## IGSR and the 1000 Genomes Project

Populations: ● - African; ● - American; ● - East Asian; ● - European; ● - South Asian;

The International Genome Sample Resource (IGSR) was established to ensure the ongoing usability of data generated by the 1000 Genomes Project and to extend the data set. More information is available about the IGSR ([/about](/about/)).

## Latest Announcements

Wednesday July 12, 2017

[\(/announcements/FTP-maintenance/\)](/announcements/FTP-maintenance/)

[FTP maintenance \(/announcements/FTP-maintenance/\)](/announcements/FTP-maintenance/)

Our FTP site will be undergoing maintenance on Friday 21st July. For part of the time that this work is in progress, read access will not be available. The maintenance is scheduled to start at 10am BST with an estimated completion time of 10pm BST. We anticipate that read access will be unavailable for three to four hours within this period.

If you have any questions regarding this work, please contact us at [info@1000genomes.org](mailto:info@1000genomes.org) (<mailto:info@1000genomes.org>).
