

# ESTRUTURAS DOS FUNGOS

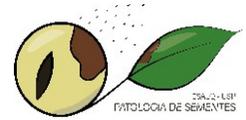

**Hifa cenocítica**

**Hifa septada**

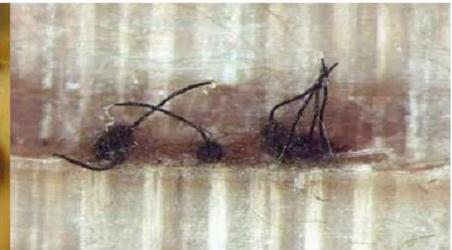

# ESTRUTURAS DOS FUNGOS

## Esporos

## Corpos de frutificação

## Micélio

## Estruturas de resistência

# ***ESPOROS PRODUZIDOS EM PICNÍDIOS***

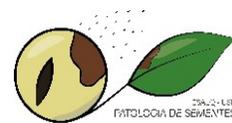

*Phomopsis* sp. - microscópio óptico e estereomicroscópio  
Fotos: J. C. Machado

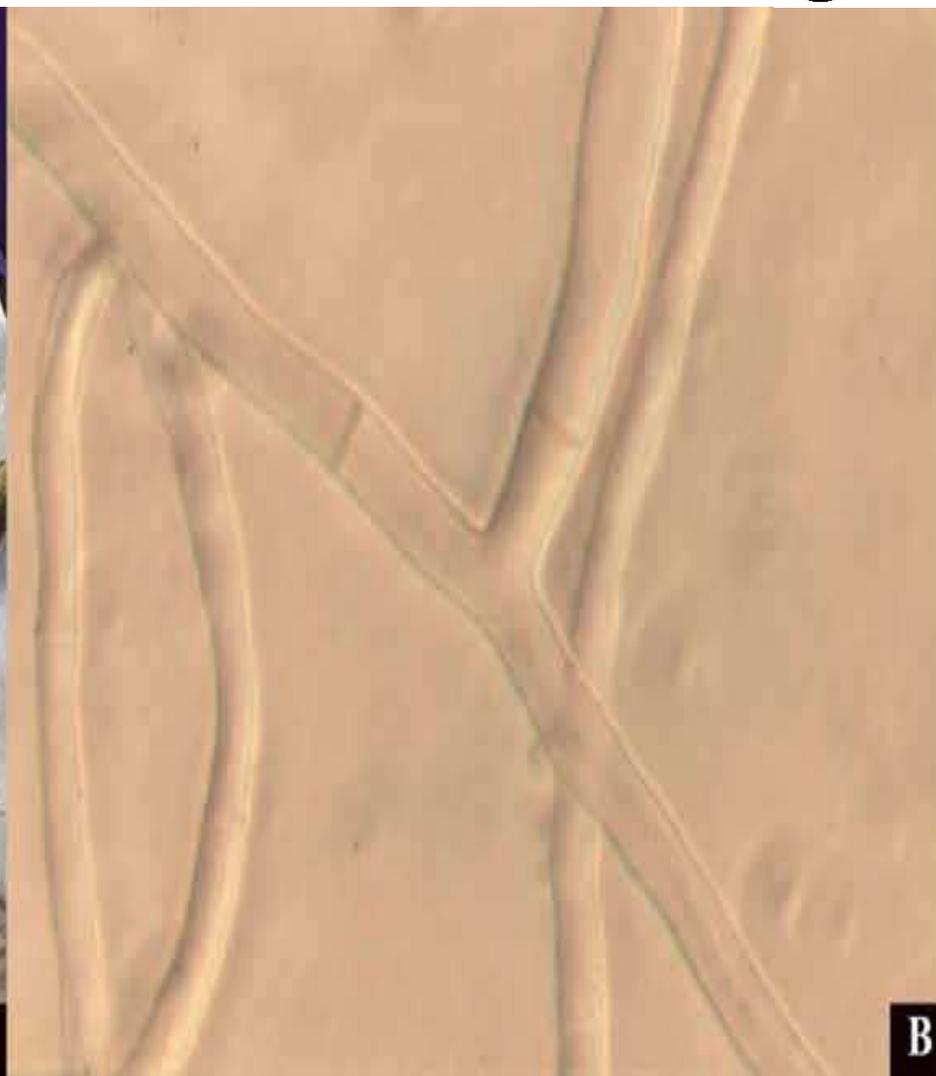

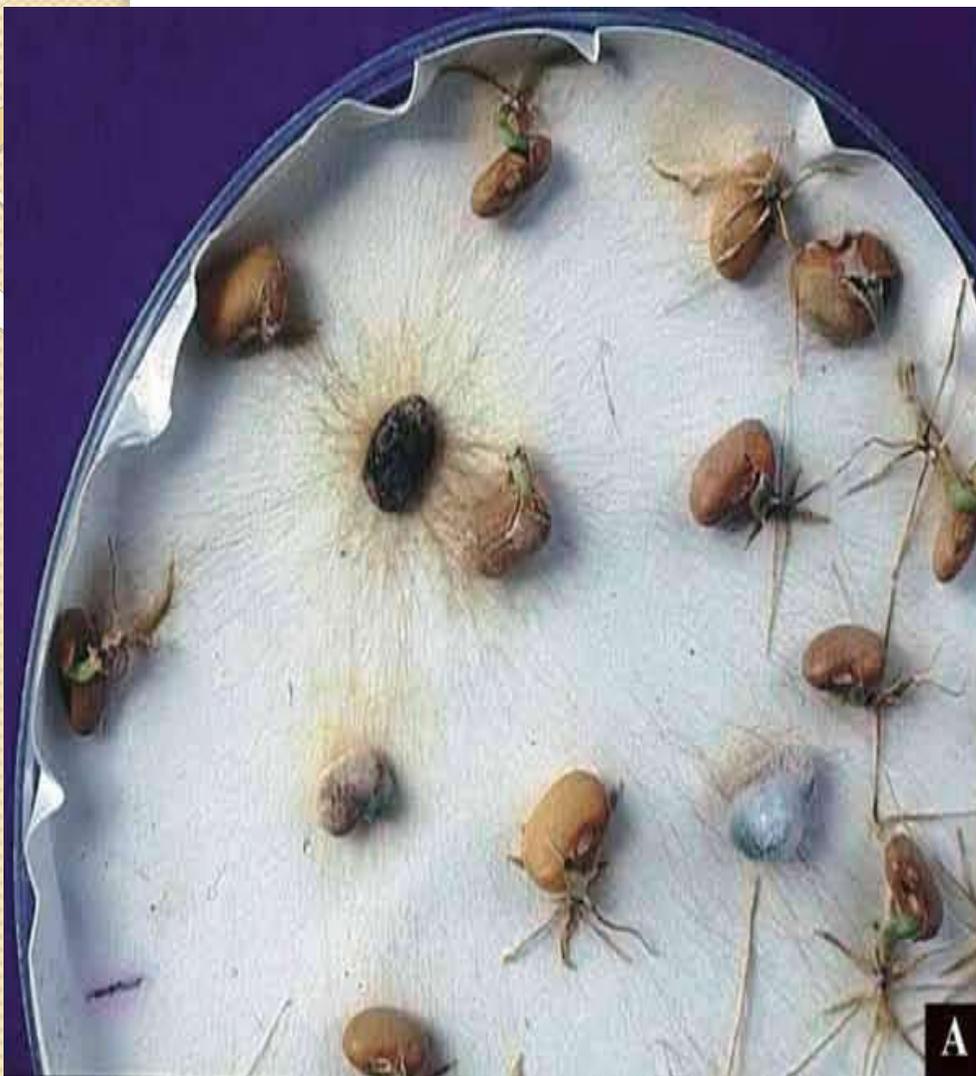

*Phoma sorghina* - microscópio óptico e estereomicroscópio  
Fotos: J. C. Machado

*Stenocarpella macrospora* - microscópio óptico e estereomicroscópio - Fotos: J. C. Machado

# ***SEM PRODUÇÃO DE ESPOROS***

***Rhizoctonia solani* - sem microscópio e microscópio óptico**  
**(B) Fotos: J.C. Machado**

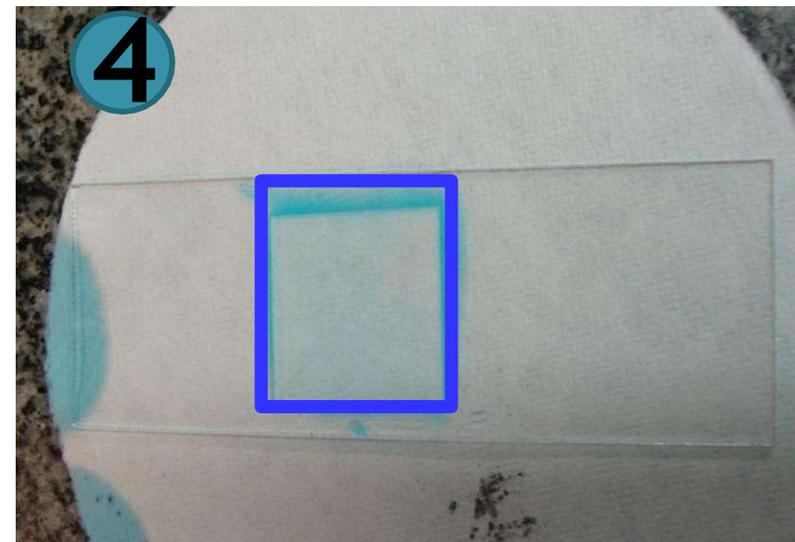

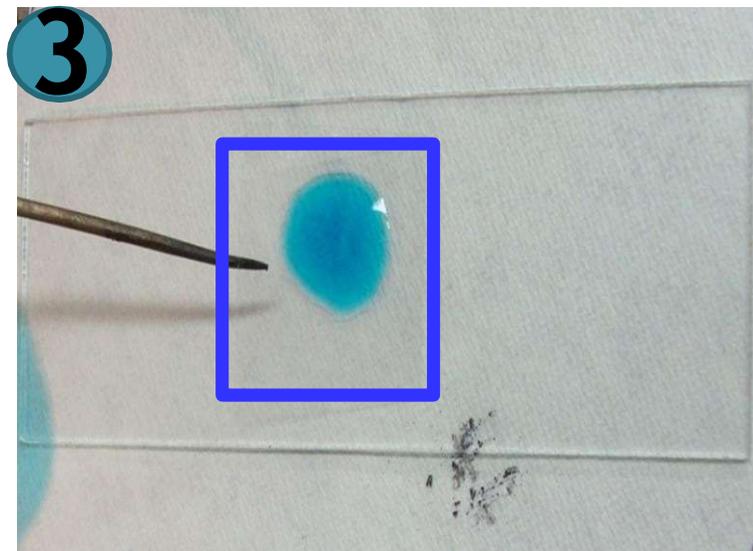

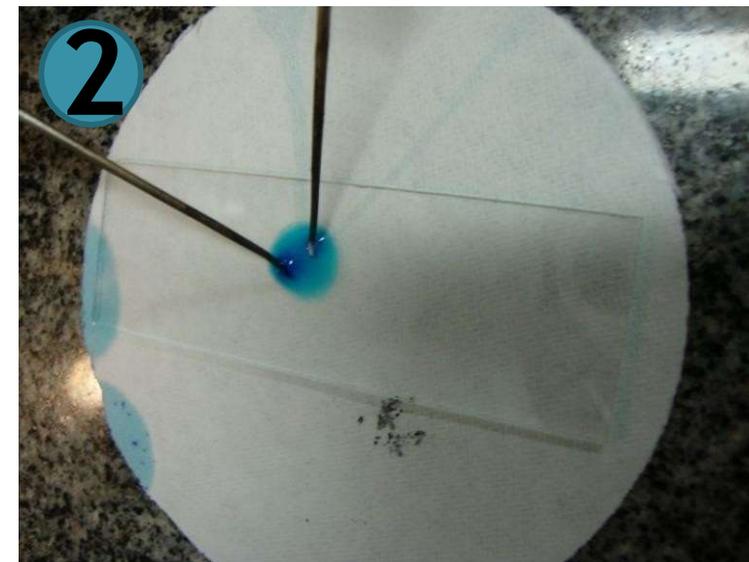

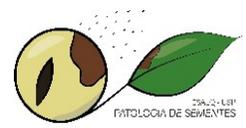

## *Rhizoctonia solani* - microscópio óptico

**Micélio e escleródios de *Sclerotinia sclerotiorum* em sementes -  
Fotos: J.C. Machado**

# ELABORAÇÃO DE LÂMINAS COM AGULHA

1. Coleta da estrutura, 2. deposição na gota de corante, 3 e 4. deposição cuidadosa da lamínula
