The image shows a screenshot of the Mendeley login and registration interface. At the top left, there is a red vertical bar with the word "MENDELEY" written vertically in white. To the right of this bar, the text "Welcome to Mendeley" is displayed. Below the text, there are two input fields: "E-mail" and "Password". Below the "Password" field, there is a checkbox labeled "Stay signed in" and a link "Forgot password?". At the bottom of the form, there are two buttons: "Register" and "Sign In". The background of the form features a pattern of hexagons and molecular structures.

**Abstract:**  
Tropical forests are being exposed to increasing levels of habitat loss and fragmentation, threatening the maintenance of global biodiversity. However, the effect that land-use change may have on the spatial dissimilarities in taxonomic and functional composition of remaining assemblages (i.e., taxonomic/functional  $\beta$ -diversity) remains poorly understood. Here we examined a large vegetation database from an old and severely fragmented Atlantic forest landscape to test two alternative hypotheses: (1) tree assemblages experience a taxonomic and functional ...
