BLOQUEIO DE RAMO ESQUERDO

ECG normal de uma criança de 2 anos

Diagnósticos

1. BAVT
2. BAV Mobitz I (fenômeno de Wenckebach)
3. Trigemismo ventricular
4. FA
5. HVE
6. BRE
7. IAM
8. ECG normal de uma criança de 2 anos:
 - i. 110 bpm
 - ii. Padrão de BRD nas precordiais
 - iii. R dominante V1 a V3 com inversão de onda T
