Among the similarities shared by;
- The (experimental / numerical / predicted) data shows;

#### Conclusion:

- Agreement between theory and experimental;
- Due to;
- The theory is also shown to provide a close fit to...;
- In view of the results;
- Accordingly to the results;
- For this reason;
- We can deduce / deduct / infer / presuppose / conclude / presume / consider;
- As a result;
- Under the circumstances;
- With help of this (formalism / result / experiment), we hope to reach a better understanding of;
- As show in the paper;
- More generally;
- Promising results suggest a;
