

BIB5754 – Produtos Naturais I: Biossíntese e distribuição em espécies vegetais

Prof. Marcelo J. Pena Ferreira

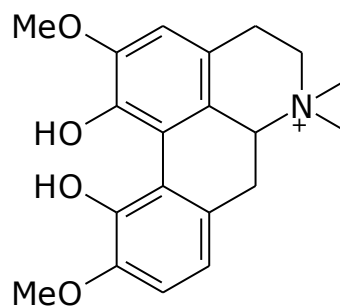

1. Determine as unidades construtoras (blocos construtores) presentes nos produtos naturais abaixo representados:

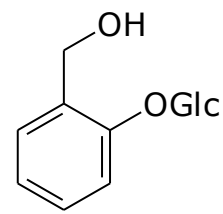

miristicina

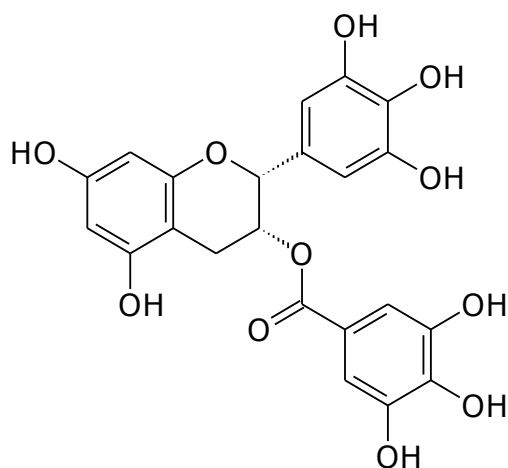

ácido artemisínico

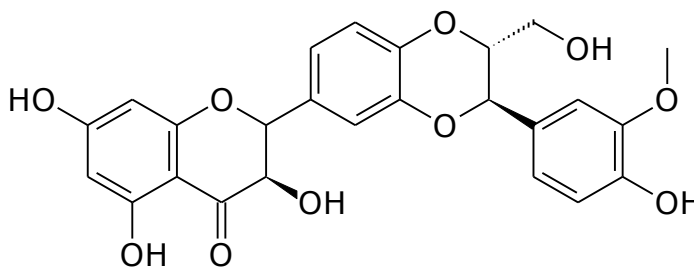

magnoflorina

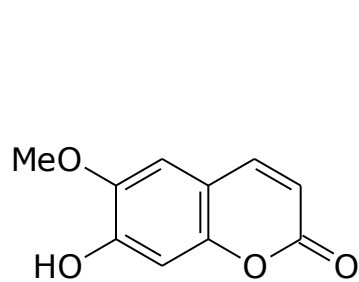

salicina

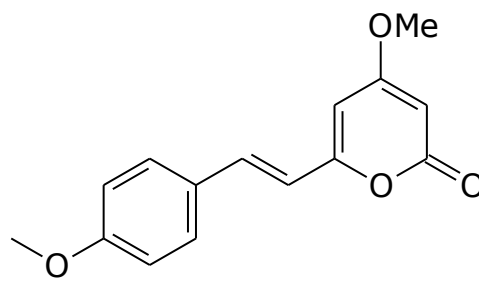

galato de epigalocatequina

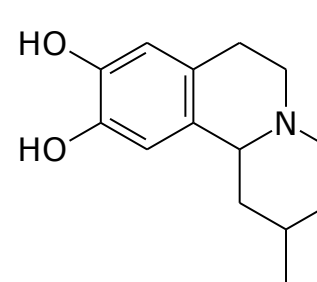

silibina A

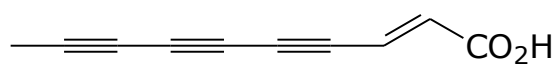

escopoletina

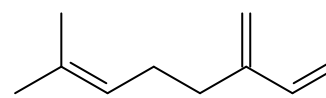

yangonina

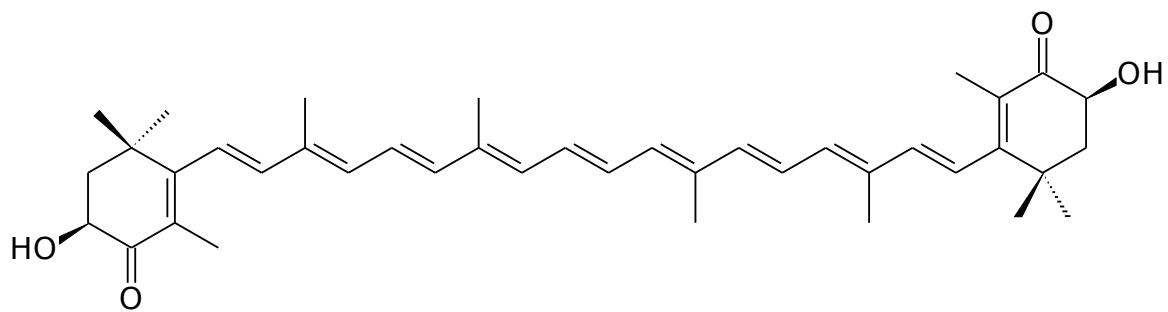

lofocerina

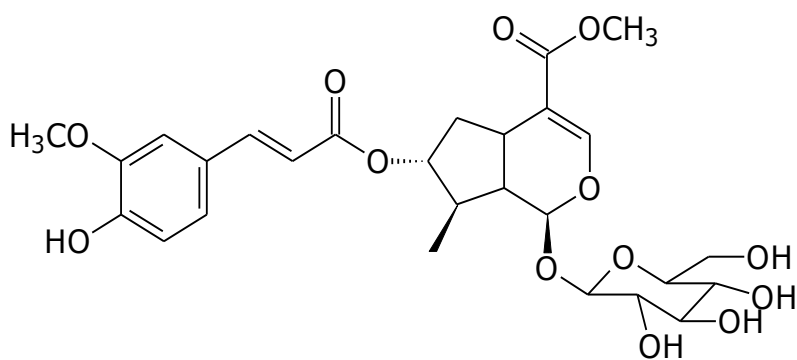

ácido deidromatricaria

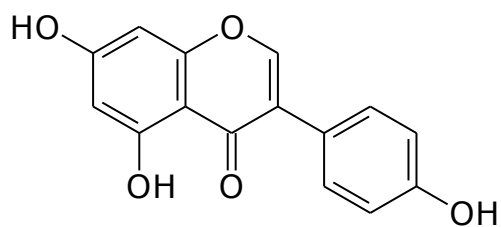

mirceno

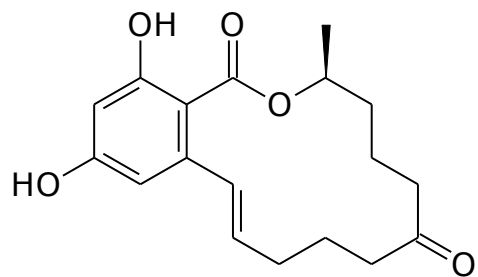

astaxantina

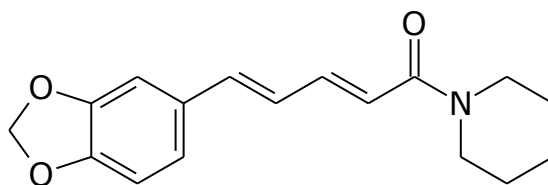

7 α -feruloil-loganina

genisteína

zearalenona

piperina
