

CYPERACEAE

Lindolpho Capellari Júnior

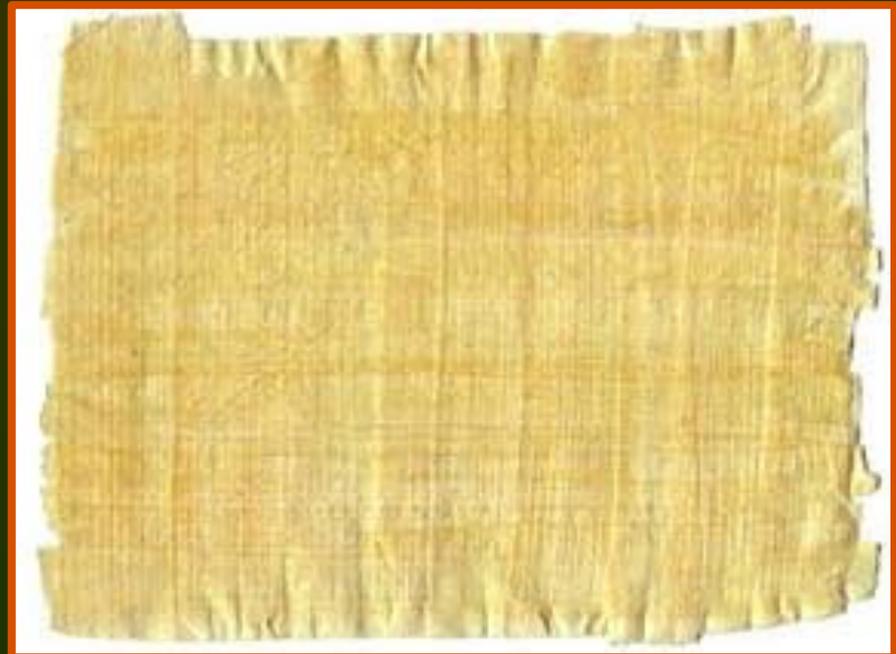

Cyperus rotundus L. tiririca

Cyperus rotundus L.
tiririca

Cyperus papyrus L.
papiro

Cyperus papyrus 'Nanus'
mini-papiro, papiro-anão

Cyperus alternifolius Rottb.

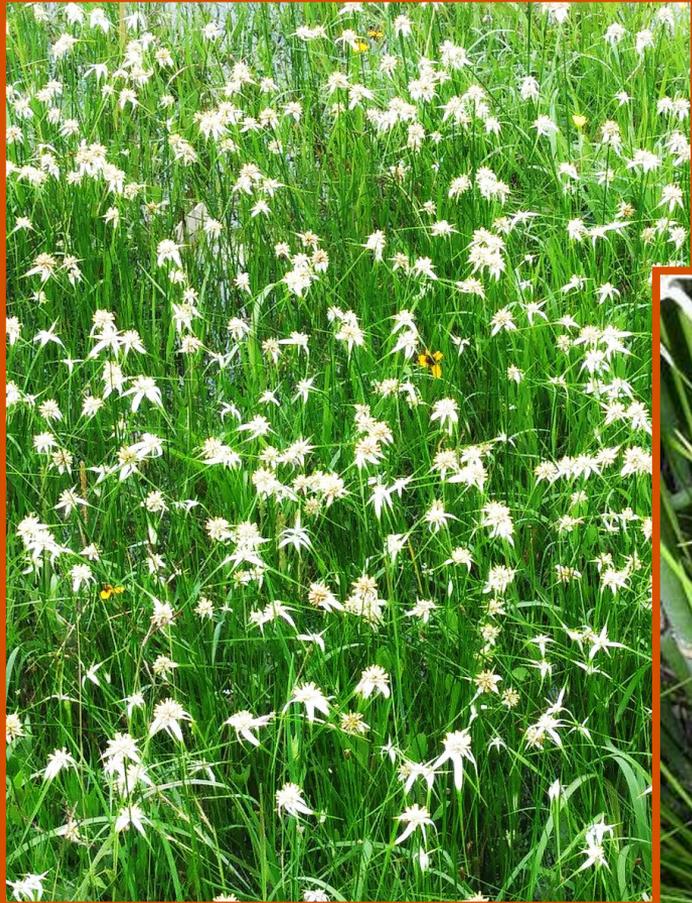

sombrinha-chinesa, papiro-de-guarda-chuva, junça

Cyperus articulatus L. priprioca

***Rhynchospora colorata* (L.) H. Pfeiff.
estrela-branca**

Poaceae \neq Cyperaceae

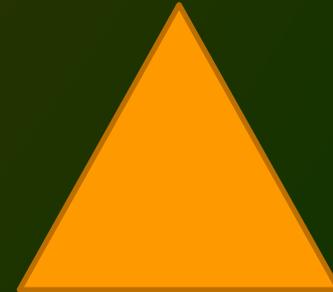

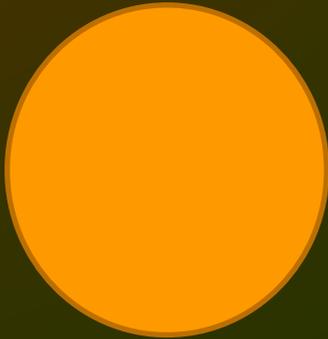

Poaceae ≠ Cyperaceae

	Poaceae (= Gramineae)	Cyperaceae
seção do caule	circular	triangular
filotaxia	alterna dística	alterna trística
bainha	aberta	fechada
lígula	presente	ausente
brácteas folhosas	ausentes	presentes
disposição das flores	dísticas na espiguetta	espiraladas na espiguetta
estilete	plumoso, dividido	não plumoso, não dividido
fruto	cariopse	aquênio (atípico)

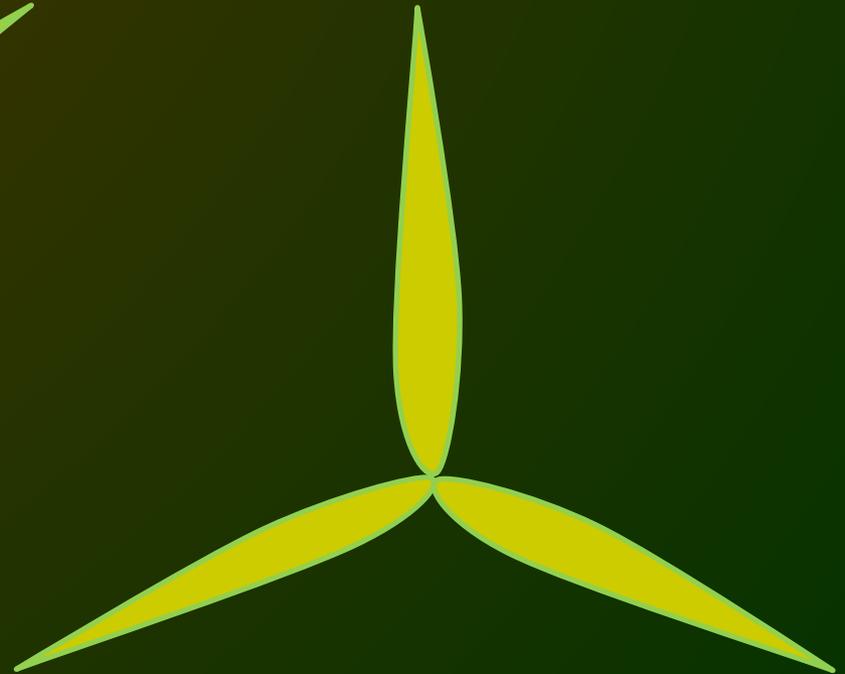

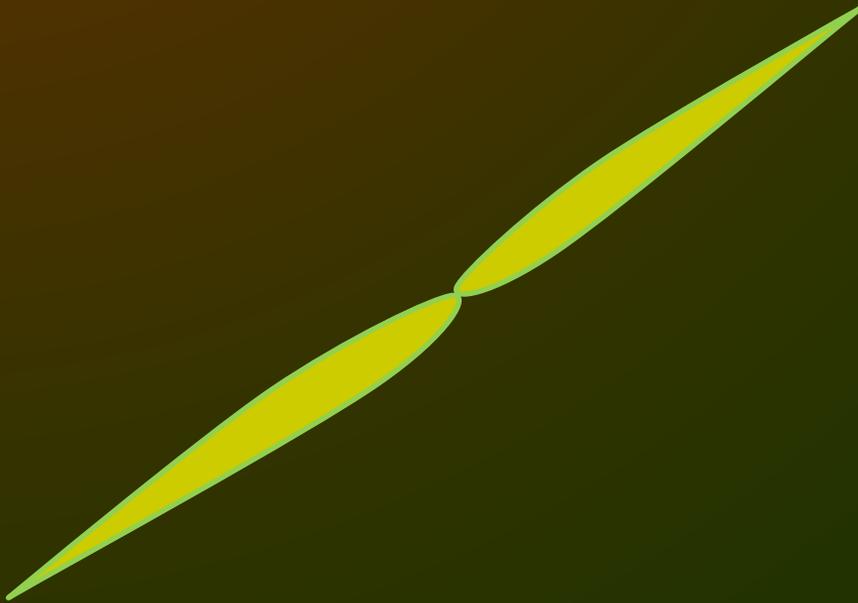

Secção do Caule

Poaceae (= Gramineae)	Cyperaceae
circular	triangular

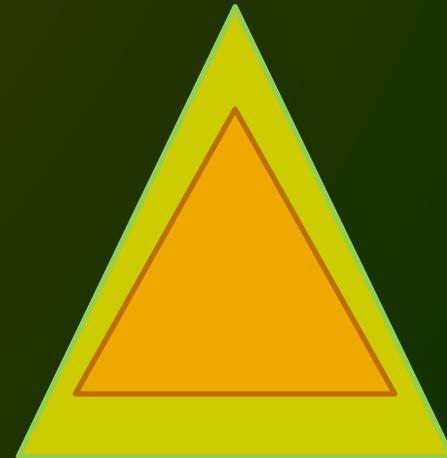

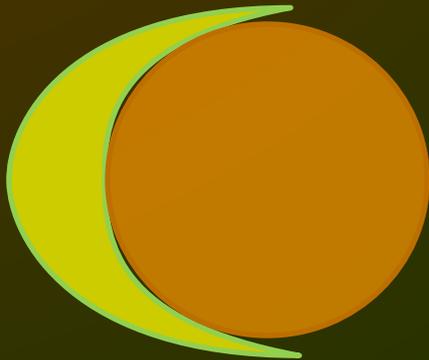

Fitotaxia

Poaceae (= Gramineae)	Cyperaceae
alterna dística	alterna trística

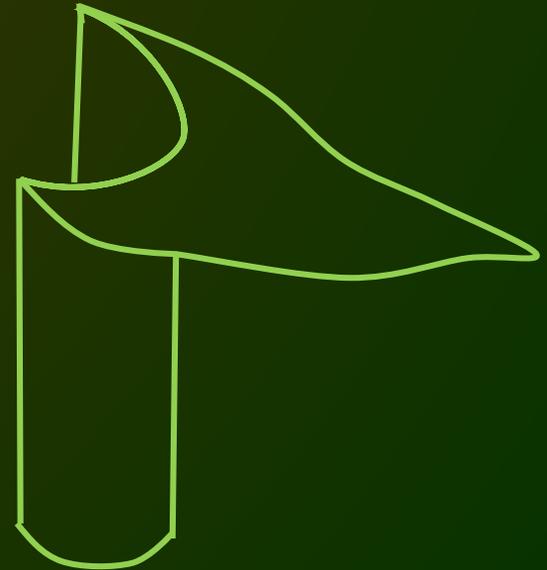

Bainha

Poaceae (= Gramineae)	Cyperaceae
aberta	fechada

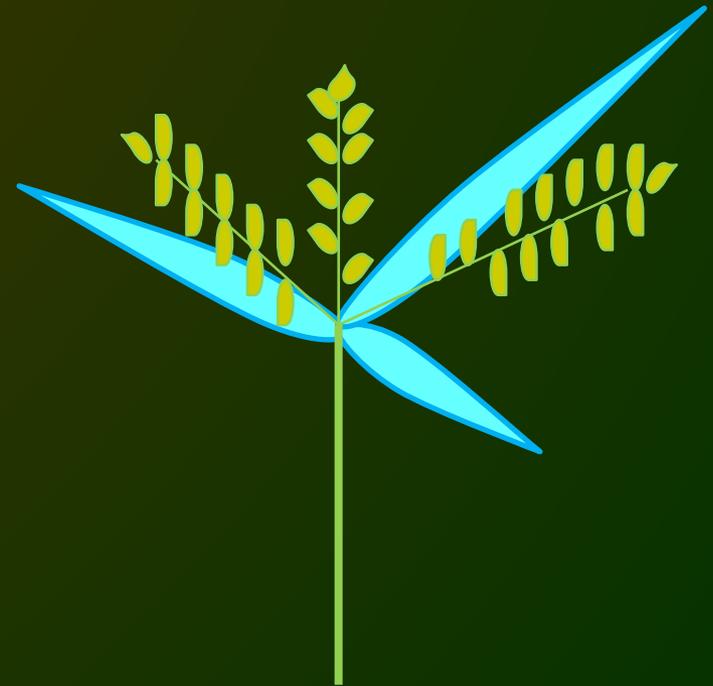

Lígula

Poaceae (= Gramineae)	Cyperaceae
presente	ausente

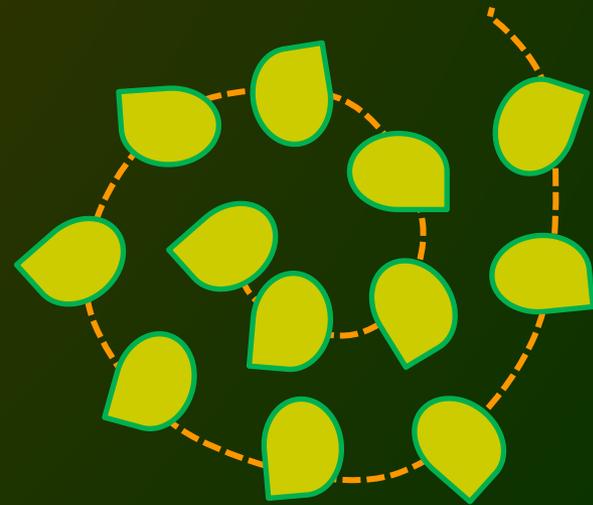

Brácteas Folhosas na Inflorescência

Poaceae (= Gramineae)	Cyperaceae
ausentes	presentes

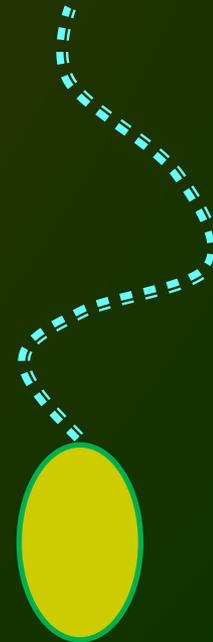

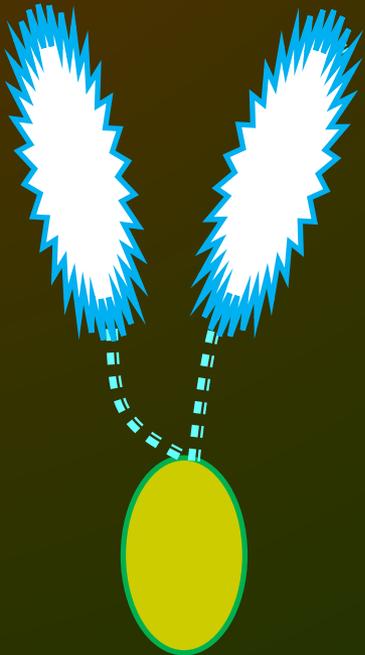

Disposição de Flores (Flósculos)

Poaceae (= Gramineae)	Cyperaceae
dísticas na espiguetas	espiraladas na espiguetas

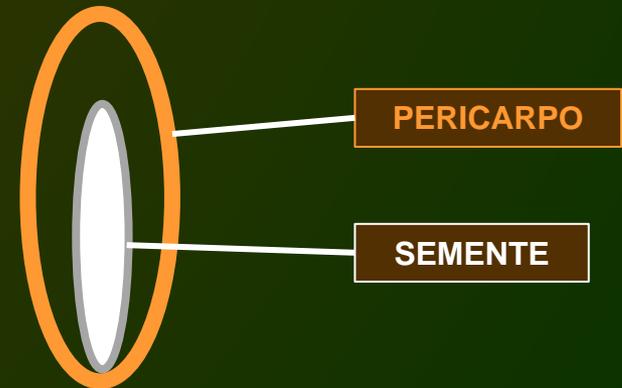

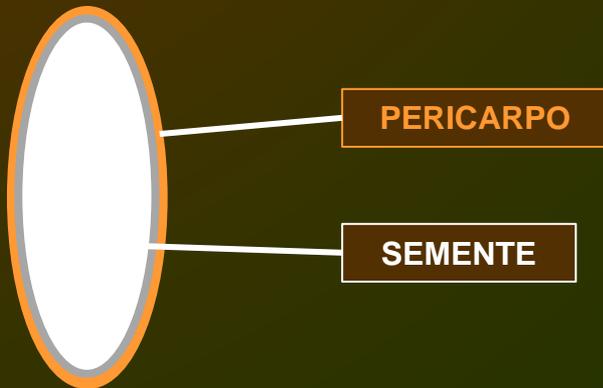

Estilete

Poaceae (= Gramineae)	Cyperaceae
plumoso, dividido em dois	não plumoso, não dividido em dois

Fruto

Poaceae (= Gramineae)	Cyperaceae
cariopse	aquênio (atípico)
