

Física IV

26 de outubro 2020
Ótica geométrica

Lei da refração

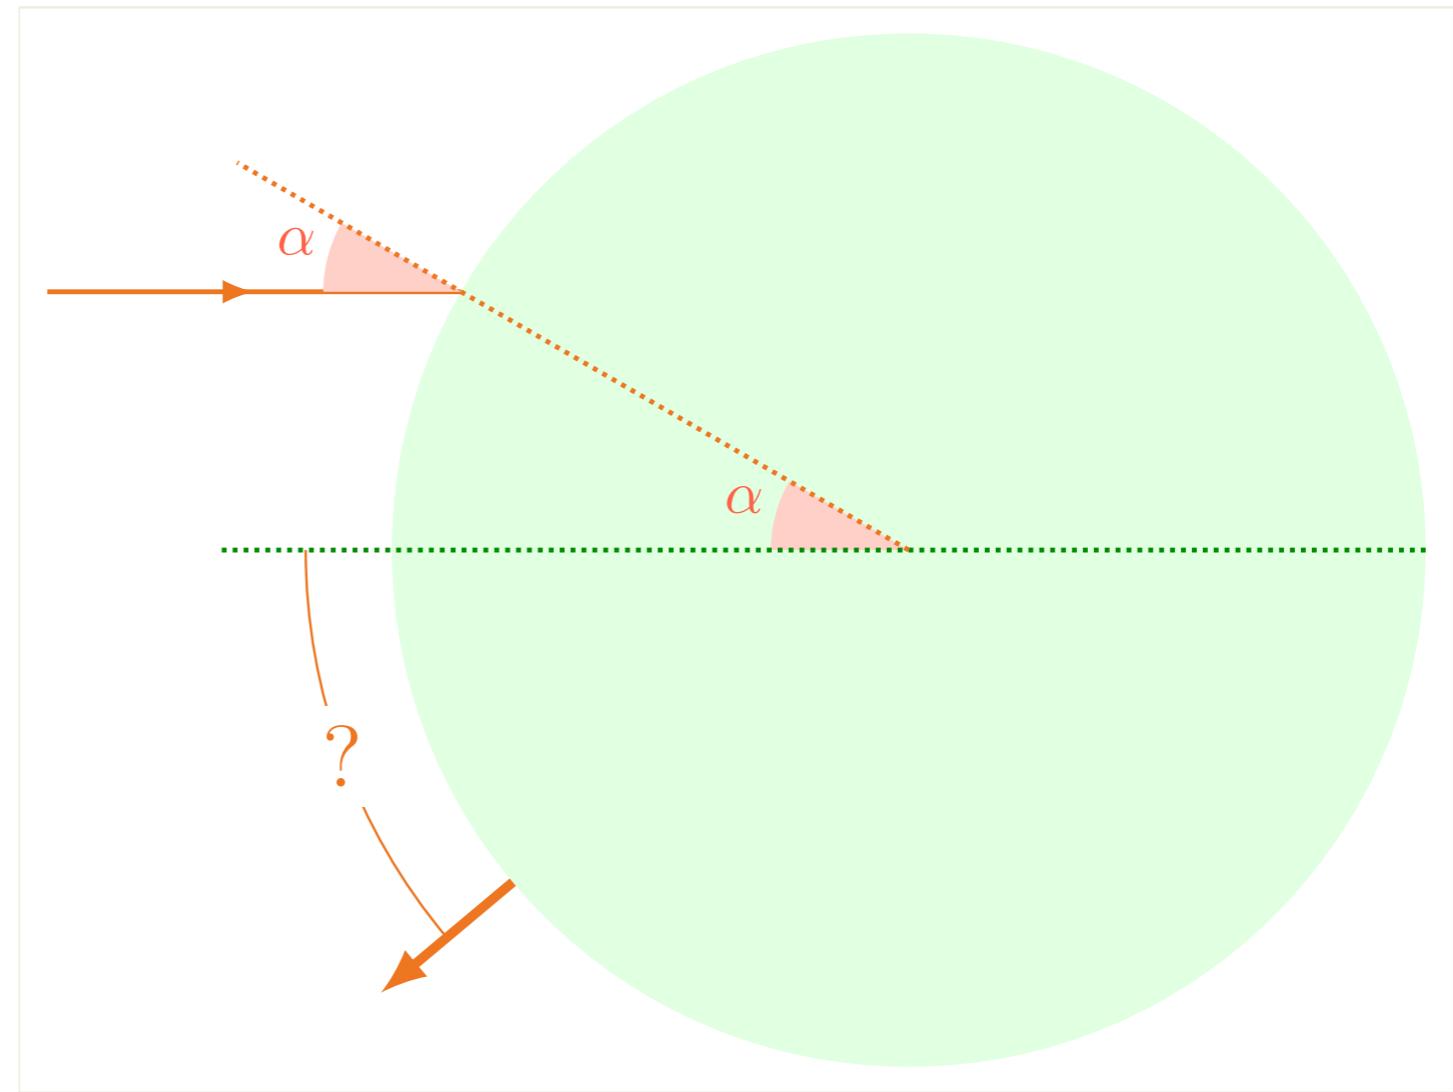

$$\sin \alpha = n \sin \beta$$

Pratique o que aprendeu

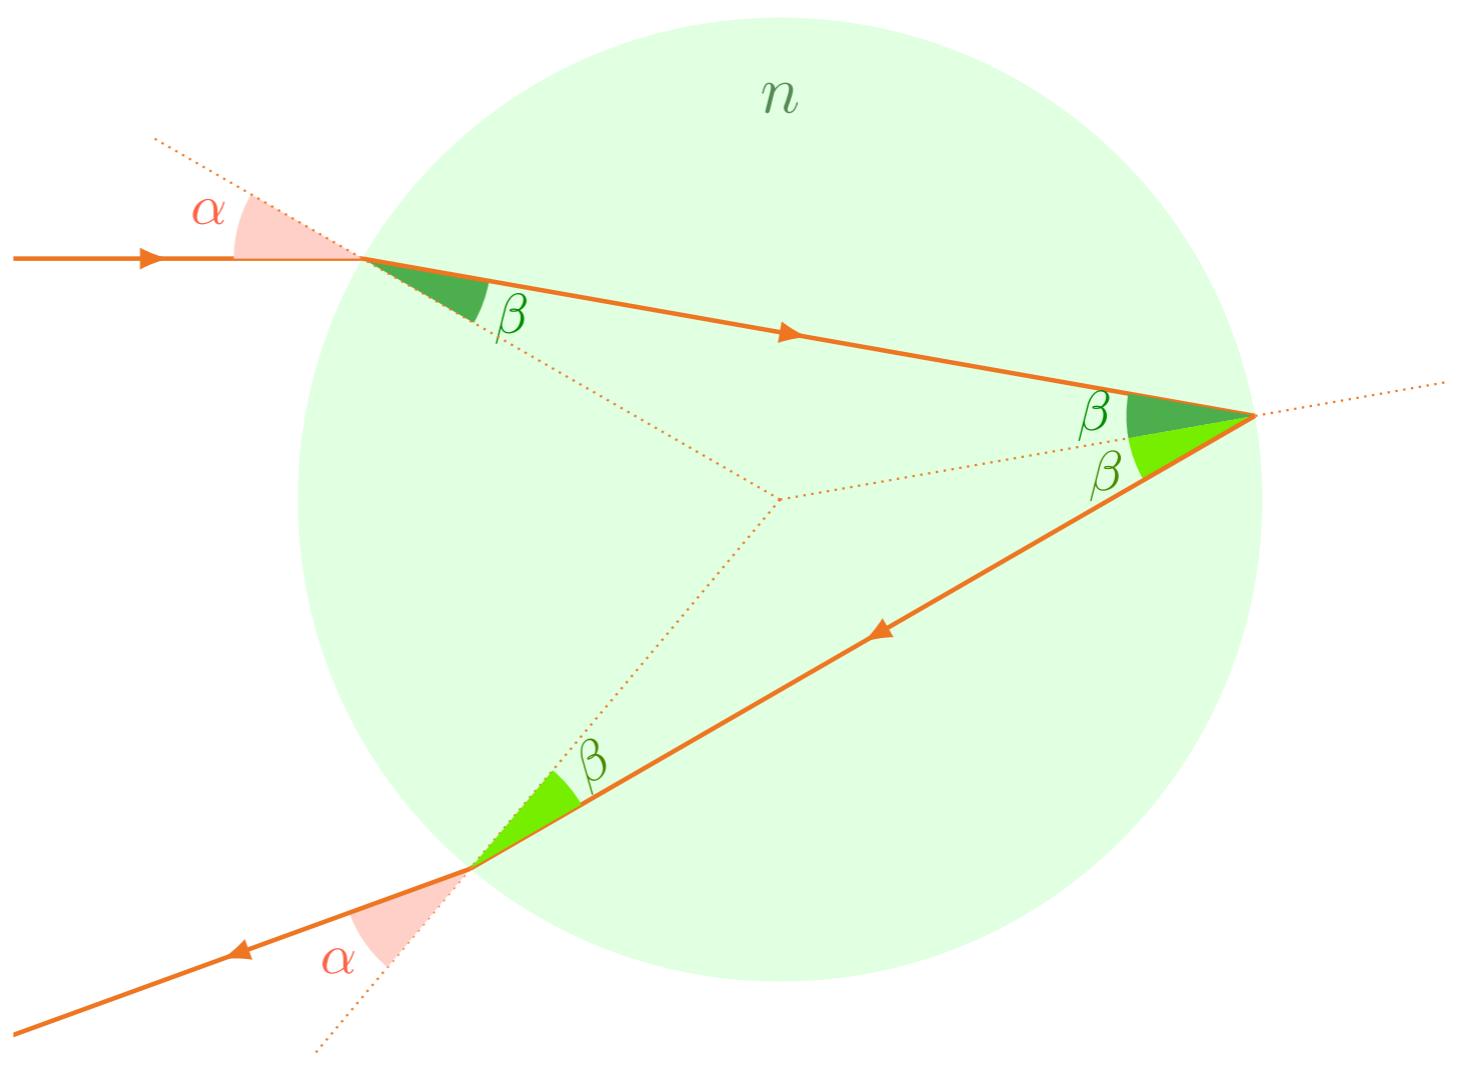

$$\sin \alpha = n \sin \beta$$

Desvio?

Pratique o que aprendeu

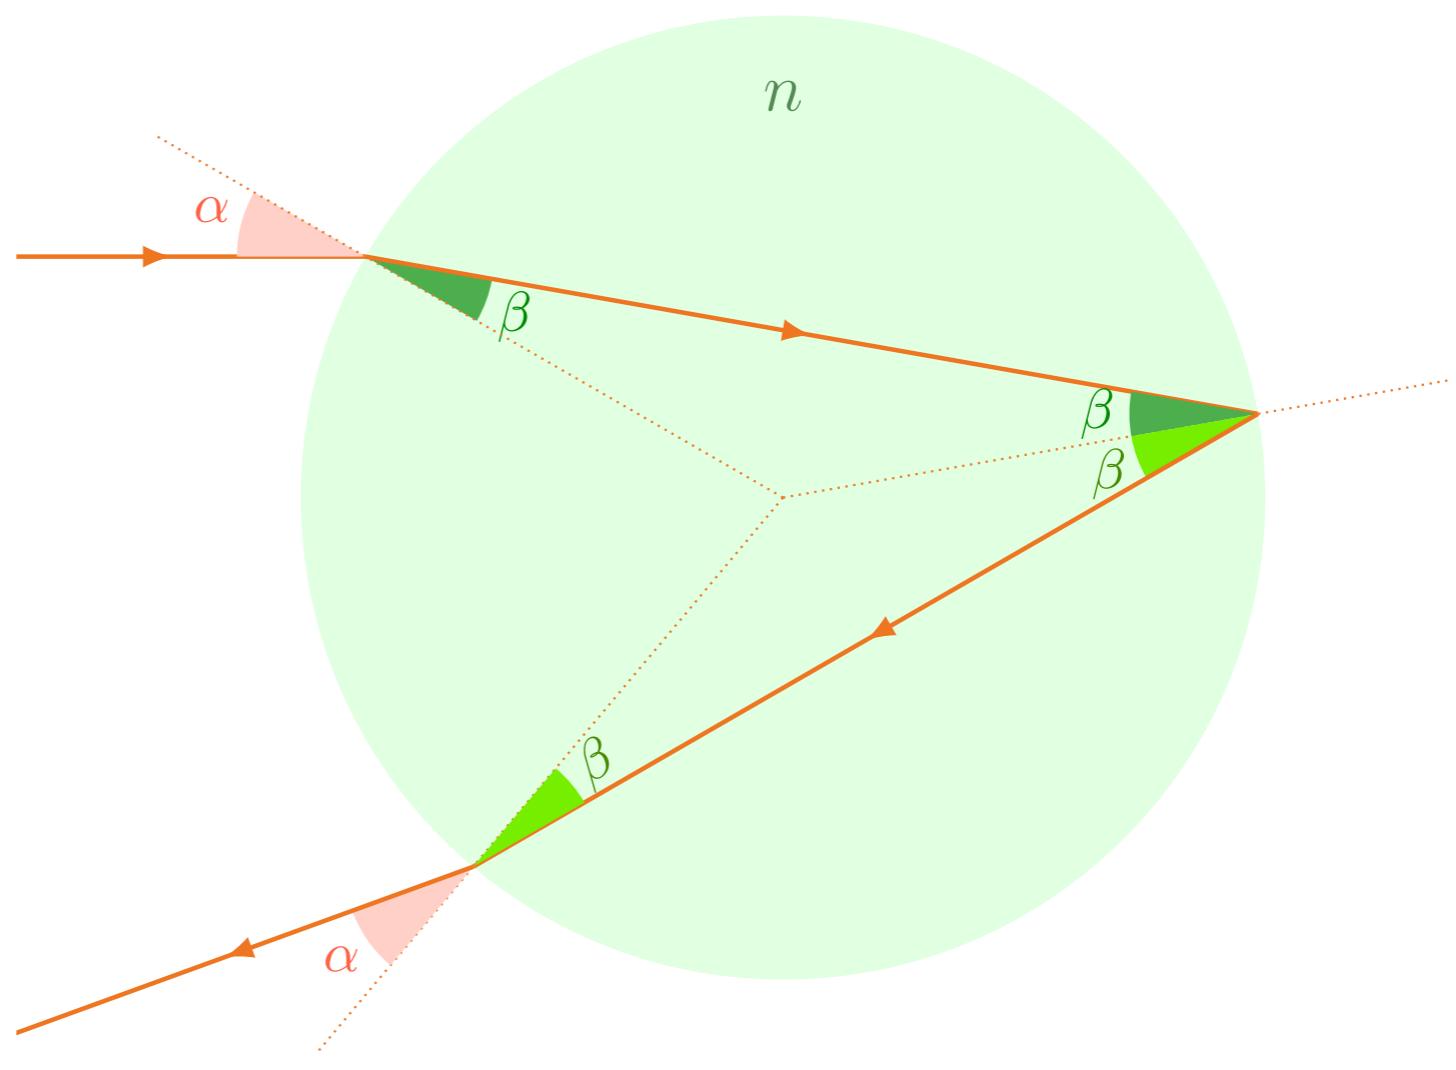

$$\sin \alpha = n \sin \beta$$

Pratique o que aprendeu

$$\sin \alpha = n \sin \beta$$

Desvio?

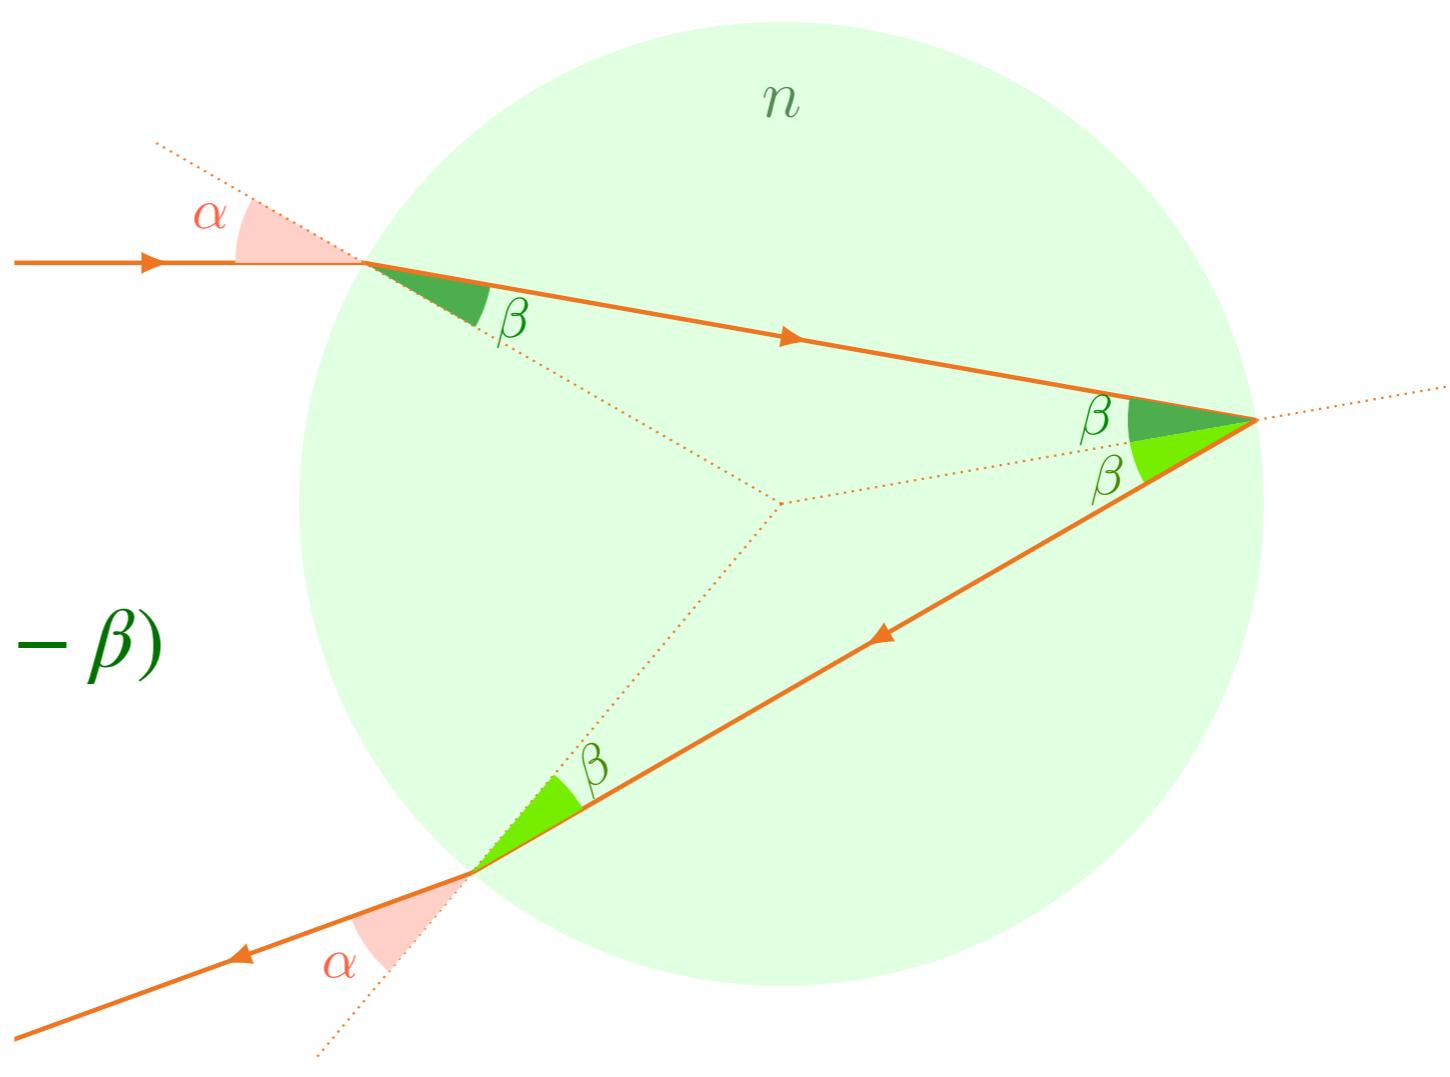

Pratique o que aprendeu

$$\sin \alpha = n \sin \beta$$

Desvio?

$$\delta = (\alpha - \beta) + (\pi - 2\beta) + (\alpha - \beta)$$

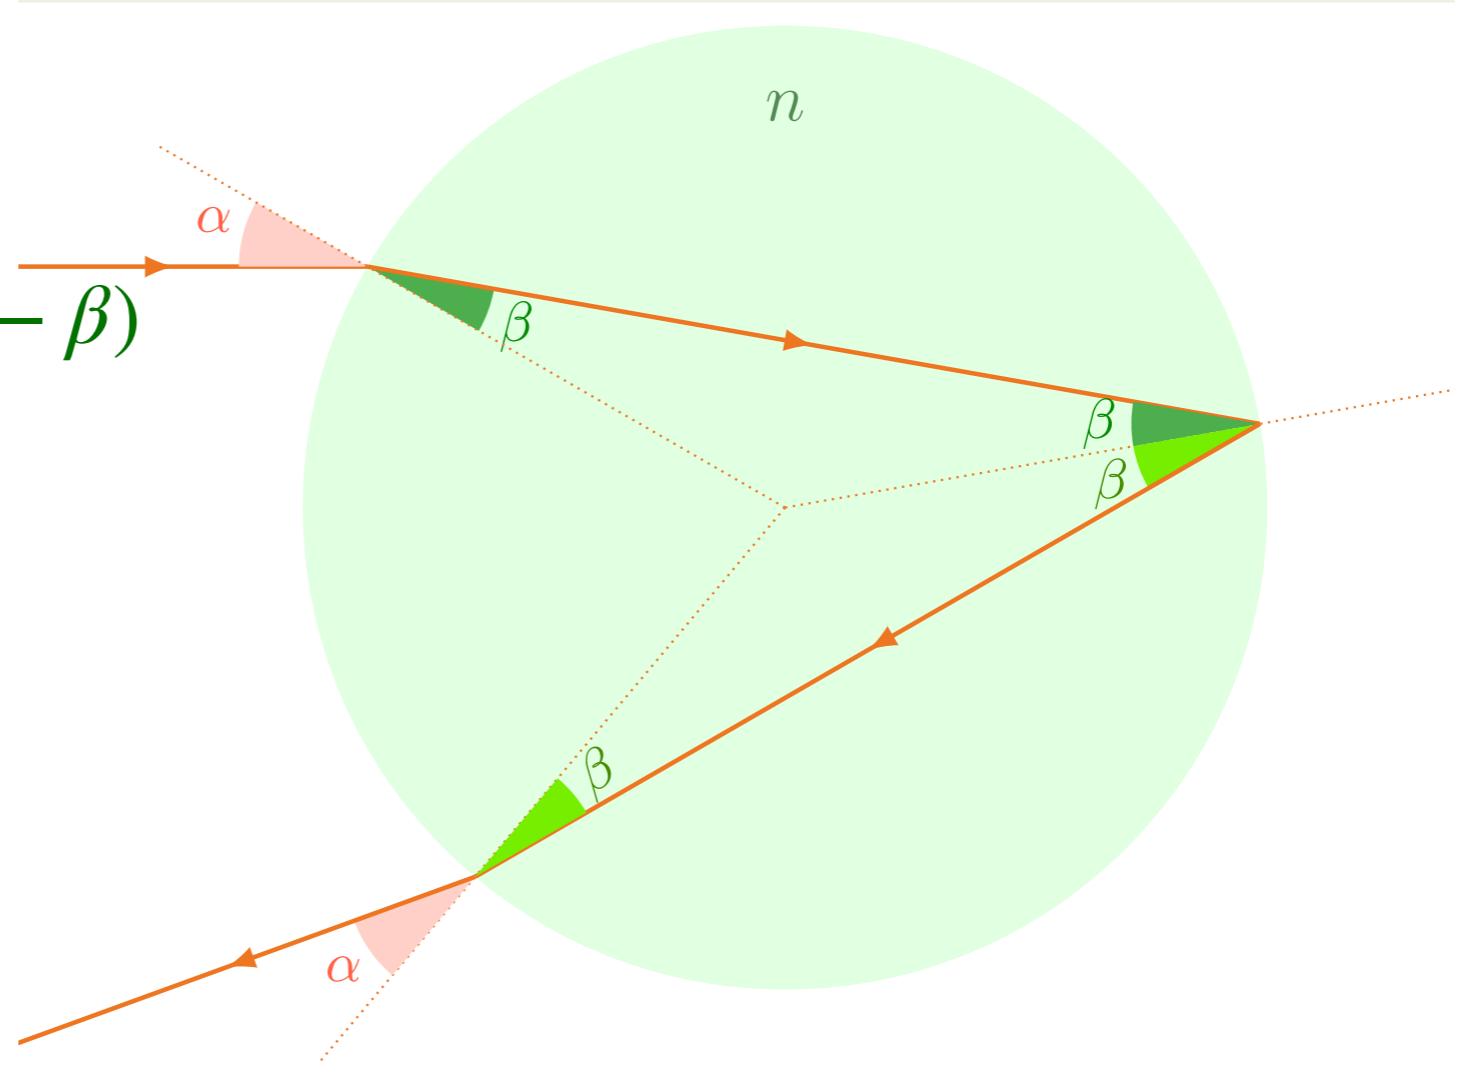

Pratique o que aprendeu

$$\sin \alpha = n \sin \beta$$

Desvio?

$$\delta = (\alpha - \beta) + (\pi - 2\beta) + (\alpha - \beta)$$

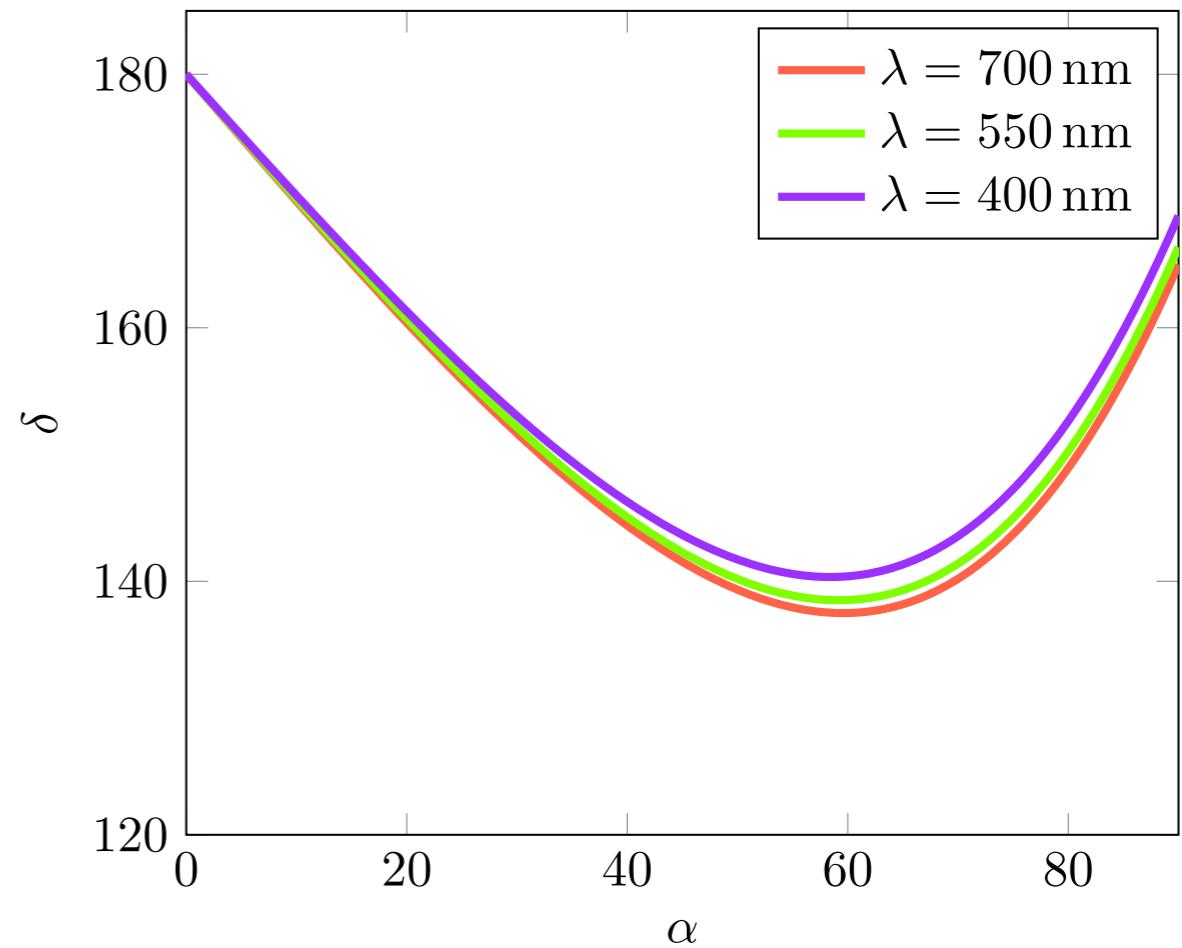

$$\delta = \pi + 2\alpha - 4\beta$$

Pratique o que aprendeu

$$\sin \alpha = n \sin \beta$$

$$\delta = \pi + 2\alpha - 4\beta$$

Pratique o que aprendeu
