

Disciplina BMI-5911 / PGIMU543
“Fisiologia e Patologia do Inflamassoma”

CRONOGRAMA

Seg 30/05: Inflammasome as a molecular platform for cytosolic signalling.

Ter 31/05: Receptors and activators of Inflammasome
paper 1: Martinon et al 2002

Qua 01/06: Inflammasome expression in tissues and cells
paper 2: Zhong et al 2018

Qui 02/06: Regulation of Inflammasome
paper 3: Bauernfeind et al 2009

Sex 03/06: Alternative functions of inflammasome receptors/sensors
paper 4: El Zaatari et al 2020

Seg 06/06: Inflammasome role in infectious diseases
paper 5: Planes et al 2022

Ter 07/06: I Rare mutations in inflammasome components: autoinflammatory diseases
paper 6: Park et al, 2016

Qua 08/06: Inflammasome contribution in multifactorial sterile diseases (1)
paper 8: Zhao et al, 2022

Qui 09/06: : Inflammasome contribution in multifactorial sterile diseases (2)
paper 9: Bittner et al 2021

Sex 10/06: Final Exam
