### *Preface* vii

- Assignment 1: Beethoven, Seven Variations on "God Save the King," WoO 78, Theme and Variation 1 (Chapter 2) 1
- Assignment 2: Corelli, Variations on "La Folia," Op. 5, No. 12 [Theme (bars 1–16), Variation 5 (bars 81–96), and Adagio (bars 201–216)] (Chapter 3) 5
- Assignment 3: Folk Tune: "Ashgrove" (Chapters 2 and 3) 9
- Assignment 4: Chopin, Nocturne in F minor, Op. 55, No. 1, bars 1–8 (Chapters 2 and 3) 11
- Assignment 5: Bellini, "Casta Diva" (from *Norma*), bars 16–23 (Chapters 2 and 3) 13
- Assignment 6: Chopin, Valse Brillante, Op. 34, No. 2, bars 17–36 (Chapter 3) 15
- Assignment 7: Beethoven, Op. 2, No. 3, III, Trio, bars 1–24 (Chapter 3) 17
- Assignment 8: Schubert, Sonata in A minor ("Arpeggione"), bars 10–22 (Chapter 3) 19
- Assignment 9: Schumann, Little Study, bars 1–17 (Chapter 3) 23
- Assignment 10: Chopin, Etude in C major, Op. 10, No. 1, bars 1–9 (Chapter 3) 25
- Assignment 11: Corelli, Op. 4, No. 5, Corrente (Chapter 3) 27
- Assignment 12: Mozart, Piano Sonata, K. 280, III, bars 1–37 (Chapter 4) 29
- Assignment 13: C. P. E. Bach, "Prussian" Sonata, Vivace, bars 1–40 (Chapter 4) 31
- Assignment 14: Bach, French Suite in C minor, BWV 813, Minuet, bars 17–24 (Chapter 4) 33
- Assignment 15: Bach, Harpsichord Concerto (after Marcello), BWV 974, II, bars 1–15 (Chapter 4) 35
- Assignment 16: Bach, Prelude in G minor from "English" Suite No. 3, BWV 808, bars 1–33 (Chapter 4) 37
- Assignment 17: Bach, Prelude in F major, BWV 927 (Chapter 4) 39
- Assignment 18: Haydn, Symphony No. 97, Hob. I/97, Trio, bars 1–8 (Chapter 5) 41
- Assignment 19: Beethoven, Piano Sonata, Op. 10, No. 1, I, bars 1–22 (Chapters 6 and 7) 43
- Assignment 20: Beethoven, Piano Sonata, Op. 57 ("Appassionata"), II, bars 1–16 (Chapter 7) 45
- Assignment 21: Schubert, Sonata in A minor ("Arpeggione"), bars 1–22 (Chapter 7) 47
- Assignment 22: Beethoven, Piano Sonata, Op. 27, No. 1 ("Moonlight"), III, bars 116–137 (Chapter 7) 51

- Assignment 23: Mozart, Rondo in D major, K. 485, bars 1–16 (Chapter 7) 55
- Assignment 24: Schumann, *Liederkreis*, Op. 24, "Morgens steh' ich auf"  
(Chapter 8) 57
- Assignment 25: Handel, Theme and Variations in B $\flat$  major, Aria (Chapter 9) 61
- Assignment 26: Handel, Minuet in F major, HWV 516a (Chapter 9) 63
- Assignment 27: Bach (Anon.), Menuet in D minor, BWV Anhang 132  
(Chapter 9) 65
- Assignment 28: Mozart, Piano Sonata, K. 547a, III (Thema) (Chapter 9) 67
- Assignment 29: Chopin, Prelude in G major, Op. 28, No. 3 (Chapters 7 and 9) 69
- Assignment 30: Schumann, *Dichterliebe*, "Ich will meine Seele tauchen"  
(Chapters 8 and 9) 73
- Assignment 31: Beethoven, Bagatelle, Op. 119, No. 9 (Chapter 9) 77
- Assignment 32: Haydn, String Quartet, Op. 74, No. 3, II, bars 1–22 (Chapter 9) 79
- Assignment 33: Haydn, String Quartet, Op. 64, No. 5, II, bars 1–34 (Chapter 9) 87
- Assignment 34: Mozart, Clarinet Quintet, K. 581, III (Trio I) (Chapter 9) 91
- Assignment 35: Haydn, String Quartet, Op. 74, No. 3, II (B section and completion  
of movement) (Chapter 10) 95
- Assignment 36: Brahms, Intermezzo, Op. 118, No. 2, B section (bars 49–73)  
(Chapter 10) 103
- Assignment 37: Beethoven, Piano Sonata, Op. 7, II (Chapter 10) 107
- Assignment 38: Brahms, Intermezzo in A minor, Op. 76, No. 7 (Chapter 10) 113
- Assignment 39: Mozart, Piano Sonata, K. 279, Andante (Chapter 11) 117
- Assignment 40: Clementi, Sonatina, Op. 36, No. 3, I (Chapter 11) 123
- Assignment 41: Mozart, String Quartet, K. 172, Adagio (Chapter 11) 129

## PREFACE

---

This workbook is designed to accompany *Analysis of Tonal Music: A Schenkerian Approach*, Third Edition, and contains forty-one assignments for introductory courses in Schenkerian analysis. It is designed for students with no previous exposure to Schenkerian analysis, though it can also be used with more advanced students. This edition of the workbook differs from the previous edition in significant ways.

### New in This Edition

- We have linked the assignments to examples and discussions in the text, directing students to model their work on specific text analyses. In some cases we recommend certain procedures—for instance, we sometimes suggest students use three structural levels—though instructors should always feel free to alter the instructions to suit the needs of the class. Students will answer questions on the music or on their own staff paper as appropriate.
- To provide instructors with greater flexibility in using the assignments, we have removed the worksheets (the perforated graph paper) and, consequently, all of their notational hints. We do provide hints and suggestions but as part of the instructions, which are now given in narrative form rather than as a list. Instructors, therefore, may choose to ignore the hints, use them as presented, or supplement them with additional hints and suggestions as needed. In this way instructors have much greater freedom in how they incorporate the various compositions into class discussions and use them for homework assignments.
- We have included seventeen new assignments, providing additional practice in structural melody, the imaginary continuo, recognizing harmonic function and class, and distinguishing between “chord” and “harmony” (*Stufe*). *Analysis of Tonal Music* is a text designed for beginners, though it can also be used for more advanced students.
- We have included more assignments for the early chapters, helping reinforce material for students who have had no previous exposure to Schenkerian analysis.

### How to Use the Workbook

Instructors should freely adapt the assignments to the needs of their students. For instance, in many assignments we suggest preliminary steps, such as constructing Roman

numeral analyses or imaginary continuos. We also pose specific ideas and questions for consideration. These may be considered rhetorical and discussed informally in class, or instructors may wish to make the questions or preliminary analytical steps integral to the assignment and have students answer and hand them in on separate sheets of paper.

Readers will notice that Chapters 1, 6, and 12 are not represented. The reasons for not including assignments for Chapters 1 and 12 should be clear: Chapter 1 is an introduction, and Chapter 12 is devoted primarily to theoretical concerns. In the text, Chapter 6 covers individual techniques of melodic prolongation in restricted contexts. Any assignments focusing on specific techniques would be, in our view, virtually self-evident and without pedagogical value. Furthermore, the various techniques are amply represented in the compositions presented for other chapters.

In this new workbook, it is our intention to provide a kind of annotated anthology that will better serve the needs of both students and instructors, linking the analytical assignments to specific models presented in the text.

## Acknowledgments

We would like to express our sincerest thanks to Karen Bottge, who edited and proofread the manuscript with meticulous care, and we extend our appreciation also to Don Giller, who prepared the new scores for this edition and to Kate Ettinger, who assisted in gathering the Urtext editions. We are grateful to Benjamin Levy at Arizona State University and Frank Samarotto at Indiana University for reviewing the manuscript, and we also thank the following reviewers who read the revision plan for this edition: Graham Hunt, University of Texas at Arlington; Anthony Kosar, Westminster Choir College of Rider University; Ciro Scotto, University of South Florida; and Gordon Sly, Michigan State University.

## Assignment No. 1    Beethoven, Seven Variations on "God Save the King," WoO 78, Theme and Variation 1 (Chapter 2)

A movement or composition based on a theme and a set of variations clearly exemplifies the role of *repetition* as a fundamental shaping force in music. For beginning studies in Schenkerian analysis, the study of variation procedures also throws into sharp relief the notions of *diminution*, *melodic fluency*, and *structural melody* (review Chapter 2 for our discussions of these concepts).

First, examine the preexistent melody that Beethoven uses as his theme and compare it to Mozart's theme presented in Example 2.16. In what ways does the theme resemble a cantus firmus and consequently exhibit the properties of melodic fluency? At this stage, it will prove useful to analyze the succession of chords on the score with Roman numerals. The chord in bar 2, on the second part of beat 2, results from passing tones and simply expands V. What other chords have a similar contrapuntal function? In this analysis, do not use Roman numerals for chords that are purely contrapuntal in function.

Now begin your analysis of Variation 1 by identifying, circling, and beaming the tones of the theme on the score; use Example 2.17 as your model. As you might remember from our discussion in Chapter 2, the tones not belonging to the theme are referred to as *diminution*—tones that decorate and embellish the theme. Use letters from the following list to label the function of each tone of diminution:

- P = passing tone
- N = neighbor note
- IN = incomplete neighbor note (or appoggiatura)
- CS = consonant or chordal skip
- Susp. = suspension
- Ant. = anticipation

You might notice that the theme itself contains passing and neighbor notes, which can be considered tones of figuration *on a higher level*. For now, identify only the tones that embellish the underlying theme, the "structural melody" of Variation 1.

In Chapter 2, we discussed (regarding Mozart's composition, Examples 2.16–2.18) what factors other than the preexistent status of the theme "permit" the analyst to circle the tones that make up the structural melody. We suggest that you now ask the same question about Beethoven's variation; use your harmonic analysis of the theme as you consider the question and answer. Notice that, in both the theme and Variation 1, the melody falls to the tonic before rising a fifth to G after the double bar. Also, in Variation 1, the tone E in bars 3–4 is embellished by higher tones (G and F). We can say that these tones are "superimposed" above the main melodic tone, E.

## Assignment 1

**Thema**

The musical score for 'Thema' is written in 3/4 time. It consists of two systems of music. The first system contains measures 1 through 6. Measure 4 is marked with a '4' above it. Measures 5 and 6 are marked with first and second endings, indicated by '1.' and '2.' above the staff. The second system contains measures 7 through 12. Measure 7 is marked with a '7' above it. Measure 11 is marked with an '11' above it. Measures 10 and 11 are marked with a '3' below the staff, indicating a triplet. Measures 11 and 12 are also marked with first and second endings, indicated by '1.' and '2.' above the staff. The score is written for piano, with a treble and bass staff joined by a brace on the left.

## Assignment 1

Var. 1

Musical notation for Variation 1, measures 1-4. The key signature has one sharp (F#), and the time signature is 3/4. The melody in the right hand features eighth and sixteenth notes, while the left hand provides a steady bass line with eighth notes.

5

1.

Musical notation for Variation 1, measures 5-7, first ending. Measure 5 includes a repeat sign. The first ending (marked '1.') spans measures 6 and 7, leading to a repeat sign at the end of measure 7.

6

2.

Musical notation for Variation 1, measures 6-9, second ending. The second ending (marked '2.') spans measures 6, 7, 8, and 9, leading to a repeat sign at the end of measure 9.

10

Musical notation for Variation 1, measures 10-12. The melody continues with eighth and sixteenth notes, and the bass line remains consistent.

13

1.

2.

Musical notation for Variation 1, measures 13-15, first and second endings. The first ending (marked '1.') spans measures 13 and 14, leading to a repeat sign. The second ending (marked '2.') spans measures 14 and 15, leading to a final cadence.

## Assignment No. 2 Corelli, Variations on "La Folia," Op. 5, No. 12 [Theme (bars 1–16), Variation 5 (bars 81–96), and Adagio (bars 201–216)] (Chapter 3)

"La Folia" is a dance song, at one time associated with wild singing and dancing (the Portuguese translation for *Folia* is "insanity"). The mature form—appearing from about the first part of the seventeenth century—comprises a harmonic pattern supporting a basic melody. Many composers in the seventeenth and eighteenth centuries used this pattern as the basis for variations. The distinction between Corelli's "theme" and Beethoven's folk tune (Assignment No. 1) is that the primary compositional element (the "common denominator" used for subsequent variation) is an explicit succession of chords, not just a single-line melody (which also implies a harmonic underpinning).

This movement is written for violin and a continuo group (Corelli specifies a harpsichord and a low string instrument, as is typical for *basso continuo* performance in the Baroque period). For the first step, realize the figured bass of bars 1–16 on a separate piece of staff paper (some guidelines for realizing figured basses are provided in Chapter 3). Restrict the right hand to simple chords—that is, to triads and seventh chords. In practice, the keyboard player in this variation probably would not add tones of figuration to the upper parts, because doing so would obscure the elaborate bass figuration written specifically for the left hand of the keyboard part.

Now analyze Variation 5 in the same way as Assignment No. 1, except you will now focus on the bass line. Identify, circle, and beam the tones of the structural melody in the bass, and identify the tones of diminution using the symbols outlined in the first assignment. For this part, however, extend the scope of your analysis. In particular, formulate some observations about Corelli's use of *register*. In the first bar of the variation, for instance, you will circle the left-hand D in two registers. What does this observation suggest about the number of *voices* implied in the left hand? How does Corelli's embellishment of the bass line reflect a similar process written for the violin part? The use of contrasting registers can be a valuable compositional resource for composers: Corelli's wide-ranging bass exhibits only a few possibilities for the treatment of register, although they are common and significant for many tonal compositions. Also, compare bar 95 in Variation 5 to bar 15 in the theme. What notable harmonic change has Corelli made in the variation?

In the Adagio (beginning in bar 201), Corelli departs from the original pattern, changing not only the chord succession, but also the structural upper voice. Notice that the upper-voice line is quite "primitive"; it is even more basic than the original line of the theme. Accordingly, many violinists improvise at this juncture, in effect composing a "free" embellishment of the structural melody Corelli provides.

For the final part of this assignment, write out an "improvised" version of the upper-voice line on another sheet of music paper. Don't, however, write haphazardly. Arpeggiations (chordal skips) should conform to the chords specified in the continuo part (realizing the new continuo is an important step). Add passing tones, neighbor notes, and incomplete neighbors sparingly as appropriate. If possible, study Corelli's use of these tones in other variations (the complete score is available in many libraries or online). Always bear in mind that you are fashioning a free composition, using tones of diminution—defined in strict counterpoint—to elaborate a structural melody.

## Assignment 2

201 Adagio

205

Musical score for measures 201-205, Adagio. The score is written for a grand staff (treble and bass clefs) in 3/4 time. The key signature has one sharp (F#). The melody in the treble clef consists of half notes and quarter notes, with a slur over measures 201-204. The bass line consists of eighth notes. Fingering numbers (6, b, #) are indicated below the bass line.

209

213

Musical score for measures 209-213. The score is written for a grand staff (treble and bass clefs) in 3/4 time. The key signature has one sharp (F#). The melody in the treble clef consists of half notes and quarter notes, with a slur over measures 209-212. The bass line consists of eighth notes. Fingering numbers (6, b, #, 3b, 6, 6, 7, 5, 4, 3#) are indicated below the bass line.

### Assignment No. 3 Folk Tune: "Ashgrove" (Chapters 2 and 3)

Unlike the compositions presented in the previous assignments, the Ashgrove melody is not a variation on preexisting material, but a free composition in its own right. (It nonetheless is built on a structural melody.) Your goal is to identify the underlying melodic skeleton based on factors other than the identification of a previously established series of tones.

As we discuss in Chapter 2, in reference to the folk tune "Greensleeves" (Example 2.19), it is often beneficial to construct a chordal reduction when analyzing a single-line melody—a succession of chords implied by the harmonic characteristic of the melody. As we saw in our analysis in the text, the resulting harmonic framework enables you to identify consonant skips (motions between chord tones) and other tones of figuration (*diminution*). We have also seen in Assignment No. 2 that a realization of the figured bass in "La Folia" clarifies the function of the diminution in the embellished lines of the variations.

Begin your analysis of Ashgrove by constructing a simple chordal support, similar to that shown in Example 2.19 (for Greensleeves), using between two and four notes per chord. Bear in mind that  $V^7$  may be part of the harmonic framework; hence,  $B^b$ , the 7th of  $V^7$ , can serve as a tone of the structural melody. We have provided two staves and suggest beginning the chordal reduction with an F-major triad supporting C as the first "soprano" note; a few other chords are suggested for the cadence.

After you identify the series of chords, circle and beam the broader stepwise line emanating from C in the melody. As you trace the path of the structural melody, you will discover a gap in the line. Considering the stepwise nature of the line to this point, and our suggestion of  $II^6$  for bar 6, what tone would one expect as the continuation of the line in bar 6? Is it present in another voice (of the chordal reduction)? If so, write the tone in the upper staff and enclose it in parentheses.

Interpreting the conclusion of the structural line (bars 1–8) requires careful attention to the functions of tones at the cadence. For instance, does F in bar 7 function similarly to F in bar 8? To answer this question you should review the functions of the sixth and fourth in a cadential  $\frac{6}{4}$  (see our discussion of Example 3.10).

This folk tune comprises three phrases (the first phrase is repeated). Compare the first (bars 1–8) with the second (bars 9–16). How does the skeletal line of bars 9–16 represent a "form" of the line underlying the first phrase?

The structural melody of the second phrase differs from the first in a fundamental way. See if you can determine this significant difference and its ramifications for the entire composition; in other words, what psychological expectation is "thwarted" at the conclusion of the second phrase (but is not at all an issue in the first and third phrases)? Finally, consider these additional questions as you work:

- How does this melody express vertical triads in the horizontal dimension?
- What cadences are implied, and where?
- Are there groups of tones that recur? That is, does the melody contain simple motives (that might or might not involve tones of the structural melodies)?
- How does the *form* of the folk tune relate to (occur as the result of) the three structural melodies?

## Assignment 3

Musical score for Assignment 3, measures 1-15. The score is written in 3/4 time with a key signature of one flat (B-flat). The melody is in the right hand, and the bass line is in the left hand. The score is divided into two systems. The first system contains measures 1-5, and the second system contains measures 6-15. The score ends with a double bar line and the word "Fine".

Measures 1-5: The melody starts on C4, moves to D4, E4, F4, G4, A4, Bb4, C5, D5, E5, F5, G5, A5, Bb5, C6. The bass line consists of chords: F: I (measures 1-2), II<sup>6</sup> (measure 3), V<sup>6</sup><sub>4</sub> (measure 4), 5<sub>3</sub> (measure 5), and I (measure 6).

Measures 6-15: The melody continues from measure 5, moving to D5, E5, F5, G5, A5, Bb5, C6, D6, E6, F6, G6, A6, Bb6, C7. The bass line consists of chords: V<sup>7</sup> (measures 6-7), V<sup>6</sup><sub>4</sub> (measures 8-9), 7<sub>3</sub> (measures 10-11), V (measures 12-13), and A (measures 14-15). The score ends with a double bar line and the word "Fine".

Chord symbols: F: I, II<sup>6</sup>, V<sup>6</sup><sub>4</sub>, 5<sub>3</sub>, I, V<sup>7</sup>, V<sup>6</sup><sub>4</sub>, 7<sub>3</sub>, V, A.

Measure numbers: 5, 10, 15.

Text: *Fine*, *da capo al fine*.

## Assignment No. 4 Chopin, Nocturne in F minor, Op. 55, No. 1, bars 1–8 (Chapters 2 and 3)

On another sheet of music paper, begin by creating a block-chord reduction of the left-hand part on a grand staff (treble and bass clefs), including a Roman numeral analysis. What is the form of the structural intermediate harmony? Your instructor will explain the meaning of this chord for this assignment; we will discuss its significance in greater detail in a subsequent chapter.

For the melody, write the tones that belong to the underlying chords. Use broken slurs to show prolonged tones, and solid slurs to show unified motions (as in the examples in Chapter 2).

Next, write a more fundamental melodic line that descends entirely by step from C, considering which tones are supported by structural chords. You will discover a very common usage for  $V_4^6$  (the cadential  $\frac{6}{4}$ ), which often supports  $\hat{3}$  in a descending structural line.

On the score in the workbook, explain the function of the tones not included in your reduction. How are the tones of the main structural descent embellished?

**Andante**

The musical score is for Chopin's Nocturne in F minor, Op. 55, No. 1, bars 1–8. It is written in F minor (three flats) and common time. The tempo is marked "Andante". The score consists of two systems. The first system contains bars 1–4, and the second system contains bars 5–8. The melody is in the right hand, and the accompaniment is in the left hand. The dynamics start with a piano *p* marking. Bar 4 has a fermata over the final chord. Bar 5 starts with a measure rest. Bar 6 has a trill *tr* over the eighth note. Bar 7 has a measure rest. Bar 8 ends with a fermata over the final chord.

## Assignment No. 5    Bellini, "Casta Diva" (from *Norma*), bars 16–23 (Chapters 2 and 3)

Bellini's beautiful melody, in the diminution embellishing the structural melody, is much more complex than that in the folk tune. Consequently, this is the first assignment for which it is beneficial to prepare *two* structural melodies, the second version a derivation ("reduction") of the first. As you work, model your analysis on those of Greensleeves and of Mozart's Theme and Variation in Chapter 2. Your work with Beethoven's Theme and Variation (Assignment No. 1) might also serve as a model for this assignment.

As with previous assignments, first identify and write out the supporting chordal framework, which can be clearly ascertained from the orchestral reduction. Important point: Although the vocal part and accompaniment might be similar, the vocal part is usually considered that part of the tonal framework containing the structural line.

For the first structural melody, after completing the chordal reduction, indicate on the score the tones in the melody belonging to the succession of chords by circling the tones. Some chords may include a passing tone or suspension; in bar 17, for instance, you should include the suspension tone A in your first structural melody, because the first chord of the harmonic framework supports this A in the music. After completing the first structural melody, identify (on a separate piece of music paper) a more basic line (falling and rising) that moves mostly by step, using closed noteheads to indicate the structural tones. The tone B begins and concludes this line.

Finally, explain the function of the tones not included in your reductions. Bear in mind that ornamental tones and structural tones might appear in close proximity. For example, the A in bar 16 becomes a suspension across the bar. Furthermore, the G in the second half of bar 17 is anticipated in the ornamental figure that precedes it.

## Assignment No. 6 Chopin, Valse Brillante, Op. 34, No. 2, bars 17–36 (Chapter 3)

For this assignment you will identify the structural bass of Chopin's passage, the T–Int–D–T harmonic structure; review Example 3.5 before you begin working. Review also our discussion of *Stufen* (harmonies) in Chapter 3 and how they differ from *chords*. Remember, that a single chord might represent a harmony, but it also might be built on a tone of figuration (for instance, a passing tone or consonant skip) and hence function *contrapuntally within a Stufe*. (In Example 3.5a, the VII<sup>6</sup> is not itself a harmony [*Stufe*], but a passing chord in the prolongation of the tonic, in the motion from I–I<sup>6</sup>.)

As a first step, label the cadences and identify the phrases (on the music). It will also prove useful to label each chord with a Roman numeral; if the bass note is a passing or neighboring tone, or represents a chordal skip from a root-position chord (such as I–I<sup>6</sup>), we suggest putting the Roman numeral in parentheses. In general, chords placed in parentheses will not be represented in the structural T–Int–D–T harmonic structure.

Then create your own bass-line analysis on staff paper. Model your analysis on Example 3.5a (parentheses are not shown in the first level of this example, but the chords on the upper strand do not possess the status of *Stufen*). Following are some points for consideration: Analyze the chord in bar 20 as a transformation of I<sup>6</sup>. The C<sup>#</sup> in the bass (bar 21) signals the destabilization of the prolonged tonic of bars 17 to 20. What part of the T–Int–D–T framework does C<sup>#</sup> prepare and lead to? How are the chords in bars 22 and 23 related? Hint: What is the relationship of the bass and the structural top voice in these bars?

Notice also that the antecedent phrase contains eight bars, and the consequent phrase 12 bars. How does Chopin *expand* the second phrase? Consider the duration of subdominant harmony in the second phrase relative to that of the first. Hint: The A-minor chord in bar 34 does not represent a return to structural tonic harmony. In the bass, consider G<sup>#</sup> (bar 33) as related to E (bar 35); both chords are part of one harmony (*Stufe*).

## Assignment 6

**Lento**

17 20

22 25

27 30

32 35

This musical score is for a piece titled "Assignment 6" in a "Lento" tempo. It is written for piano in 3/4 time. The score consists of four systems of music, each with a treble and bass staff. The first system covers measures 17 to 20, the second covers measures 22 to 25, the third covers measures 27 to 30, and the fourth covers measures 32 to 35. The music features a variety of rhythmic patterns, including eighth and sixteenth notes, and rests. There are several slurs and phrasing marks throughout the piece. Measure numbers 17, 20, 22, 25, 27, 30, 32, and 35 are indicated at the beginning of their respective measures. There are also some smaller numbers (3, 7) below some notes, possibly indicating fingerings or other performance instructions.

## Assignment No. 7 Beethoven, Op. 2, No. 3, III, Trio, bars 1–24 (Chapter 3)

Use the method and instructions provided for Assignment No. 6 for your analysis of Beethoven's Trio. In determining the T-Int-D-T framework, consider the broader harmonic motions and secondary key areas (tonicizations). Provide Roman numerals on the score (and figured-bass symbols for inversions) and apply the abbreviations N and P for chords built on neighboring and passing tones, respectively. Use our analysis of the Theme from Beethoven's Piano Sonata, Op. 26 (Examples 3.12–3.14) as your guide. Consider these questions and observations as you work:

- a. How do the chords built on the tones A#, C#, and D# (bars 7, 11, and 15) function in the harmonic framework? That is, how do they relate to the chords that immediately precede and follow them? Bear in mind that the "point of origin" of a chromatic tone can occur several bars before the chromatic tone itself appears. Use slurs in your bass-line graph to illustrate both small- and large-scale relationships (refer also to Example 3.8).
- b. The dominant chord in bar 8 functions similarly to V in bar 4 of Example 3.14 and does not figure in the T-Int-D-T framework. Refer to the discussion of "dividing" dominants in Chapter 3 of the text.

## Assignment 7

Trio

This musical score is for a piano piece in 3/4 time, marked 'Trio'. It consists of five systems of staves, each with a treble and bass clef. The key signature has one sharp (F#). The score includes various musical notations such as triplets, slurs, and dynamic markings like *sf* (sforzando). Measure numbers 1, 4, 6, 10, 13, 15, 17, 20, and 24 are indicated at the start of their respective measures. A first and second ending bracket is shown between measures 8 and 10. The piece concludes with a final cadence in measure 24.

Measures 1-5: Trio section, measures 1-5. Measure 1 starts with a triplet of eighth notes in the treble and a triplet of eighth notes in the bass. Measure 4 has a triplet of eighth notes in the treble and a triplet of eighth notes in the bass.

Measures 6-10: Measures 6-10. Measure 6 starts with a triplet of eighth notes in the treble and a triplet of eighth notes in the bass. Measure 8 has a first ending bracket over measures 8-9 and a second ending bracket over measures 10-11. Measure 10 starts with a triplet of eighth notes in the treble and a triplet of eighth notes in the bass.

Measures 11-15: Measures 11-15. Measure 11 starts with a triplet of eighth notes in the treble and a triplet of eighth notes in the bass. Measure 13 starts with a triplet of eighth notes in the treble and a triplet of eighth notes in the bass. Measure 15 starts with a triplet of eighth notes in the treble and a triplet of eighth notes in the bass.

Measures 16-20: Measures 16-20. Measure 16 starts with a triplet of eighth notes in the treble and a triplet of eighth notes in the bass. Measure 18 starts with a triplet of eighth notes in the treble and a triplet of eighth notes in the bass. Measure 20 starts with a triplet of eighth notes in the treble and a triplet of eighth notes in the bass.

Measures 21-24: Measures 21-24. Measure 21 starts with a triplet of eighth notes in the treble and a triplet of eighth notes in the bass. Measure 23 starts with a triplet of eighth notes in the treble and a triplet of eighth notes in the bass. Measure 24 starts with a triplet of eighth notes in the treble and a triplet of eighth notes in the bass.

## Assignment No. 8 Schubert, Sonata in A minor ("Arpeggione"), bars 10–22 (Chapter 3)

The passage for analysis is the first theme of Schubert's sonata (bars 10–22). Determine the T–Int–D–T of the passage (beginning with the entrance of the solo instrument, bar 10), using the approach of Assignment Nos. 6 and 7 as you create your bass-line analysis. (Note: We will return to the opening of this movement in a later assignment.)

Pay close attention to the motivic role of the neighbor note. This observation should cause you to consider the function of  $I^6$  in bar 17: Does it function as a neighbor chord to the chords in bars 16 and 18? Or, is  $I^6$  the endpoint (the "boundary") of a prolonged tonic *Stufe*? (What does the latter interpretation suggest for the function of  $V_4^6-4_2$  on the third and fourth beats in bar 16?) In any case, you might wish to place  $I^6$  in parentheses in your analysis, for in either analysis it does not by itself represent a structural harmony.

Schubert composes the intermediate area in way that reflects the upper-neighbor motion of this passage; be able to explain the association in words and show it in your graph with some of the symbols and abbreviations used in Chapter 3 (model your analysis on Example 3.14 in the text). The particular form of the intermediate harmony "substitutes" for a more typical  $II^6$ , a chromatic transformation we discuss in Chapter 6 (your instructor can explain the subtle difference for this assignment). Play bars 16–22 with a  $B\sharp$  instead of  $Bb$ ; notice how the "color" and consequently some of the drama is subdued by substituting the diatonic form of the chord.

## Assignment 8

**Allegro moderato**

Arpeggione

Klavier

*p*

5

6

10

This musical score is for a piece titled "Assignment 8" in the tempo of "Allegro moderato". It features two staves: an Arpeggione (top) and a Klavier (bottom). The key signature has one sharp (F#), and the time signature is common time (C). The score is divided into three systems. The first system contains measures 1 through 5. The Arpeggione part is mostly silent, with a single measure 5. The Klavier part begins in measure 1 with a piano (*p*) dynamic, featuring a series of chords and moving lines in both hands. The second system contains measures 6 through 9. The Arpeggione part remains silent. The Klavier part continues with complex chordal textures and melodic fragments. The third system contains measures 10 through 13. The Arpeggione part becomes active in measure 10, playing a melodic line. The Klavier part continues with its intricate accompaniment.

## Assignment 8

14

Musical score for measures 14-17. The system consists of a single treble staff and a grand staff (treble and bass). Measure 14: Treble has a half note G4, quarter note A4, quarter note B4, quarter note C5, quarter note B4, quarter note A4, quarter note G4. Bass has a half note G2, quarter note A2, quarter note B2, quarter note C3, quarter note B2, quarter note A2, quarter note G2. Measure 15: Treble has a half note G4, quarter note A4, quarter note B4, quarter note C5, quarter note B4, quarter note A4, quarter note G4. Bass has a half note G2, quarter note A2, quarter note B2, quarter note C3, quarter note B2, quarter note A2, quarter note G2. Measure 16: Treble has a half note G4, quarter note A4, quarter note B4, quarter note C5, quarter note B4, quarter note A4, quarter note G4. Bass has a half note G2, quarter note A2, quarter note B2, quarter note C3, quarter note B2, quarter note A2, quarter note G2. Measure 17: Treble has a half note G4, quarter note A4, quarter note B4, quarter note C5, quarter note B4, quarter note A4, quarter note G4. Bass has a half note G2, quarter note A2, quarter note B2, quarter note C3, quarter note B2, quarter note A2, quarter note G2.

18

Musical score for measures 18-21. The system consists of a single treble staff and a grand staff (treble and bass). Measure 18: Treble has a half note G4, quarter note A4, quarter note B4, quarter note C5, quarter note B4, quarter note A4, quarter note G4. Bass has a half note G2, quarter note A2, quarter note B2, quarter note C3, quarter note B2, quarter note A2, quarter note G2. Measure 19: Treble has a half note G4, quarter note A4, quarter note B4, quarter note C5, quarter note B4, quarter note A4, quarter note G4. Bass has a half note G2, quarter note A2, quarter note B2, quarter note C3, quarter note B2, quarter note A2, quarter note G2. Measure 20: Treble has a half note G4, quarter note A4, quarter note B4, quarter note C5, quarter note B4, quarter note A4, quarter note G4. Bass has a half note G2, quarter note A2, quarter note B2, quarter note C3, quarter note B2, quarter note A2, quarter note G2. Measure 21: Treble has a half note G4, quarter note A4, quarter note B4, quarter note C5, quarter note B4, quarter note A4, quarter note G4. Bass has a half note G2, quarter note A2, quarter note B2, quarter note C3, quarter note B2, quarter note A2, quarter note G2.

## Assignment No. 9 Schumann, Little Study, bars 1–17 (Chapter 3)

This assignment will give you practice in constructing an imaginary continuo. Model your assignment on Examples 3.18 and 3.19 in the text. (It is reasonable to assume that Schumann's little piece was inspired by Bach's Prelude.) Use a piece of staff paper and make your "realization" (17 bars) look similar to Example 3.19 (the two pieces are very similar in style). Read our suggestions for preparing a chordal reduction before beginning work. You don't need to add Roman numerals to the Schumann, but supply all appropriate figured-bass symbols beneath the chords.

Determine the broader T-Int-D framework of the passage, using Roman numerals sparingly to identify broader harmonic chords and areas. Can the arrival of IV in bar 7 be considered the beginning of the "intermediate area" of the structure? If so, how far does it extend? Consider the following:

- a. The leap in the bass and the relationship of the harmonies in bars 13–14.
- b. The role of the stepwise bass—the lowest part of the left hand—in bars 7–11.
- c. The  $g\sharp$  in bar 12 intensifies the A-minor harmony in bar 13. In what ways might this II relate to IV in bar 7?
- d. The C in the bass (bar 14) is the lowest note of the left hand thus far. Consider how it might relate to a previously stated version of scale-degree  $\hat{4}$  in the bass.

The chord in bar 16 is both an extension and an elaboration of the chord in bar 15. In what way would the elimination of bar 16 disturb the rhythmic flow of the music?

## Assignment 9

Leise und sehr egal zu spielen.

The image displays a piano score for Assignment 9, consisting of three systems of music. Each system contains six measures. The key signature is one sharp (F#) and the time signature is 8/8. The notation is as follows:

- System 1 (Measures 1-5):** The right hand plays a series of eighth-note pairs (G4-A4, A4-B4, B4-C5, C5-B4, B4-A4, A4-G4) beamed together, with a slur over the entire phrase. The left hand plays a steady eighth-note bass line (F#3-G#3, G#3-A3, A3-B3, B3-C4, C4-B3, B3-A3, A3-G#3, G#3-F#3). Pedal markings are present at the start of measures 1, 3, 5, and 6, with asterisks between measures 2 and 3, 3 and 4, 4 and 5.
- System 2 (Measures 6-11):** The right hand continues the eighth-note pairs, with a slur over measures 6-8 and another slur over measures 9-11. The left hand continues the eighth-note bass line. Pedal markings are present at the start of measures 6, 8, 10, and 11, with asterisks between measures 7 and 8, 8 and 9, 9 and 10.
- System 3 (Measures 12-18):** The right hand continues the eighth-note pairs, with a slur over measures 12-14 and another slur over measures 15-18. The left hand continues the eighth-note bass line. Pedal markings are present at the start of measures 12, 14, 16, and 18, with asterisks between measures 13 and 14, 14 and 15, 15 and 16, 16 and 17.

Measure numbers 4, 6, 9, 12, and 16 are indicated at the beginning of their respective measures.

## Assignment No. 10 Chopin, Etude in C major, Op. 10, No. 1, bars 1–9 (Chapter 3)

Chopin's Etude is considerably more difficult than Schumann's "Little Study" and Bach's C-major Prelude (Example 3.18). Nevertheless, despite the obvious stylistic and performance differences, the reduction of the Chopin will show the similarities to the Bach Prelude. Your imaginary continuo realization of bars 1–8 will reveal the common characteristics and in particular the similarities between their structural melodies. (Could Chopin have been thinking of Bach's Prelude when composing his Etude?)

Prepare an imaginary continuo realization (bars 1–8), similar to the one constructed for Assignment No. 9. Use four or five voices in the right hand and one (representing the bass) in the left. Because Chopin's use of register is so free and complex, we suggest that you use  $e^2$  as the top note (right hand) for the first chord of the imaginary continuo. (Notice the accents that highlight this tone in bars 1 and 2.)

## Assignment 10

**Allegro** ♩ = 176  
*legato*  
*f*

This musical score consists of four systems, each containing two staves (treble and bass clef). The tempo is marked 'Allegro' with a quarter note equal to 176 beats per minute. The first system is marked 'legato' and 'f' (forte). The music features a continuous eighth-note melody in the right hand and a supporting bass line in the left hand. The key signature has one sharp (F#). The first system ends with a double bar line and a repeat sign. The second system begins with a measure rest of 3 measures. The third system begins with a measure rest of 5 measures. The fourth system begins with a measure rest of 7 measures. The score concludes with a final double bar line and a repeat sign.

8

Red.

## Assignment No. 11 Corelli, Op. 4, No. 5, Corrente (Chapter 3)

In Chapter 3, we use Bach's figured-bass chorale "Ihr Gestirn, ihr hohen Lüfte" to illustrate specific techniques of harmonic prolongation, key areas (*Stufen*) that span larger contexts, and typical harmonic characteristics of the minor mode. For Corelli's composition (which is similar to Bach's in its large-scale layout), create an analysis that resembles Example 3.16. Notice that the Corrente is "rounded," beginning in bar 22, a feature that we will discuss in Chapter 9; this observation will facilitate your analysis.

The example in the book uses two levels of Roman numerals. On the upper level, use Roman numerals (as in Example 3.16) to show local progressions and typical prolongations (review, for instance, bars 3 and 14 in Example 3.16). In the Corelli, bars 1–3 can be represented simply as I–IV<sup>6</sup>–V in A minor, a local Phrygian cadential progression. In bars 9 and 10, use IV–V–I to indicate the cadence in C major. Hint: Corelli uses many  $\frac{6}{4}$  chords, so Roman numerals are not always applicable, but C major "begins to develop" in bars 5 and 6. What other local "keys" occur in the Corrente? Identify each key as it occurs, and clearly indicate the return to the tonic.

On the lower level, use Roman numerals sparingly (as in the text example) to indicate only broader harmonies (*Stufen*). Be sure to label each structural harmony with T, Int, or D. Finally, compare the compositions, noting particularly how each composer treats the restatement of the final, structural tonic.

## Assignment 11

**Vivace**

6 6 # 7 5 6 6 6 6 6 5 4 3

6 b # 6 6 6 5 4 # 4 2 # 4 2 6

6 5 # 6 6 # 7 5 6 6 5 6 6 5 6

6 5 6 6 5 4 # 6 # 6 5 6 6 5 6 6 5 4 #

## Assignment No. 12 Mozart, Piano Sonata, K. 280, III, bars 1–3 (Chapter 4)

In this exercise you will identify linear progressions. For this first exercise in analyzing linear techniques, we recommend that you label the progressions on the score itself. Use slurs and beams as shown in Example 4.2 (Example 4.6 can also serve as a model for this and other assignments in this section). Be sure to notice the clef changes in the left hand.

Before marking the linear progressions on the score, construct (on a separate piece of staff paper) an imaginary continuo for bars 1–5 and bars 24–29. This will help you identify the tones you should group with a slur on the music. Remember that a linear progression is either a horizontal manifestation of an interval in an underlying chord, or else it is a succession of tones that connects two closely related chords (review Example 4.3). Which types of linear progression occur in bars 1–5, and in bars 24–29? Hint:  $c^3$  is the top note of the initial tonic chord, the bass of which can only be implied through context.

In bars 1–5 (which are basically equivalent to bars 8.3–13), the tonic is prolonged. How do the tones *not* belonging to the tonic relate contrapuntally to the bass tones of I and  $I^6$ ? Identify the stepwise line in the upper voice that corresponds harmonically to the prolonged tonic. Indicate the linear progression with a slur (or a beam) from  $c^3$  (see Examples 4.3 and 4.4).

Next show the upper-voice linear progression that connects bar 25 with bar 29. Notice that a 5–6 exchange is implied in bars 24–25, expanding the tonic in these bars. The upper-voice tone A is transferred upward an octave (to the *original* register!) in bar 25 over the D-minor  $\frac{6}{5}$  chord, and is the first tone of the descending linear progression of a fifth that spans the prolongation of this chord in bars 25–29.

A question for further consideration: Does the *span* of the tones in the anacrusis and bar 1 relate “organically” (but in miniature) to that of the second linear progression, and the rising figure in bars 29–31?

### Assignment No. 13 C. P. E. Bach, "Prussian" Sonata, Vivace, bars 1–40 (Chapter 4)

---

For this assignment you will identify linear intervallic patterns and associated linear progressions for bars 17–24 and bars 25–33. Begin in bar 17 with an F-major tonic in three voices. Explain the underlying species counterpoint model on which the sequence pattern is based. Also, discuss the harmonic "frame" in which the linear techniques function. Use Examples 4.12 and 4.15 as your guides. Explain the difference between the figuration pattern that elaborates the sequence in bars 17–24 and that in bars 25–33. (Notice the "surface" parallel fifths in bars 25–33 that elaborate the basic voice leading, but are not a fundamental part of it.)

In addition to Roman numerals (used very sparingly, to indicate only the *Stufen* associated by the linear intervallic pattern), use slurs on your graph to group the tones of the associated linear progressions (see Example 4.17). Finally, can you identify the two short linear progressions in bars 1–2 and 2–3, which shape most of the first line?

## Assignment 13

## Vivace

5

9

15

17

20

26

30

34

40

*p*

*f*

*tr*

*tr*

*tr*

The musical score is for a piece titled "Vivace" in 3/8 time. It consists of five systems of music, each with a treble and bass staff. The key signature has one flat (B-flat). The score includes various musical notations such as eighth notes, quarter notes, and rests. There are dynamic markings *p* (piano) and *f* (forte). Trills are indicated by "tr" above notes. Measure numbers 5, 9, 15, 17, 20, 26, 30, 34, and 40 are placed above the first staff of each system. The piece ends with a double bar line and repeat dots at measure 40.

# Assignment No. 14 Bach, French Suite in C minor, BWV 813, Minuet, bars 17–24 (Chapter 4)

This assignment involves analyzing a passage from the second part of Bach's Minuet; the passage leads from IV to V. On a separate piece of staff paper, construct an imaginary continuo of the music on one system: The first chord should be an F-minor triad with A<sup>b</sup> as the first top-voice tone. On another system, write the linear intervallic pattern with numbers between the staves; the numbers should indicate repeated patterns of intervals (model your analysis on Example 4.13).

Describe how dissonances are prepared and resolved (in a nonadjacent fashion) in the top voice of the linear intervallic pattern. For this part of the assignment, you will need to interpret the line of the right hand as moving into and out of inner voices of the imaginary continuo. Where do accented dissonances occur?

17

21

## Assignment No. 15 Bach, Harpsichord Concerto (after Marcello), BWV 974, II, bars 1–15 (Chapter 4)

This assignment should be completed in a manner similar to that specified for Assignment No. 14 (also using Examples 4.13 and 4.17 as models from the text). First prepare a block-chord reduction with figured-bass symbols. The specific figured-bass symbols for bars 6, 8, and 10 depend on which tones you interpret (in the diminution of the right hand) as the “top” notes of the underlying chords.

On a separate piece of staff paper, complete the three-voice setting of the two linear intervallic patterns. The first pattern begins in bar 4 and the second in bar 11. Show with numbers (between the staves) the pattern of the outer voices and add figured-bass symbols beneath the staff. Begin your analysis of the linear intervallic pattern (and associated linear progression) that begins in bar 4; for the imaginary-continuo chord, use a D-minor tonic with two “soprano” notes:  $f^2$  followed by  $a^2$  (a small skip; the F is the resolution of G—in the lower register—from the previous bar).

The first linear intervallic pattern (bars 4–11) is accompanied by a linear progression (as is usually the case). Notice that the superposition of C in bar 4 adds a seventh that is then echoed by the seventh chords in bars 6, 8, and 10. Use a slur to show the horizontalized interval of the underlying *Stufe* prolonged by the repeated pattern of intervals (refer to Example 4.15). Be sure to label the linear progressions (3-prg, 4-prg, etc.) and be able to explain *precisely* why it is appropriate to group the series of tones you find as defining the particular linear progression.

## Assignment 15

Adagio

This musical score is for a piece titled "Assignment 15" in the tempo of "Adagio". It is written for piano in 3/4 time with a key signature of one flat (B-flat). The score is divided into four systems, each containing two staves (treble and bass clef).  
- The first system (measures 1-6) begins with a treble staff of eighth notes and a bass staff of eighth notes. Measure 4 includes a first ending bracket with a repeat sign and a measure rest.  
- The second system (measures 7-10) features a treble staff with a half note rest in measure 7, followed by a melodic line in measures 8-10. The bass staff continues with eighth notes.  
- The third system (measures 11-12) shows a treble staff with a half note rest in measure 11, followed by a melodic line in measure 12. The bass staff has a half note rest in measure 11 and eighth notes in measure 12.  
- The fourth system (measures 13-15) continues the melodic development in the treble staff and the accompaniment in the bass staff. Measure 15 ends with a final chord in both staves.

## Assignment No. 16 Bach, Prelude in G minor from “English” Suite No. 3, BWV 808, bars 1–33 (Chapter 4)

Bach wrote the Prelude to his third “English” suite in the manner of a Baroque concerto. The passage presented here, bars 1–33, is the concerto movement’s *ritornello*, which exhibits two closely related sequences. The first sequence (and associated linear intervallic pattern) descends in bars 8–14; it is repeated in varied form in bars 15–21. The second sequence (bars 23–27) rises and, in contrast to the first, is more chromatic in nature.

Make an imaginary continuo reduction of the sequential passages (bars 8–14 and 23–27). Be sure to indicate the numbers for the outer-voice intervallic patterns (such as 7–10, 7–10). This should bring the linear progressions and linear intervallic patterns into sharp relief.

Label the linear progressions that accompany these outer-voice intervallic patterns (use Examples 4.15–4.18 in the text as models).

Include a few Roman numerals only for the *Stufen*, and discuss how these sequences relate to the harmonic framework—that is, how the sequences connect the *Stufen*.

## Assignment 16

This musical score is for a piece in 3/8 time, featuring a treble and bass staff. The key signature has two flats (B-flat and E-flat). The score is divided into five systems, each containing two staves. Measure numbers 1, 5, 8, 11, 14, 18, 21, 25, 27, and 30 are indicated at the beginning of their respective measures. The notation includes various rhythmic values (eighth, sixteenth, and thirty-second notes), rests, and dynamic markings such as *mf* and *f*. The piece concludes with a double bar line and repeat dots at the end of measure 30.

## Assignment No. 17 Bach, Prelude in F major, BWV 927 (Chapter 4)

This little Prelude is the last composition you will examine for linear techniques; bars 1-8 are literally saturated with linear progressions and intervallic patterns. Don't restrict your analysis to the upper and lower voices; consider also the "tenor" voice, particularly in bars 1-4. The progression of chords is quite clear in bars 1-4, so it will not be necessary to make an imaginary continuo, but bars 5-8 are another matter. Construct a chordal reduction for these bars; don't forget to include the suspensions in the right hand (which should include three voices).

As with previous assignments, use slurs (on the music or on a separate piece of staff paper) to group the tones of the linear progressions. For the linear intervallic pattern beginning in bar 5 (which supports a prominent linear progression), be sure to include a slur for the linear progression and indicate (with numbers between the staves) the particular linear intervallic pattern. Use Example 4.18 as your model.

The main bass tones of the harmonic sequence (beginning in bar 5) are clear and are elaborated with tones of figuration; your reduction will "reduce out" these tones, but be able to identify which species of counterpoint are at work in the diminution of the bass. The sequence concludes in bar 8 on tonic harmony, but the bass and chordal interpretation are tricky at the beginning of the bar. There is more than one possible interpretation: To help you complete the outer-voice setting, we suggest D and E in the bass on beats 1 and 2 of bar 8.

We suggest you consider aspects of the composition other than those relating to linear techniques. For instance, compare the register of bar 4 to that of bar 13. How does Bach subsequently compensate for this rather drastic change of register over the course of the Prelude? Can you relate the A on the last part of bar 14 to an earlier occurrence of A in the same register? Remember that the compositional use of register—in addition to harmonic and contrapuntal techniques—is a valuable resource for composers.

## Assignment 17

Piano score for Assignment 17, measures 1 through 13. The music is in 3/4 time and B-flat major. The score is written for piano (p) and consists of five systems of two staves each (treble and bass clef). The first system (measures 1-3) features a treble staff with eighth-note chords and a bass staff with eighth-note chords. The second system (measures 4-6) shows a treble staff with eighth-note chords and a bass staff with eighth-note chords. The third system (measures 7-9) features a treble staff with eighth-note chords and a bass staff with eighth-note chords. The fourth system (measures 10-12) shows a treble staff with eighth-note chords and a bass staff with eighth-note chords. The fifth system (measures 13) features a treble staff with eighth-note chords and a bass staff with eighth-note chords. The score concludes with a double bar line and repeat signs.

## Assignment No. 18 Haydn, Symphony No. 97, Hob. I/97, Trio, bars 1–8 (Chapter 5)

This passage from Haydn's Symphony is very close in style and texture to Mozart's Trio from *Eine Kleine Nachtmusik* (Example 5.2). Following our discussion of the *Ursatz* and *Structural Levels* in Chapter 5, consider bars 1–8 of the Haydn as a complete composition and construct a multileveled voice-leading graph (three levels). Model your analysis on our analysis of Mozart's Trio. As a first step, as in the Chapter 5 examples, you should construct an imaginary continuo (which does not count as one of the three levels). Remember, in principle, the first tone of the *Urlinie* can be  $\hat{1}$ ,  $\hat{3}$ , or  $\hat{5}$ . You might have to trace more than one path before arriving at the line that best represents the *Urlinie* of the passage. After you have constructed the imaginary continuo, create a foreground graph, which should contain most of the notes in the composition. In your middleground graph, be sure to indicate the origin of tones not belonging to the *Urlinie*. For instance, how do you interpret  $c^2$  in bar 2 or  $d^2$  in bar 4? The imaginary continuo will help you determine the function of these tones relative to the tones of the *Urlinie*. The background should contain only the *Ursatz* notes. You have now constructed an *Urlinie-Tafeln* in three levels (Schenker's German term for a multileveled voice-leading graph), consisting of a foreground, a middleground, and a background graph.

## Assignment No. 19 Beethoven, Piano Sonata, Op. 10, No. 1, I, bars 1–22 (Chapters 6 and 7)

This passage forms the first theme of Beethoven's Sonata. Construct a three-level graph or *Umlinie-Tafel*. Example 7.25 is an excellent model on which to model your graph. As you analyze, consider Beethoven's use of wide-ranging registers (his opening theme is an example of a "rocket" theme used by the eighteenth-century Mannheim composers).

In Chapter 6 we describe techniques of melodic prolongation. What specific techniques are evident in the upper voice of bars 1–9, bars 9–10, bars 11–12, and bar 18, downbeat (think about the resolution of the dissonance in the previous bar)?

The following are some additional observations for consideration.

- a. The motive in bars 1–2 and bars 5–6 can be described as a "rocket-theme." Does Beethoven use this motive in other places? Hint: Repetitions of this motivic element might appear in forms different from the original presentation.
- b. In the drive toward the cadence in bars 18–22, the analyst must invoke the notion of an *implied tone* in the top voice in certain places. How are such tones symbolized in graphic notation? What are the theoretical conditions under which implied tones can occur?
- c. Do you think that Beethoven's use of dynamic markings might suggest certain long-range associations? To what extent can dynamic relationships function in this way?

## Assignment 19

**Allegro molto e con brio**

First system (measures 1-7):

- Measure 1: *f*
- Measure 4: *p*
- Measure 6: *f*
- Measure 7: *p*

Second system (measures 8-15):

- Measure 8: *rinf.*

Third system (measures 16-22):

- Measure 16: *pp*
- Measure 19: *ff*
- Measure 22: *f*

## Assignment No. 20 Beethoven, Piano Sonata, Op. 57 ("Appassionata"), II, bars 1-16 (Chapter 7)

This passage, like the one presented in Assignment No. 19, is a self-contained, harmonically closed section in the tonic; it is also the theme for a set of variations that make up the second movement of Beethoven's "Appassionata" Piano Sonata. The goal is to prepare a graphic analysis (three levels) similar to the one shown in Example 7.20; use the same set of instructions as those presented for Assignment No. 19.

In addition to "discovering" the *Ursatz* (the *Urlinie* and *Bass Arpeggiation*), you should identify prominent techniques of melodic prolongation and, even more importantly, motivic features that are special to this passage. For instance, Beethoven uses a neighbor figure ( $\hat{5}-\hat{6}-\hat{5}$ ) in bars 1-2. In what other guises does this motive recur (don't forget to examine inner voices and the bass)?

In the edition we have provided (an *Urtext* edition), you will notice that the right-hand stave is "empty" for eleven bars; the upper voice begins in the tenor register and gradually "climbs." This observation is an important clue to identifying the technique of melodic prolongation that shapes the upper voice. What is the "name" of the second chord that appears in bar 6?

Here are some points for further consideration: What is the main chord on the first beat of bar 14: I or I<sup>6</sup>? (Explain the ramifications of both readings.) Finally, how does Beethoven (on a small scale) both *prefigure* and *summarize* the *Urlinie*?

## Assignment No. 21 Schubert, Sonata in A minor ("Arpeggione"), bars 1–22 (Chapter 7)

---

In Assignment No. 8, you analyzed the bass-line structure of Schubert's first theme. Now complete the analysis: this time, however, include the piano introduction in your graphic analysis and complete the assignment in three levels, using Example 7.20 as your model.

Schubert uses an upper-neighbor figure as a prominent motive. How does it recur throughout this passage?

In bar 16, what is the initial main tone in the upper voice, and how does it fit into Schenker's conception of tonal structure? Review specific techniques of melodic prolongation in Chapter 6 to help you with this question.

## Assignment No. 22 Beethoven, Piano Sonata, Op. 27, No. 1 ("Moonlight"), III, bars 116–137 (Chapter 7)

This passage is the second theme (recapitulation) of the finale from Beethoven's "Moonlight" sonata, a harmonically closed single phrase in C# minor (consider G# as  $\hat{5}$  of the *Urlinie* of this passage). Use the same approach as for Assignment Nos. 20 and 21. Use Example 7.30 as your model (the passage analyzed there is also the second theme of a Beethoven Piano Sonata, but as it occurs in the exposition).

Very often the recognition of formal sections can help you make decisions regarding the underlying tonal structure. This phrase is an example of a sentence, which is described in Chapter 7. The first basic idea of the presentation spans bars 116–119, the second basic idea bars 120–123. At this point, a harmonic *elision* occurs at the beginning of the continuation part of the sentence (bars 124–137; review our discussion of an elision in Example 7.11). Consider, in bars 124–127 of the continuation, that both the upper and lower voices simultaneously exhibit linear progressions (the first tone of the progression in the bass is elided).

The main techniques of melodic prolongation applying to G# (beginning in bar 116) are fairly straightforward (the two basic ideas of the sentence differ essentially with respect to register). For the continuation, including the drive to the cadence, consider first whether the descent in the upper voice (bars 123–127) represents the descent of the *Urlinie*. If not, what technique does the descent represent?

Now consider the role of the dramatic intermediate harmony, the deceptive resolution to VI (bar 132), and Beethoven's subsequent "second attempt" to achieve closure in bar 137. The trill in bar 131, although it appears before the second drive to the cadence, will help you to make specific decisions about the ultimate close of the *Urlinie*. For instance, considering that bars 131 and 136 occur at similar places in the harmonic structure (notice in bar 136 the register change, the *leap* to low G#), what technique occurs on the third beat of bar 136?

## Assignment 22

116

*p*

119

*cresc.*

122

*sf*

125

*tr* *sf* *sf* *sf* *sf*

128

*ff* *p* *cresc.*

This musical score is for a piano piece in A major (three sharps). It consists of five systems of music, each with a treble and bass staff. Measures 116-118 show a piano (*p*) melody in the treble and a steady eighth-note accompaniment in the bass. Measures 119-121 feature a crescendo (*cresc.*) in the treble melody. Measures 122-124 are marked *sf* (sforzando) in both hands. Measures 125-127 include trills (*tr*) in the treble and *sf* markings in both hands. The final system (measures 128-130) begins with a fortissimo (*ff*) chord in the left hand, followed by a piano (*p*) melody in the right hand and a crescendo (*cresc.*) in the left hand.

## Assignment 22

131

Measures 131-133 of a musical score in A major (three sharps). Measure 131: Treble clef has a half note A4 with a trill (tr) and a piano (p) dynamic; Bass clef has a continuous eighth-note arpeggiated pattern. Measure 132: Treble clef has a half note G#4; Bass clef has a half note chord (F#3, A2) with a fortissimo (ff) dynamic. Measure 133: Treble clef has a continuous eighth-note arpeggiated pattern with a piano (p) dynamic; Bass clef has a half note chord (F#3, A2) with a crescendo (cresc.) dynamic.

134

Measures 134-137 of a musical score in A major (three sharps). Measure 134: Treble clef has a continuous eighth-note arpeggiated pattern; Bass clef has a continuous eighth-note arpeggiated pattern. Measure 135: Treble clef has a half note A4 with a forte (f) dynamic; Bass clef has a continuous eighth-note arpeggiated pattern with a forte (f) dynamic. Measure 136: Treble clef has a half note A4 with a forte (f) dynamic; Bass clef has a continuous eighth-note arpeggiated pattern with a forte (f) dynamic. Measure 137: Treble clef has a half note A4 with a forte (f) dynamic; Bass clef has a continuous eighth-note arpeggiated pattern with a forte (f) dynamic.

## Assignment No. 23 Mozart, Rondo in D major, K. 485, bars 1–16 (Chapter 7)

Mozart's Rondo refrain comprises two phrases: The first ends with a half cadence, the second with a perfect authentic cadence. Hence the small-scale formal unit is a *period* structure. Model your analysis on Beethoven's period analyzed in Examples 7.16 and 7.17. Because most of the consequent phrase consists of a repetition of the antecedent phrase, our observations pertain primarily to the first phrase. As in Example 7.17, you should prepare a graph on three levels. (Be aware of clef of the left hand.)

Notice, in the antecedent phrase, how long tonic harmony is prolonged (identify the contrapuntal function of the bass tones in bars 2–3 not belonging to tonic harmony). What is the function of tonic harmony in bar 7: structural harmony (*Stufe*) or local chord working within another harmony? If you choose the latter, define its contrapuntal significance relative to a tone in the upper voice. Hint: The flourish in bar 8 is a "bridge" that connects the two phrases; the sixteen-note diminution prolongs a higher ranking tone of the *Urlinie*.

In the upper voice,  $g^2$  in bars 2–3 belongs to  $V_3^4$  of the imaginary continuo, which means that the normal tendency of  $g^2$  (the seventh of the inverted  $V^7$ ) is to resolve downward to  $F^{\sharp}$ . Mozart, however, reestablishes  $a^2$  as the top-voice tone in bar 4. How can one explain the voice leading of  $\hat{4}$  ( $g^2$ ) into bar 4 (where Mozart apparently overrides voice-leading tendencies and reestablishes  $a^2$  in top position)? Also, one of Mozart's favorite motives is the falling fifth. How many repetitions of this motive (sometimes literal, sometimes altered) can you discover in the first phrase?

For the consequent phrase, your main concern will be to determine how Mozart recomposes the cadential bars to accommodate the tonic in bar 8. Hint: The structural intermediate harmony of the consequent phrase supports G in the upper voice. This recomposition highlights the cadential structure of the two phrases, and, consequently, an important division in the *structure*. In other words, what important form-producing technique occurs in bar 8? (A reexamination of Examples 7.16 and 7. 17 will help you answer this question.)

**Allegro**

**Allegro**

First system of the musical score, featuring a piano introduction in E major and 3/4 time. The right hand has a melody with eighth and sixteenth notes, and the left hand has a steady eighth-note accompaniment. The system ends with a repeat sign.

5

Handwritten musical score for 'The Rose Tree'. The score is written on two staves. The top staff uses a treble clef and the bottom staff uses a bass clef. The key signature is one sharp (F#). The melody in the top staff consists of eighth and sixteenth notes, with some notes beamed together. The bass staff provides a harmonic accompaniment with chords and single notes. The score is divided into measures by vertical bar lines. There are some handwritten annotations above the first two measures of the top staff, possibly indicating fingerings or breath marks.

9

Musical score for 'The Rose Tree' in G major (one sharp). The score is in 2/4 time and consists of two staves. The melody is written on the upper staff, and the accompaniment is on the lower staff. The melody begins with a quarter rest, followed by a quarter note G4, an eighth note A4, and a quarter note B4. The accompaniment consists of a steady eighth-note pattern in the right hand and a steady quarter-note pattern in the left hand. The key signature is one sharp (F#), and the time signature is 2/4.

## Assignment No. 24 Schumann, *Liederkreis*, Op. 24, "Morgens steh' ich auf" (Chapter 8)

Reflecting our presentation of Schubert's song in Chapter 8 of the text, we suggest you begin by studying the poem. Note its mood and character, and identify any words or phrases that might "suggest" text painting by the composer. Hint: The juxtaposition of day and night represents one possibility.

For this piece, focus first on the bass structure and identify the brief tonicizations between the tonic and V in bar 35 (the song is quite short and begins and ends with a prelude and a postlude). For instance, how do F# minor and E minor function in the middleground bass-line structure? Hint: The G-major chord in bar 26 begins a prolongation of the subdominant.

As we also mentioned in the text, the vocal part is usually associated with the melodic structure and, ultimately, the *Urlinie*; notice, however, how bars 1–4 of the piano part prefigure the opening bars of the vocal part. How does the chromaticism in the later part of the vocal line reflect the sentiments of the poem (the ideas and feelings of the protagonist)? Finally, how does the diminution in bars 43–45 (the right hand of the piano part) recall features of the structural melody in the voice over the course of the entire song?

## Assignment No. 25 Handel, Theme and Variations in B $\flat$ major, Aria (Chapter 9)

Handel's Aria can be understood as a binary form, similar in type to the ones presented in the first part of Chapter 9. Use Example 9.2 as the model for your graphic analysis (sometimes two levels might suffice—surface/foreground and middle-ground). The *Urlinie* can be read from either  $\hat{3}$  or  $\hat{5}$ . One interpretation is not necessarily better than the other, but the relationship between structure and form will differ based on different readings. A point for consideration: Schenker published an analysis of this little piece (we won't divulge his starting point for the *Urlinie*). Your instructor might decide to show you his or her reading after you prepare your own, presenting you with an opportunity to examine aspects of Schenker's analytical thinking.

In your analysis, be especially sensitive to the role of the upper neighbor E $\flat$  in the top voice, which occurs as both a *complete* and an *incomplete* upper neighbor throughout the piece. There are subtle but important distinctions between these contrapuntal formations, and your graph should clearly differentiate their functions in the upper voice.

Prepare two graphs for the Aria, one from  $\hat{3}$ , the other from  $\hat{5}$ . Be able to explain in words and symbols the differences between the foreground and middleground levels of the upper voice. In your reading from  $\hat{5}$ , consider that E $\flat$  can be the "main" tone over A in the bass (bar 6). If so, what are the contrapuntal implications for the E $\flat$  and the following F?

Based on your reading, sketch a structural synopsis (the final level) for the first level of the middleground. A structural synopsis is essentially a deep middle-ground graph: Use Example 9.4 as an example. Finally, describe (in words) the relationships between form and structure in each of your two readings. Remember, form and structure are related aspects of tonal compositions, but they are not synonymous; review our summary of Schenker's ideas at the beginning of Part 2 of the text.

The image displays a musical score for Handel's Aria in B $\flat$  major. The score is written for a single melodic line with a basso continuo line. The first system consists of measures 1 through 4, ending with a repeat sign. The second system begins with a measure rest of 5 measures, followed by measures 5 through 8. Measures 5-7 are the main body of the piece, and measure 8 is a double bar line. Following measure 8, there are two endings: a first ending (marked '1.') and a second ending (marked '2.'). The first ending leads back to the beginning of the piece, and the second ending leads to the final cadence. The score is in treble and bass clefs with a key signature of two flats (B $\flat$  major).

## Assignment No. 26 Handel, Minuet in F major, HWV 516a (Chapter 9)

Use the same approach and instructions as for Assignment No. 25. First, identify the cadences and modulations on the score. Hint: Consider bar 6 as the beginning of a tonicized C-major area.

As you work consider two interpretations for the beginning of the B section. The first involves a return to structural tonic harmony in bar 9; the second regards the passage after the double bar as a prolongation (until bar 23) of the dominant in bar 8. How might the foreground linear motion in the upper voice (bars 9–13) help you to choose between these possibilities?

Another consideration: Does an interruption divide the structure (compare with Example 9.8)? What reasons can you articulate for and against a reading that includes this technique? Hint: The tone  $a^2$  is implied in bar 16 and restated literally in bar 17. Are the preceding occurrences of this tone related at the same structural level?

Handel establishes D minor in bars 14–16. What are the contrapuntal implications of this “key” at the middleground if you consider F major in bar 9 as a return to structural tonic harmony?

Finally, as with the preceding assignment, discuss aspects of form and structure in this Minuet.

## Assignment 26

Assignment 26 is a musical score in 3/4 time, featuring a treble and bass staff. The key signature has one flat (B-flat). The score is divided into three systems of measures.

**System 1 (Measures 1-6):** The melody in the treble staff begins with a trill (tr) on G4, followed by a quarter note F#4, and then a quarter note E4. The bass staff provides a simple accompaniment of quarter notes: G3, F3, E3, D3, C3, B2.

**System 2 (Measures 7-15):** Measure 7 starts with a trill (tr) on G4. Measure 8 has a trill (tr) on G4. Measure 9 has a trill (tr) on G4. Measure 10 has a trill (tr) on G4. Measure 11 has a trill (tr) on G4. Measure 12 has a trill (tr) on G4. Measure 13 has a trill (tr) on G4. Measure 14 has a trill (tr) on G4. Measure 15 has a trill (tr) on G4.

**System 3 (Measures 16-24):** Measure 16 has a trill (tr) on G4. Measure 17 has a trill (tr) on G4. Measure 18 has a trill (tr) on G4. Measure 19 has a trill (tr) on G4. Measure 20 has a trill (tr) on G4. Measure 21 has a trill (tr) on G4. Measure 22 has a trill (tr) on G4. Measure 23 has a trill (tr) on G4. Measure 24 has a trill (tr) on G4.

The score includes various musical notations such as trills (tr), slurs, and repeat signs. The bass staff accompaniment consists of quarter notes, with some measures featuring eighth notes.

## Assignment No. 27 Bach (Anon.), Menuet in D minor, BWV Anhang 132 (Chapter 9)

Use the same approach and instructions as for Assignment No. 25, and compare this assignment with Example 9.1. First, identify the type of binary form, label the cadences, and determine the number of phrases. Determining the first tone of the *Urlinie* can be challenging in this composition; scale-degrees  $\hat{3}$ ,  $\hat{5}$ , and  $\hat{1}$  appear in close proximity in bar 1. Hint: What tone seems to be *implied* in bar 4 (consider the voice leading of the previous measure)? For the modulation, consider that III begins to “develop” by the conclusion of bar 5; the Roman numerals of the imaginary continuo (third beat of bar 5 to the downbeat of bar 6) are  $V_2^4-I^6$  in the key of F major.

In the B section, the upper voice clearly begins on  $a^2$ , which initiates a descending linear progression; what tone is the endpoint of the progression? Also, the V in bar 12 is a triad; the V in bar 14, on the other hand, is a  $V^7$ , supporting  $g^2$ . These observations should help you identify the function of the linear progression beginning in bar 9, and, consequently, the longer-range association from  $a^2$ .

Don't forget to consider idiosyncratic motivic features and repetitions; compare, for instance, the upper voice in bars 3 and 14, and the bass in bar 12 with the upper voice in bar 13. Finally, as with previous assignments for Chapter 9, discuss the distinction between form and structure in this Menuet.

## Assignment No. 28 Mozart, Piano Sonata, K. 547a, III (Thema) (Chapter 9)

Mozart's little binary form presents some difficulties in analyzing the upper voice, particularly in bars 1–8; notice the jagged, broken motions of the right hand. Certainly we have seen such wide-ranging separated lines before and have discovered that melodically fluent, stepwise lines can underlie a complex interplay of registers. (This is one passage for which an imaginary continuo realization would prove very useful. Compare this exercise with Examples 9.5 and 9.6.) Hint: What does the motion G–G# (bars 1–2, different registers) suggest for the main tone over tonic harmony in bar 2? Note also the double voice exchange in bar 3.

The bass-line harmonic structure of the first phrase is also tricky. Hint: Consider that F#, which begins the second phrase, is related over a longer span to the tonic F at the beginning of the first phrase. This reading will suggest at least two different analytical interpretations for consideration:

- a. Is the V in bar 4 back relating, so that the large-scale half-step motion F (bar 1) to F# (anacrusis to the second phrase) “overrides” the V at the half cadence in bar 4?
- b. Or, does the appearance of F# in bar 4 simply represent an elision, taking the place of an understood F natural (of a root-position tonic)?

The B section is less complex (at least in terms of register), so we will offer only a few remarks. The g<sup>2</sup> in bar 9 appears to “pop up” suddenly. Perhaps it reestablishes the “real” upper voice? If such is the case, then from what tone does g<sup>2</sup> follow over a longer span? And does g<sup>2</sup> (it is repeated) lead to F or A in bars 12–14? The answer to this question might not be as obvious as it first appears.

Important point: The cadences in bars 7–8 and 15–16 are identical and form a kind of musical “rhyme” in the form of the composition. But the two I<sup>6</sup> chords that begin each cadence pattern *do not represent a return to structural tonic harmony*. Hint: The voice exchanges in bars 7 and 15 (between outer voices) should help you evaluate the harmonic context. Your instructor can shed additional light on this very common bass motion, which occurs often at cadences in Baroque and Classical compositions. As always, discuss the relationship between form and structure; because, however, the next assignment introduces other considerations, we will be more specific and suggest you consider the “nature” of the *Urlinie* and how it relates to the two-part *form*.

## Assignment 28

## Allegretto

*(mf)*

6 *(p)* 9

11 *(cresc.)* *(f)* 15

## Assignment No. 29 Chopin, Prelude in G major, Op. 28, No. 3 (Chapters 7 and 9)

From a formal/structural perspective, Chopin's G-major Prelude stands midway between the binary forms already examined and those that remain for Chapter 9. In fact, you will notice that some of the shorter passages in Chapter 7 of the text reflect the period structure of the Prelude. Hence you can use graphs from both Chapter 7 (Examples 7.16 and 7.17) and Chapter 9 (see, in particular, Example 9.14) as your guides for this analysis.

First, identify the cadences and number of phrases. For the first phrase, examine *carefully* the opening figuration in the left hand (it is an introduction to the piece). There is more to this accompaniment than appears at first glance; you should keep its characteristics in mind as you analyze the remainder of the Prelude.

The second phrase, although beginning similarly to the first, quickly veers off and introduces new material. Notice in particular the harmony prolonged from bars 18–23 (which does not appear in the first phrase). Hint: This harmony and a tone it supports are “motivated” by a feature—an appoggiatura—in the left hand's opening flourish. Another hint is that by the conclusion of the prolongation (bar 23), the specific Roman numeral is different from that in bar 18 (although both represent the same intermediate *Stufe*).

We have suggested an association between the opening left-hand diminution and the “new” material in the second phrase. But see if you can also discover how this diminution foreshadows (perhaps more tangibly) the technique that applies to the *Urfinie* in the first phrase. Remember that a consideration of this type pertains to *analysis* (as opposed to the more general idea of theory). Although theory and analysis are interrelated, and work interactively in a spiral of understanding (sometimes referred to as the “hermeneutic circle”), the act of analysis seeks to reveal the special idiosyncratic features that mark a composition as a unique work of art.

## Assignment 29

**Vivace**

## Assignment No. 30 Schumann, *Dichterliebe*, "Ich will meine Seele tauchen" (Chapters 8 and 9)

This composition shares structural features with Chopin's Prelude in the previous assignment; use the instructions and approach for that assignment in your analysis of Schumann's song. Prepare a graphic analysis (two or three levels) and use Example 8.6 as your model. Important: Because this is a song, study the words before analyzing the music, determining any words or phrases that Schumann might earmark for "text painting."

Notice that the music does not begin with tonic harmony; review our discussion of *auxiliary cadences* in Chapter 9 (pp. 256–259). As you work you will discover another auxiliary cadence that establishes the first of two intermediate chords; use similar graphic notation for both auxiliary cadences.

Bar 9 begins the consequent phrase (the second branch of the divided fundamental structure). In principle, your graph of bars 9–16 will be essentially the same as for the antecedent phrase. Be sure, however, to consider carefully any changes (no matter how slight), particularly those occurring at the perfect authentic cadence in bars 15–16.

## Assignment 30

18

Measures 18 and 19 of the Piano Concerto in D Major, Op. 15, No. 1, Movement II. The score is written for piano and features a treble and bass staff. The key signature is D major (two sharps). The melody in the treble staff consists of eighth and quarter notes, while the bass staff provides a rhythmic accompaniment with eighth and quarter notes. A large slur covers the entire passage.

20

Measures 20 through 23 of the Piano Concerto in D Major, Op. 15, No. 1, Movement II. The score is written for piano and features a treble and bass staff. The key signature is D major (two sharps). The melody in the treble staff includes a ritardando (rit.) marking over measures 20 and 21, indicated by a horizontal line with a dashed line underneath. The bass staff continues with eighth and quarter notes. A large slur covers the entire passage.

## Assignment No. 31 Beethoven, Bagatelle, Op. 119, No. 9 (Chapter 9)

This little piece is a so-called rounded binary form (review our discussion of form and structure at the beginning of Part 2 in the text). As a first step, identify and label all of the cadences on the score. Your goal is to prepare a graphic analysis that depicts two or three structural levels; use Examples 9.13 and 9.14 as your models.

The piece incorporates two registers in the right hand. What is the specific technique of melodic prolongation that links the middle to the higher register in the opening bars? Review also Example 6.12 in the text. In several measures, a tone of the *Urlinie* is chromatically inflected. Where does its "1" form appear? What melodic technique (discussed in the text) does this tone represent? Hint: In bar 3, the main tone is *not* C (think of the imaginary-continuo chord implied by the left hand). Important: Notice that the first part concludes in the tonic, not on V as in Chopin's G-major Prelude.

The next part (after the double bar) is a separate B section that concludes on V (note the fermata that marks the section's conclusion). Consider also, in the B section, a prominent voice-leading motion in the upper voice, from B to C (twice). Also, consider the accompanying upward motions to  $e^3$ ; what is the specific technique of melodic prolongation these high points represent?

Finally, beginning in bar 13, the opening part is repeated *exactly* (an  $A^2$  section). Three interruptions occur in this piece, but only one resides at a deep mid-ground level. Consider this aspect when notating the various *Urlinie* patterns. In other words, distinguish carefully between those tones requiring filled-in noteheads and higher ranking pitches represented by open noteheads. In effect, the technique of interruption leads to an "out-of-phase" characteristic between the parts of the form and the parts of the structure (often typical of a rounded binary). Be sure you can explain the complex interaction of form and structure in words and depict it graphically in your sketch.

## Assignment 31

## Vivace moderato

Handwritten musical score for Assignment 31, titled "Vivace moderato". The score is written for piano in 3/4 time. It consists of three systems of music, each with a treble and bass staff joined by a brace. The key signature has one flat (B-flat). The tempo is marked "Vivace moderato".

**System 1:** Measures 1-6. The melody in the treble staff begins with a quarter rest, followed by eighth and quarter notes. The bass staff provides a harmonic accompaniment with chords and single notes. A dynamic marking of *p* (piano) appears in measure 4.

**System 2:** Measures 7-13. Measure 7 starts with a *f* (forte) dynamic. Measure 8 has a *p* (piano) dynamic. A repeat sign is placed after measure 8. Measures 9-13 continue the melodic and harmonic development. Measure 12 has a *f* dynamic, and measure 13 has a *p* dynamic.

**System 3:** Measures 14-19. Measure 14 starts with a *p* dynamic. Measure 17 has a *f* dynamic. Measure 18 has a *p* dynamic. The piece concludes with a final cadence in measure 19.

## Assignment No. 32 Haydn, String Quartet, Op. 74, No. 3, II, bars 1–22 (Chapter 9)

This section of Haydn's movement (bars 1–22) is a binary form closed in the tonic. (In a later assignment, you will analyze the complete movement as a ternary form.) Analyze this passage in the same manner as that for Examples 9.13 and 9.14 (rounded binary).

Some hints for the passage: What is the traditional name of the chord in bar 8? How does it introduce and prepare the next tone of the *Urlinie*? In bar 12, consider the Roman numeral (in B major) of the chord on beats 3–4. Where does one expect it to resolve (and where is that expectation fulfilled)? An *unfolded* pair of intervals occurs in the upper and lower voices of bar 13 (review this technique in Chapter 6). The E-major chords in that bar do not represent structural tonic harmony.

A consideration pertaining to analysis: How are the chords in bars 8 and 12 (beats 1–2) related? (The first is marked *fortissimo*, the second *pianissimo*.) Finally, consider Haydn's use of middle and high registers in the upper voice and comment on how register is used in a compositional sense (this aspect will become more fully apparent when you analyze the complete movement in a later assignment).

## Assignment 32

19 23

Measures 19-23 of a musical score in 3/4 time, key of D major. The score consists of four staves. Measures 19-22 feature a piano (p) accompaniment with a melody in the right hand and a bass line in the left hand. The melody is marked with *fz* (forzando) and *p* (piano). Measure 23 shows a change in the piano part, with a new melody in the right hand and a bass line in the left hand. The score includes dynamic markings *fz* and *p*, and a repeat sign.

25 28

Measures 25-28 of a musical score in 3/4 time, key of D major. The score consists of four staves. Measures 25-28 feature a piano (p) accompaniment with a melody in the right hand and a bass line in the left hand. The melody is marked with *fz* (forzando) and *f* (forte). Measure 29 shows a change in the piano part, with a new melody in the right hand and a bass line in the left hand. The score includes dynamic markings *fz* and *f*, and a repeat sign.

30 33

Measures 30-33 of a musical score in 3/4 time, key of D major. The score consists of four staves. Measures 30-33 feature a piano (p) accompaniment with a melody in the right hand and a bass line in the left hand. The melody is marked with *p* (piano). Measure 34 shows a change in the piano part, with a new melody in the right hand and a bass line in the left hand. The score includes dynamic markings *p* and a repeat sign.

## Assignment 32

35 38

Measures 35-38 of a musical score. The score is written for four staves (treble and bass clef). The key signature is one sharp (F#). Measure 35 starts with a treble clef staff containing a half note G4 and a whole note F#4. The bass clef staff contains a half note G2 and a whole note F#2. Measures 36-37 show a complex texture with multiple staves. Measure 38 features a treble clef staff with a half note G4 and a whole note F#4, and a bass clef staff with a half note G2 and a whole note F#2.

39

Measures 39-42 of a musical score. The score is written for four staves (treble and bass clef). The key signature is one sharp (F#). Measure 39 starts with a treble clef staff containing a half note G4 and a whole note F#4. The bass clef staff contains a half note G2 and a whole note F#2. Measures 40-42 show a complex texture with multiple staves. Measure 42 features a treble clef staff with a half note G4 and a whole note F#4, and a bass clef staff with a half note G2 and a whole note F#2.

43

Measures 43-46 of a musical score. The score is written for four staves (treble and bass clef). The key signature is one sharp (F#). Measure 43 starts with a treble clef staff containing a half note G4 and a whole note F#4. The bass clef staff contains a half note G2 and a whole note F#2. Measures 44-46 show a complex texture with multiple staves. Measure 46 features a treble clef staff with a half note G4 and a whole note F#4, and a bass clef staff with a half note G2 and a whole note F#2. The score includes dynamic markings such as *ff* (fortissimo) and *f* (forte).

## Assignment 32

47

Measures 47 and 48 of a musical score in A major (three sharps). The score is written for four staves: Treble 1, Treble 2, Bass 1, and Bass 2. Measures 47 and 48 are connected by a brace. In measure 47, all staves have a half note marked *p* (piano). In measure 48, the Treble 1, Treble 2, and Bass 1 staves have a half note marked *f* (forte), while the Bass 2 staff has a half note marked *f* and a triplet of eighth notes marked *f* in the following measure.

49

Measures 49 and 50 of a musical score in A major. The score is written for four staves: Treble 1, Treble 2, Bass 1, and Bass 2. Measures 49 and 50 are connected by a brace. In measure 49, all staves have a half note marked *pp* (pianissimo). In measure 50, all staves have a half note marked *pp*.

50

Measures 51 and 52 of a musical score in A major. The score is written for four staves: Treble 1, Treble 2, Bass 1, and Bass 2. Measures 51 and 52 are connected by a brace. In measure 51, all staves have a half note marked *pp*. In measure 52, all staves have a half note marked *pp*.

## Assignment 32

51

Measures 51-53 of a musical score in A major (three sharps). The score is written for four staves: Treble, Treble, Alto, and Bass. Measure 51 features a complex melodic line in the first Treble staff with a fermata and a dynamic marking of *f*. Measure 52 continues the melodic development with a dynamic marking of *f*. Measure 53 shows a descending melodic line in the first Treble staff with a dynamic marking of *f*. The Alto and Bass staves provide harmonic support with sustained notes and moving lines.

54

Measures 54-56 of the musical score. Measure 54 features a triplet of eighth notes in the first Treble staff with a dynamic marking of *pp*. Measure 55 continues the melodic line with a dynamic marking of *pp*. Measure 56 shows a descending melodic line in the first Treble staff with a dynamic marking of *pp*. The Alto and Bass staves provide harmonic support with sustained notes and moving lines.

57

Measures 57-59 of the musical score. Measure 57 features a triplet of eighth notes in the first Treble staff with a dynamic marking of *fz*. Measure 58 continues the melodic line with a dynamic marking of *fz*. Measure 59 shows a descending melodic line in the first Treble staff with a dynamic marking of *fz*. The Alto and Bass staves provide harmonic support with sustained notes and moving lines.

## Assignment 32

60

This musical score is for measures 60 through 64 of a piece. It is written for four staves: two treble clefs (top two) and two bass clefs (bottom two). The key signature is three sharps (F#, C#, G#). The time signature is common time (C). The music is marked with a piano (*pp*) dynamic. Measures 60 and 61 show a melodic line in the first treble staff and a corresponding line in the first bass staff, with rests in the other two staves. Measures 62 and 63 show a similar pattern, but with a second melodic line appearing in the second treble staff and the second bass staff. Measure 64 concludes the phrase with a double bar line. The notation includes eighth notes, quarter notes, and half notes, often beamed together or with slurs.

## Assignment No. 33 Haydn, String Quartet, Op. 64, No. 5, II, bars 1–34 (Chapter 9)

This passage is similar to that from Haydn's String Quartet presented in the previous assignment; use the same approach and models in Chapter 9 in analyzing this rounded binary form.

Some points and hints for consideration: A subdominant chord is introduced in bar 5 and can be prolonged and transformed for more than two bars (in this regard, consider a connection between D in the bass and a chromatic transformation of D in bar 7).

A  $C^\sharp$  appears over the chord in bar 13, which is  $V_2^4$  in the "new" key. What ramifications does this observation hold for the function of  $C^\sharp$  in the upper voice (review in particular Example 9.12)? From a broader perspective, what technique underlies the "emergence" of E major in bars 13–16?

The little B section runs from bars 17–22. Consider that at least part of the cello's line belongs to a "tenor voice," above a sustained (but silent) bass note. Hint: The notion of a bass/tenor "space" is suggested previously by the octave Es in bar 16. In this reading, regard the structural bass as literally resuming in bar 21.

The major change in the  $A^2$  section occurs in bars 29–31; we regard the IV chords in bars 27 and 31 as connected. What, then, are some possible interpretations for bars 28–31, the new material of the section? Finally, comment on the primary difference between the cadence of the  $A^1$  section and that of the  $A^2$  section.

## Assignment 33

Adagio  
Cantabile

Measures 1-5 of the musical score. The key signature is three sharps (F#, C#, G#) and the time signature is 3/4. The score is written for four staves: Treble 1, Treble 2, Bass 1, and Bass 2. Measure 1 features a melodic line in Treble 1 and a bass line in Bass 1. Measure 2 continues the melody in Treble 1. Measure 3 includes a forte (*fz*) dynamic marking in Treble 1 and a half note in Bass 1. Measure 4 features a rapid sixteenth-note scale in Treble 1, marked *fz*, and rests in the other staves. Measure 5 continues the scale in Treble 1, marked *fz*, and features eighth-note patterns in Treble 2 and Bass 2.

Measures 6-10 of the musical score. Measure 6 begins with a forte (*fz*) dynamic marking in Treble 1. Measure 7 continues the melody in Treble 1. Measure 8 features a melodic line in Treble 1 and a bass line in Bass 1. Measure 9 continues the melody in Treble 1. Measure 10 features a melodic line in Treble 1, marked *fz*, and eighth-note patterns in Treble 2 and Bass 2.

Measures 12-15 of the musical score. Measure 12 features a rapid sixteenth-note scale in Treble 1, marked *fz*, with a measure rest in Treble 2. Measure 13 continues the scale in Treble 1, marked *fz*, and features eighth-note patterns in Treble 2 and Bass 2. Measure 14 continues the scale in Treble 1, marked *fz*, and features eighth-note patterns in Treble 2 and Bass 2. Measure 15 continues the scale in Treble 1, marked *fz*, and features eighth-note patterns in Treble 2 and Bass 2.

## Assignment 33

18 20

24 27

29 32

## Assignment No. 34 Mozart, Clarinet Quintet, K. 581, III (Trio I) (Chapter 9)

This piece—a complete Trio—is the final binary presented for Chapter 9. Hint: This composition is traditionally referred to as a rounded binary, but it also comes very close to exhibiting the characteristics of a little *sonata* form (more on this in a later assignment). Use Examples 9.12–9.14 as your guides.

Some points and hints for consideration: The first violin (in the A<sup>1</sup> section) continually moves above the *Urlinie*. How do you explain the tones and motions in the higher register *not* belonging to the *Urlinie* proper? How is the intermediate harmony of C major expanded (beginning in bar 11)? The answer should help you determine the nature of Mozart's asymmetrical groups of measures: the first group is from bars 1–7, the second (counting bar 7 also as a beginning measure) from bars 7–16 (7 + 10).

Mozart recomposes certain portions of the A<sup>2</sup> section so that the entire section is in the home tonic (one reason why it approaches a sonata in construction). Identify the place in the corresponding spot in the A<sup>1</sup> section where Mozart makes the change in the A<sup>2</sup> section. For instance, Mozart uses a Neapolitan sixth chord as the intermediate harmony in the A<sup>2</sup> section (compare to II<sup>6</sup> in the A<sup>1</sup> section). Can you posit a reason why he chooses to use the Neapolitan sixth in bars 36–39 instead of II<sup>6</sup> in A minor (which would result from a literal transposition down a fifth of bars 11–14 from the A<sup>1</sup> section)?

Another important consideration: The first choice for the first tone of the *Urlinie* is perhaps e<sup>2</sup> of the anacrusis. Can you think of reasons why c<sup>2</sup> in bar 4 might also be considered a possibility?

## Assignment No. 35 Haydn, String Quartet, Op. 74, No. 3, II (B section and completion of movement) (Chapter 10)

For this assignment, you will analyze the B section of the Haydn movement you began in Assignment No. 32. As you discovered, however, considered as a unit closed in the tonic, the A<sup>1</sup> section is a binary form. Form in tonal music—like harmony and counterpoint—is hierarchical. Hence a higher level of form *embraces* the binary forms of the flanking A sections (such pieces are sometimes referred to as “composite” forms).

Your goal is to consider how Haydn integrates a section in E minor into an E-major *Ursatz*. Examples 10.1 through 10.6 present clear instances of “form within form,” as well as illustrating how sections in different modes function in a unified *Ursatz*. Review our discussion of Schenker’s conception of mixture in Chapter 6.

One approach to the analysis of composite forms is to treat each autonomous section as a small, but complete composition (the approach underlying the passages examined in Chapter 7); then combine them to see how they relate compositionally. In other words, analyze the B section without reference to your previous analysis, and then consider how it functions in relation to the A<sup>1</sup> and A<sup>2</sup> sections.

How does C major—the primary tonicization of the B section—relate to the tonic of E minor and ahead to the V that concludes the B section? In short, what is the T–Int–D structure underlying the A<sup>1</sup> and B sections? Comment on the recomposition Haydn makes for the A<sup>2</sup> section and on the coda that follows it and portray it graphically. Can you discover (in the very brief coda, bars 60–64) the rather literal motivic recollections drawn from the A and B sections?

## Assignment 35

19 23

Measures 19-23 of a musical score in 3/4 time, key of D major. The score is written for four staves: Treble 1, Treble 2, Bass 1, and Bass 2. Measures 19-22 are marked with *fz* (for Treble 1, Treble 2, Bass 1) and *p* (for Bass 2). A crescendo hairpin is shown between measures 20 and 22. Measure 23 is marked with *p* for all staves. The music features various note values, including eighth and sixteenth notes, and rests.

25 28

Measures 25-28 of a musical score in 3/4 time, key of D major. The score is written for four staves: Treble 1, Treble 2, Bass 1, and Bass 2. Measures 25-28 are marked with *fz* (for Treble 1, Treble 2, Bass 1) and *f* (for Bass 2). A crescendo hairpin is shown between measures 26 and 28. The music features various note values, including eighth and sixteenth notes, and rests.

30 33

Measures 30-33 of a musical score in 3/4 time, key of D major. The score is written for four staves: Treble 1, Treble 2, Bass 1, and Bass 2. Measures 30-33 are marked with *p* for all staves. The music features various note values, including eighth and sixteenth notes, and rests.

## Assignment 35

35

38

Measures 35-38 of a musical score. The score is written for four staves: Treble, Treble, Alto, and Bass. The key signature is three sharps (F#, C#, G#). The time signature is 4/4. Measures 35-37 show a complex texture with many sixteenth and thirty-second notes. Measure 38 features a change in key signature to four sharps (F#, C#, G#, D#) and a more melodic line in the Treble staff.

39

Measures 39-42 of a musical score. The score is written for four staves: Treble, Treble, Alto, and Bass. The key signature is four sharps (F#, C#, G#, D#). The time signature is 4/4. Measures 39-41 feature a complex texture with many sixteenth and thirty-second notes, including triplets. Measure 42 features a change in key signature to three sharps (F#, C#, G#) and a more melodic line in the Treble staff.

43

Measures 43-46 of a musical score. The score is written for four staves: Treble, Treble, Alto, and Bass. The key signature is three sharps (F#, C#, G#). The time signature is 4/4. Measures 43-45 feature a complex texture with many sixteenth and thirty-second notes, including a sextuplet in measure 43. Measure 46 features a change in key signature to two sharps (F#, C#) and a more melodic line in the Treble staff. The dynamic marking **ff** (fortissimo) is present in measures 44-46.

## Assignment 35

51

Measures 51-53 of a musical score in A major (three sharps). Measure 51 features a rapid ascending scale in the right hand, marked with a forte (*f*) dynamic. Measure 52 continues the scale in the right hand, also marked *f*, while the left hand plays a simple harmonic accompaniment. Measure 53 shows the right hand playing a descending scale, marked *f*, and the left hand continuing its accompaniment. A fingering of 10 is indicated for the right hand in measure 53.

54

Measures 54-56 of the musical score. Measure 54 features a triplet of eighth notes in the right hand, marked *pp* (pianissimo). Measure 55 continues the triplet in the right hand, marked *pp*, while the left hand plays a simple harmonic accompaniment. Measure 56 shows the right hand playing a descending scale, marked *pp*, and the left hand continuing its accompaniment.

57

Measures 57-59 of the musical score. Measure 57 features a triplet of eighth notes in the right hand, marked *fz* (forzando). Measure 58 continues the triplet in the right hand, marked *fz*, while the left hand plays a simple harmonic accompaniment. Measure 59 shows the right hand playing a descending scale, marked *fz*, and the left hand continuing its accompaniment.

## Assignment 35

60

This musical score is for measures 60 through 64 of a piece. It is written for four staves: two treble clefs (top two) and two bass clefs (bottom two). The key signature is three sharps (F#, C#, G#). The time signature is 12/8, indicated by a '12' over a '8'. The music features a variety of note values including eighth, quarter, and half notes, as well as rests. Slurs are used to group notes across measures. The dynamic marking *pp* (pianissimo) is present in measures 60, 61, 62, and 64. Measure 61 includes a fermata over a half note in the second treble staff. The piece concludes in measure 64 with a double bar line.

## Assignment No. 36 Brahms, Intermezzo, Op. 118, No. 2, B section (bars 49–73) (Chapter 10)

The B section of Brahms's Intermezzo is a separate formal section (a ternary design) closed in the key of F<sup>#</sup> minor. Analyze this section using Example 10.9 as your guide. Brahms uses a recurring "basic" motive (beginning in the upper voice of bar 49) throughout this section, a succession of tones that decorates the primary tone of the section's *Urlinie*. Comment on the various ways in which he repeats and expands this motive. In particular, look for the motive recurring *imitatively* (almost canonically). Also, be cognizant of the compound melodies in both the right and left hands.

Some hints and questions for consideration: As a first step, identify all the phrases and cadences. The c<sup>#2</sup> on the downbeat of bar 50 is a passing tone, not a resumption of the primary tone of the *Urlinie*. In the bass, the F<sup>#</sup>s in bars 53–54 are related, supporting a 5–6 shift over tonic harmony. This procedure is quite common in moving from I to V (see Example 12.8b).

In the b section, bars 57–64, what ramification does the *retention* of the key of F<sup>#</sup> (although a different mode) have for the motivic *unification* of the large B section? (As in Chapter 10, note the use of lowercase letters to identify formal patterns *within* the large sections of the Intermezzo.) Comment on an *Urlinie* descent in the F<sup>#</sup>-major passage (compare to Assignment No. 4, Chopin's Nocturne in F minor). Describe the ways in which Brahms recomposes the a<sup>2</sup> section (bars 65–73). Note that the climax of the B section occurs in bar 69. What aspects contribute to the perception of "climax," and what structural feature of the *Urlinie* is thereby emphasized?

## Assignment 36

65 **Tempo I** *p*

*cresc.*

*tre corde*

69 *f* 73

The musical score is for a piano piece in G major (one sharp) and 3/4 time. It consists of two systems of staves. The first system, measures 65-72, begins with a piano (p) dynamic and a crescendo (cresc.) marking. The melody in the right hand features a series of eighth-note runs, while the left hand provides a steady eighth-note accompaniment. The second system, measures 69-73, starts with a forte (f) dynamic. The right hand continues with eighth-note patterns, and the left hand maintains the accompaniment. The piece is marked 'Tempo I' and 'tre corde'.

## Assignment No. 37 Beethoven, Piano Sonata, Op. 7, II (Chapter 10)

This assignment, like the Haydn movement in Assignment Nos. 32 and 35, is a composite ternary form. (See also Example 10.26 in the textbook, which is also a ternary form.) For the A<sup>1</sup> section: A prolonged V (bars 10–14) follows the tonic area. What structural tone (of the *Urlinie*) is prolonged over the V? What form-producing technique precedes the return of the main theme in bar 15? Notice the bass figure A–A<sup>b</sup>–G in bars 13–14. As you analyze, notice the similar chromatic motions that can recur in other sections and at different structural levels. Finally, one expects tonic harmony in bar 20. What occurs instead? How does the motion in bars 20–23 relate to the cadential motion in bars 17–19?

For the B section: The passage begins in A<sup>b</sup> major. Consider the large-scale harmonic function of this *Stufe* in relation to the structural V in bar 37. This goal is intensified and preceded by a chromatic chord that often signals the conclusion or *boundary* of a prolongational span (review our discussion of prolongational spans in the text). The boundary relates to the A<sup>b</sup>-major chord at the beginning of the section (bar 25); together they form a harmonic “frame” (for prolongation). Closer to the foreground, the bass moves through various “waypoints” (beginning on A<sup>b</sup>) in an arpeggiation that leads to D<sup>b</sup> major in bar 33, a temporary goal highlighted by a repetition of the main theme of the B section. The bass then initiates a rising linear progression; consider the goal of this motion as a resumption of the beginning chord of the section.

Conclusion: Because the A<sup>2</sup> section is a virtual repetition of the A<sup>1</sup> section, we present only a few comments about the coda. The top voice begins on g<sup>2</sup>, which initiates a rising linear progression supported by a motion from I to V. What structural tone does this progression recall? Beethoven uses the motion A<sup>b</sup>–G as a “character” throughout the piece, a motive recurring (in various guises) in the tonal drama of the movement. As you analyze the coda, consider the versions of this motive to those in the A<sup>1</sup> and B sections. For instance, what is the relationship of the bass in bars 13–14 to the *large-scale bass of the B section*, and, subsequently, to bars 82–83 in the coda?

## Assignment 37

Largo, con gran espressione

The musical score is written for piano and treble staves in 3/4 time. It consists of five systems of music, with measures numbered 1 through 22. The tempo and expression are indicated as "Largo, con gran espressione".

**System 1 (Measures 1-6):** The piano part begins with a *p* (piano) dynamic. The treble part has a *sf* (sforzando) marking in measure 5.

**System 2 (Measures 7-12):** Measure 7 is marked with *sf*. Measure 8 has a *p* marking in the piano part. Measure 9 has a *sf* marking in the piano part. Measure 10 has a *sf* marking in the piano part. Measure 11 has a *sf* marking in the piano part. Measure 12 has a *sf* marking in the piano part. The instruction "tenute" is written above the treble staff in measure 9.

**System 3 (Measures 13-17):** Measure 13 has a *fp* (fortissimo piano) marking in the piano part. Measure 14 has a *f* (fortissimo) marking in the piano part. Measure 15 has a *pp* (pianissimo) marking in the piano part. Measure 16 has a *rinf.* (rinfacciato) marking in the piano part. Measure 17 has a *sf* marking in the piano part.

**System 4 (Measures 18-21):** Measure 18 has a *sf* marking in the piano part. Measure 19 has a *sf* marking in the piano part. Measure 20 has a *pp* marking in the piano part. Measure 21 has a *ff* (fortissimo) marking in the piano part.

**System 5 (Measures 22-25):** Measure 22 has a *pp* marking in the piano part. Measure 23 has a *pp* marking in the piano part. Measure 24 has a *pp* marking in the piano part. Measure 25 has a *pp* marking in the piano part. The instruction "sempre tenuto" is written above the treble staff in measure 24.

The musical score is written for piano on a grand staff (treble and bass clefs). It consists of five systems of music, each starting with a measure number. The first system (measures 73-75) features a treble staff with eighth-note patterns and a bass staff with chords and single notes. Dynamics include *f*, *p*, and *sf*. The second system (measures 76-78) continues the treble staff's eighth-note patterns and the bass staff's accompaniment. Dynamics include *sf*, *f*, *ff*, *ff*, *sf*, and *p*. The third system (measures 79-83) shows a more complex treble staff with slurs and ties, and a bass staff with chords. Dynamics include *pp*. The fourth system (measures 84-86) features a treble staff with slurs and ties, and a bass staff with chords. Dynamics include *pp*. The fifth system (measures 87-90) concludes the piece with a treble staff featuring a repeat sign and a bass staff with chords. Dynamics include *pp*, *ffp*, and *pp*.

## Assignment No. 38 Brahms, Intermezzo in A minor, Op. 76, No. 7 (Chapter 10)

By this time, you have gained considerable experience making graphs and applying Schenker's approach to analysis. In the remaining assignments, therefore, we limit our comments to suggesting specific text models and providing hints by formal section (sometimes we will present the hints in the form of rhetorical questions).

See Examples 10.26–10.31 in relation to this piece. Does the  $A^1$  section begin at the very beginning of the piece or in the anacrusis to bar 9? Likewise, the opening bars are repeated at the conclusion of the Intermezzo; hence is this concluding passage a coda or an integral part of the  $A^2$  section? (A composition with a "prelude" and "postlude" is certainly a possibility.) What specific technique does Brahms use to establish C major (III) by the double bar?

To evaluate the first part of the B section, consider that  $A^1$  concludes (bar 16) with C in the bass and E in the upper voice. The chromatic linear motions (in the outer voices) at the beginning of the B section follow from these points of departure. Notice also the two-bar "voice exchanges" between soprano and bass in bars 17–18 and 19–20. Hint: What harmony is prolonged by these procedures? Finally, consider the chord succession leading away from III and toward V of A minor (bars 21–24) as  $II^7-V-I$  in the key of E.

Considering the purposeful motions reestablishing A minor in bars 24–27, you might read a return to structural tonic harmony here, a plausible interpretation that would signal an  $A^2$  section. Another, more esoteric reading is also possible (both work with the imaginary continuo). Consider the length and emphasis of the subdominant *Stufe* beginning in bar 28. It might be possible to posit that D minor develops from the previous C-major *Stufen* (III) at the double bar; in this situation, a structural V (at the first level of the middleground) does not appear in bars 23–26. In both situations—including others you might arrive at independently—consider whether an interruption divides the structure of this Intermezzo. If an interruption is not present, explain from a Schenkerian perspective how a three-part form develops within an undivided *Urlinie*.

## Assignment 38

37

40

*p*

*p*

This system contains measures 37 through 40. Measure 37 features a treble clef with eighth-note chords and a bass clef with eighth-note chords. Measures 38 and 39 are whole rests. Measure 40 begins with a piano (*p*) dynamic, showing a treble clef with a half-note chord and a bass clef with a half-note chord. A slur connects the two staves in measure 40.

42

44

*mp*

This system contains measures 42 through 44. Measure 42 features a treble clef with a half-note chord and a bass clef with a half-note chord. Measure 43 features a treble clef with a half-note chord and a bass clef with a half-note chord. Measure 44 features a treble clef with a half-note chord and a bass clef with a half-note chord. A slur connects the two staves in measure 44. The dynamic *mp* (mezzo-piano) is indicated in measure 42.

## Assignment No. 39 Mozart, Piano Sonata, K. 279, Andante (Chapter 11)

The second movement of Mozart's Piano Sonata, K. 279, is in sonata form. Because of its breadth, we present comments and points for consideration in three sections, corresponding to the exposition, development, and recapitulation. Use Examples 11.5ff. as your guides; consult also the general patterns on the sonata principle in Chapter 12.

For the exposition: Determine the main cadences, key areas, and subsections. At what point does Mozart write a perfect authentic cadence in the new key area, which marks the beginning of the closing section? How is the cadence avoided and postponed? In bars 10–17, scale-degree  $\hat{2}$  of the *Urlinie* is prolonged with a fifth-progression; why can this line *not* be the *Urlinie* of the C-major area? A perfect authentic cadence occurs in bars 25–26, accompanied by one of Mozart's characteristic trills, signaling the structural close of the exposition. Address how Mozart expands the second fifth-progression  $\hat{5}-\hat{1}$  in C major.

For the development: The prolongation of  $\hat{2}$  over V is the most characteristic plan for major-mode development sections. This does not mean, however, that V is always present; secondary motions, often in different keys, might serve to prolong the underlying V. The  $V^7$  in bars 41–42 is the boundary of the dominant prolongation and the chord that prepares the tonic of the recapitulation. How, for instance, might one relate the A-major triads (V of D minor) to the C-major chord at the beginning of the development section? In this section,  $I^6$  (in D minor) is prominent, emphasized through the bass motions G–F in bars 33 and 35. (Note that the *root-position* D-minor chord is played softly, which suggests a lower-ranking status.) This observation should help you to organize the lower-level motions of the development section.

For the recapitulation: Because of the obvious repetitions from the exposition, you should have no trouble sketching the recapitulation. Consider that the second part of the exposition—the area in V (C major)—recurs transposed down a fifth into the tonic. In other words, all motions not heard initially in the tonic recur in F major, including the second *Urlinie* and its elaborations. From a broader perspective, how must the transposition of the secondary fifth-progression be interpreted in terms of the *Ursatz*?

## Assignment 39

**Andante**

The musical score is written for piano and treble clef. It is in 3/4 time and has a key signature of one flat (B-flat). The tempo is marked **Andante**. The score consists of five systems of two staves each. The first system starts with a forte (**f**) dynamic in the piano part and a piano (**p**) dynamic in the treble part. The second system continues with alternating dynamics. The third system features a piano (**p**) dynamic in the piano part and a forte (**f**) dynamic in the treble part. The fourth system includes trills (**tr**) in the treble part. The fifth system concludes with alternating dynamics. The score includes various musical notations such as triplets, accents, and trills.

## Assignment 39

This section of the musical score for 'The Swan' by Camille Saint-Saëns contains measures 62 through 70. It is written for piano and features a variety of musical textures and dynamics. Measures 62-65 show a complex interplay between the right and left hands, with the right hand often playing melodic lines and the left hand providing harmonic support through chords and arpeggios. Dynamics range from *f* (forte) to *p* (piano). Measures 66-69 continue this pattern, with the right hand featuring trills and the left hand playing dense chordal textures. The final measure, 70, concludes the section with a final chord in the right hand and a melodic phrase in the left hand.

## Assignment No. 40 Clementi, Sonatina, Op. 36, No. 3, I (Chapter 11)

Clementi's movement is a "little" sonata, exhibiting techniques on a small scale that apply to more extended sonata movements. As with other sonata assignments, it will be useful to consult the analysis of Mozart's "Haffner" Symphony in the text.

For the exposition: Analyze the exposition in sections, bars 1–12 (C major), and bars 13–26 (G major). Consider each as a lower-level *Ursatz* parallelism. Before beginning to sketch, be able to explain Schenker's principle of the *transference of the forms of the fundamental structure to individual harmonies*. Compare with the dominant area in Examples 11.7 and 11.8. Make a preliminary analysis showing *two* lower-level fundamental structures, one in C major and the other in G major. Consider the fundamental line of the G-major area as an "offshoot"—a secondary linear progression—of the main *Urfinie* of the exposition. In the C-major section, consider the melodic function of A (often expressed as  $a^2$ ); this tone occurs as part of the "6 for 4" technique discussed in the text.

For the development: The lowest note of the left hand clarifies the role of the dominant throughout this brief development section. In dominant prolongations, the upper voice often moves through one or more intervals of the underlying V. Discover the interval here by tracing the stepwise line in bars 27–31, beginning on  $g^1$ . If  $d^2$  is still active at a deeper level, what technique does the stepwise line represent?

For the recapitulation: The recapitulation in Clementi's Sonatina is a relatively straightforward reworking of the exposition. Prepare *two* graphs as you did for the exposition. Now, of course, the second sketch will also illustrate a tonic prolongation. Consider how the two main upper-voice motions (one for each section) function within the *Urfinie* of the entire compositions. Give special consideration to the role of the linear progression of the second theme (bars 49–82). What structural motion does it represent in the recapitulation?

The corresponding transition section of a recapitulation is often where the modification (of the exposition) becomes clear. Show in your graph Clementi's changes, which "prevent" a modulation to V, and maintain the global tonic of C major. Hint: Clementi underscores this pivotal area with a crescendo from *piano* to *fortissimo* in bars 40–44. Finally, compare the relationship between form and structure in this movement to that of Mozart's Trio analyzed in Assignment No. 34.

## Assignment 40

**Spiritoso.**

## Assignment 40

21

Measures 21-24 of a piano piece. Measure 21 starts with a piano (*p*) dynamic. Measure 22 includes a crescendo (*cresc.*) marking. Measure 23 features a forte (*f*) dynamic and a trill (*tr*) on the right hand. Measure 24 returns to a piano (*p*) dynamic. The right hand has a treble clef and the left hand has a bass clef.

25

Measures 25-28 of a piano piece. Measure 25 includes a crescendo (*cresc.*) marking. Measure 26 features a forte (*f*) dynamic. Measures 27 and 28 continue the piece. The right hand has a treble clef and the left hand has a bass clef.

29

Measures 29-32 of a piano piece. Measure 29 includes a crescendo (*cresc.*) marking. Measure 30 features a forte (*f*) dynamic. Measure 31 features a fortissimo (*ff*) dynamic. Measure 32 continues the piece. The right hand has a treble clef and the left hand has a bass clef.

33

Measures 33-36 of a piano piece. Measure 33 includes a diminuendo (*dim.*) marking. Measure 34 features a piano (*p*) dynamic. Measure 35 features a pianissimo (*pp*) dynamic. Measure 36 features a forte (*f*) dynamic. The right hand has a treble clef and the left hand has a bass clef.

37

Measures 37-40 of a piano piece. Measure 37 features a piano (*p*) dynamic. Measures 38, 39, and 40 continue the piece. The right hand has a treble clef and the left hand has a bass clef.

## Assignment 40

41

*f* *ff*

45

*p*

49

*dolce*

52

*cresc.* *f*

56

*tr* *p*

## Assignment 40

60

Measures 60-61 of a piano piece. Measure 60 features a treble clef with a 7/8 time signature and a bass clef. The treble staff has a *cresc.* marking. Measure 61 features a *f* marking and a trill (*tr*) on the final note of the treble staff.

62

Measures 62-64 of a piano piece. Measure 62 features a *p* marking. Measure 63 features a *cresc.* marking. Measure 64 features a *f* marking and a repeat sign. The piece concludes with a double bar line.

## Assignment No. 41 Mozart, String Quartet, K. 172, Adagio (Chapter 11)

This piece goes “just beyond” a rounded binary; because of the characteristics of bars 19–31 (the conclusion of the movement), this section can be considered a legitimate recapitulation. Hence, the composition is a slow-movement sonata form. Use the instructions given for the previous assignment, including dividing the exposition (and recapitulation) into two sections as you analyze. Refer to the discussion of the “Haffner” symphony in the text.

For the exposition: Mozart doesn’t actually “modulate” to V, rather just uses the half cadence of bar 4 as the method of establishing B<sup>b</sup> major (this kind of motion is typical of his style). The midpoint of the exposition is at bar 5; consider bars 5ff. to be in the dominant, with its own (local) *Urlinie*. The chord in bar 9 is II<sub>5</sub><sup>6</sup> in the dominant; you will need to consider whether C or E<sup>b</sup> is the main tone in the upper voice. Important: The cello line in bar 11 suggests two registers and hence a bass and a tenor voice; this observation will prove useful for the analysis of the development section.

For the development section: Does the E<sup>b</sup>-major chord in bar 12 represent a return to tonic harmony, or could the bass perhaps belong to the “tenor” voice mentioned earlier? Consider the ramifications of both. In a general sense, the goal of a development in the major mode is usually V; in this piece, the dominant appears in bars 17–18. Compare carefully the first V in bar 17 with the chord on the fourth beat of bar 18. What technique does Mozart use to “prepare” the beginning of the recapitulation? Refer to Example 11.11 in the text to help you answer this question.

For the recapitulation: The first part (bars 19–22) is literally restated from the exposition. The second part (bars 23–30) appears now in the tonic (a standard technique of sonata form). The question is this: How does one determine the function of the local structural melody (now in E<sup>b</sup> major) to the *Urlinie* of the composition? Use Example 12.11 in the text as your guide.

## Assignment 41

**Adagio**

The musical score is written for four staves (treble, two alto, and bass clefs) in a 4/4 time signature. The key signature consists of three flats (B-flat, E-flat, A-flat). The tempo is marked **Adagio**. The score is divided into three systems, each containing four staves. The first system begins with a forte (*f*) dynamic. The second system starts with a triplet of eighth notes. The third system begins with a piano (*p*) dynamic and includes a trill (*tr*) in the first staff. Dynamics alternate between *f* and *p* throughout the piece.

## Assignment 41

7

Handwritten musical score for 'The Rose Tree'. The score is written on four staves. The first staff is a treble clef with a key signature of two flats (B-flat and E-flat) and a common time signature. It contains a melody with a repeat sign. The second staff is a treble clef with a key signature of two flats and a common time signature, containing a melody with a repeat sign. The third staff is a bass clef with a key signature of two flats and a common time signature, containing a melody with a repeat sign. The fourth staff is a bass clef with a key signature of two flats and a common time signature, containing a melody with a repeat sign. The score is divided into two measures by a vertical line. The first measure contains the first half of the melody, and the second measure contains the second half. The melody is written in a simple, folk-like style with a key signature of two flats and a common time signature.

11

A musical score for the song 'The Rose Tree'. It consists of four staves: a vocal line in treble clef, and three accompaniment staves in treble, alto, and bass clefs. The key signature has two flats (B-flat and E-flat), and the time signature is 2/4. The music is divided into two systems by a double bar line. The first system contains measures 1 through 4, and the second system contains measures 5 through 8. The vocal line features a melody with a repeat sign after the second measure. The accompaniment staves provide harmonic support with various rhythmic patterns, including eighth and sixteenth notes, and rests.

## Assignment 41

13

Measures 13-14 of a musical score in B-flat major (two flats). The score is written for four staves: Treble, Treble, Alto, and Bass. Measure 13 features a melodic line in the first Treble staff with a half note G4, a quarter note A4, and a half note Bb4. The second Treble staff has a continuous eighth-note accompaniment. The Alto staff continues the eighth-note accompaniment. The Bass staff has a simple bass line. Measure 14 continues the melodic line in the first Treble staff with a half note C5, a quarter note Bb4, and a half note A4. The accompaniment continues. A piano (*p*) dynamic marking is present at the end of measure 14.

15

Measures 15-16 of the musical score. Measure 15 features a melodic line in the first Treble staff with a half note G4, a quarter note A4, and a half note Bb4. The second Treble staff has a continuous eighth-note accompaniment. The Alto staff continues the eighth-note accompaniment. The Bass staff has a simple bass line. Measure 16 continues the melodic line in the first Treble staff with a half note C5, a quarter note Bb4, and a half note A4. The accompaniment continues. Dynamics include piano (*p*) and forte (*f*) markings in measures 15 and 16.

17

Measures 17-18 of the musical score. Measure 17 features a melodic line in the first Treble staff with a half note G4, a quarter note A4, and a half note Bb4. The second Treble staff has a continuous eighth-note accompaniment. The Alto staff continues the eighth-note accompaniment. The Bass staff has a simple bass line. Measure 18 continues the melodic line in the first Treble staff with a half note C5, a quarter note Bb4, and a half note A4. The accompaniment continues. Dynamics include piano (*p*) and forte (*f*) markings in measures 17 and 18.

## Assignment 41

19

*f*

21

23

*p* *f*

*p* *f*

*p* *f*

This musical score is for Assignment 41, spanning measures 19 to 23. It is written for a four-staff ensemble in a key with three flats (B-flat, E-flat, A-flat) and a 3/4 time signature. The notation includes various musical symbols such as notes, rests, beams, and dynamic markings. Measures 19 and 20 are marked with a forte (*f*) dynamic. Measures 21 and 22 are marked with a piano (*p*) dynamic. Measures 23 and 24 are marked with a forte (*f*) dynamic. The score is divided into three systems, each containing four staves. The first system (measures 19-20) features a melody in the first staff, a rhythmic accompaniment in the second and third staves, and a bass line in the fourth staff. The second system (measures 21-22) continues the melody and accompaniment. The third system (measures 23-24) concludes the passage with a final melody and accompaniment. The dynamics *f* and *p* are used to indicate changes in volume throughout the piece.

## Assignment 41

25

Measures 25-26 of a musical score in 3/4 time, key of B-flat major. The score is written for four staves: Treble, Treble, Alto, and Bass. Measure 25 features a melody in the first Treble staff with a half note G4, a quarter note A4, and a half note Bb4, all beamed together. The second Treble staff has a continuous eighth-note accompaniment. The Alto staff has a continuous eighth-note accompaniment. The Bass staff has a continuous eighth-note accompaniment. Measure 26 continues the melody in the first Treble staff with a half note C5, a quarter note Bb4, and a half note A4, all beamed together. The accompaniment continues in the other three staves.

27

Measures 27-28 of a musical score in 3/4 time, key of B-flat major. The score is written for four staves: Treble, Treble, Alto, and Bass. Measure 27 features a melody in the first Treble staff with a half note G4, a quarter note A4, and a half note Bb4, all beamed together. The second Treble staff has a continuous eighth-note accompaniment. The Alto staff has a continuous eighth-note accompaniment. The Bass staff has a continuous eighth-note accompaniment. Measure 28 continues the melody in the first Treble staff with a half note C5, a quarter note Bb4, and a half note A4, all beamed together. The accompaniment continues in the other three staves. Dynamics *p* and *f* are indicated below the staves.

29

Measures 29-30 of a musical score in 3/4 time, key of B-flat major. The score is written for four staves: Treble, Treble, Alto, and Bass. Measure 29 features a melody in the first Treble staff with a half note G4, a quarter note A4, and a half note Bb4, all beamed together. The second Treble staff has a continuous eighth-note accompaniment. The Alto staff has a continuous eighth-note accompaniment. The Bass staff has a continuous eighth-note accompaniment. Measure 30 continues the melody in the first Treble staff with a half note C5, a quarter note Bb4, and a half note A4, all beamed together. The accompaniment continues in the other three staves. Dynamics *p* and *f* are indicated below the staves. A first ending bracket labeled '1.' spans measures 29-30, and a second ending bracket labeled '2.' spans measures 31-32.
